IN SEVENTH INNING WITH **BASES FULL WAKE FOREST WINS IN TENTH** TAR HEELS OVERCOME EARLY

HANDICAP BUT LOOSE BY 6 TO 5 SCORE

Carolina defeated the snappy Davidson nine, last Wednesday, by a score of eight to four. The game was closer than the score would indicate; for, at the beginning of the seventh inning the visitors looked as if they were about to tie the four run majority which the blue and white nine had piled up in the first two innings.

But a little dispute around third base roused "Rudy's" band to such a fighting pitch that they added four more runs to their total during the remaining half of the seventh. After that the Davidson twirler settled down; with the result that no more hits were gotten from him in the eighth. A timely hit by the same man brought in the last run for the visitors; leaving the score 8 to 4 at the end of the opening period of the ninth.

The visiting team was somewhat weakened by the absence of their regular short-stop who injured his arm in the former game. However, Pharr played a very consistent game in his position. Barnes' hitting was a feature of the game-one of his hits being a home run with the bases full.

Thursday night in Memorial Hall the largest audience ever assembled in Chapel Hill at an illustrated lecture heard Mr. Frederick Palmer on "the War." In spite of the "hoodoo" about "those awfull acoustics," the appeal of the subject and the reputation of the journalist drew people by the hun-

Mr. Palmer began his informal discussion of various aspects of the situation from the standpoint of the eye-witness after a few remarks in praise of the South and the Southerner.

He sketched the general progress of the war and then took up some features in detail. Interesting descriptions and pictures of the dress of the various members of the entente, illustrating with many delightful anecdotes.

His narration of the happenings at Somme were quite as vivid as John Masefield's Gallipoli sketch-

A detailed account of machine guns and every sort of weapon of offense was given with countless pictures of the big boys in action. They really tear up the ground like the Sunday papers say. And those dinosaur looking things-Tanks they call them-actually look like the Times pictorial section.

has now taken a new form, in that aside from the regular student battalion it is proposed to organize a separate company composed of Seniors of the respective departments of the University.

This idea of military training

The purpose of this organization will be to offer service to the country, in case of an aggressive war, to be placed in whatever field of military activities the War Department may see fit to place the company-either as drill masters or on the actual field of operations.

The company is being organized by William Folger and R. E. L. Cook, Jr. To date they have secured a good many recruits, but as the numbers of men in a company on a war footing in one hundred and fifty, every Senior will be given a chance to answer the first call of his country. The government at first call does not want to take the "brains" from our industries, because these are a most important factor of war. It would seem then that the college senior naturally, falls within the first class to be conscripted. He has strength and intellect, yet by entering the service of his country he does not paralyze any factor of war-rather increases the power of the fighting force.

The statement by Major-General Wood in his letter to the President of Princeton University does not apply to Seniors, because before the company can be perfected the time for graduation will have passed, and seniors will be alumni. Several of the Professors have

indorsed the formation and pur--pose of this company.

Right in war time, too. Don't you think-"

"No, they had a dance on the eve of the battle of Waterloo, and-"

"Yeh, and the tug of war, an everything. Man,-" ·

"Tenshun. No talking in the rear rank. Forward,-"

Next week sure will be a full one, and rookies forget to look at their feet in thinking about it. "Salome" pasted on every stick, stone, and post will be at last a reality. Such future bliss, for Madame Zu Zu, the delightful, the mysterious, will at last be seen in action on the local stage. And such magnificence. Friends, Romans, Countrymen, lend me your eyes. Facts in detail? All the pod. reporter gets is a wink and the gravis advice to "wait and see." Compared to Salome, Theda is a rank amatyur.

Not only does the long anticipated Stunt come off, but the tug o' war will be staged at the fathomless mudhole. Just which hole is at present hard to say, but in case of rain, anyone between here and Durham will do. "Villa" Curry is the leader for the Sophomores, and declares he will stop shaving if 1919 loses. Not only the tug of war, but sundry base ball games will take place on the class field, for the class teams are acquiring all sorts of forms, some of them without any practice at all, a fact that will no doubt make some of the games well worth seeing. It is the Varsity's avowed intention to add Virginia's scalp to the trophy room belt. Doctor Lawson now has a football, and a basket-(Continued on Page Six)

have been held twice each week for each company, have been excellent and with the exception of a few tardies every one seems to put forward every effort to make the training a success. Many have not been satisfied with only the regular drills but have taken the opportunity of spare minutes to drill.

Two hundred and fifty rifles have been secured from Mr. Herman Cone, of Greensboro, and these supply a part of the corps for the training in the manual of arms. Though these guns are of very old model they serve every purpose that a modern gun would serve. An effort is now being made to secure enough guns to supply every man.

Drilling for the most part has been by squads of eight men although as many as twenty, four have been drilled together.

A course has been instituted in the flag signal drill which has caused considerable interest. This course is entirely voluntary and is held at the convenience of those taking it.

Another course which has caused no little interest is that of wireless telegraphy. This class consists of eight men who meet at the residence of Dr. Daggett every Monday.

It is probable that the four companies will spend Friday morning, which is a holiday, in drilling on a large seale.

Well, we've walloped the Presbyterians and the Methodists, anyway. Wish we had another chance at those Baptists.

Contest for Membership on Tar Heel Board

Starting with the next issue of the Tar Heel and running for five consecutive issues, the annual contest for places on the Tar Heel board will be in operation.

News topics will be posted in the journalism room in the library where every contestant may get in touch with the events of each week. At least one newstory a week should be submitted for publication, but there is no limit to the number of articles submitted. All articles whether printed or not will be carefully preserved until the close of the contest. Ten men, four of which must be rising sophomores will be selected by the committee in charge.

Place your articles in the box at the right as you enter the journalism room. Further regulations will be posted in the journalism room.

The Junior Order of the Gorgon's Head will give an informal dance at their lodge on E. Franklin Street on next Thursday afternoon from 4:30 until 6. All students, faculties and out of town guests are cordially invited to attend.

The Junior Oratorical Contest for the Carr Medal will take place Friday of Junior week.
