COMMENCEMENT

THE TAR HEEL

SEPT. 10 WILL BE
COME-BACK DAY

OFFICIAL ORGAN OF THE ATHLETIC ASSOCIATION OF THE UNIVERSITY OF NORTH CAROLINA

Volume XXVI. No. 31

CHAPEL HILL, N. C., WEDNESDAY, MAY 22, 1918

Price, Five Cents

CAROLINA IS EXPECTING GREAT COMMENCEMENT

DR. HOWE OF NEW YORK AND
DR. FRASER OF MONTREAL
ARE THE SPEAKERS

CLASSES ARE TO HOLD REUNIONS

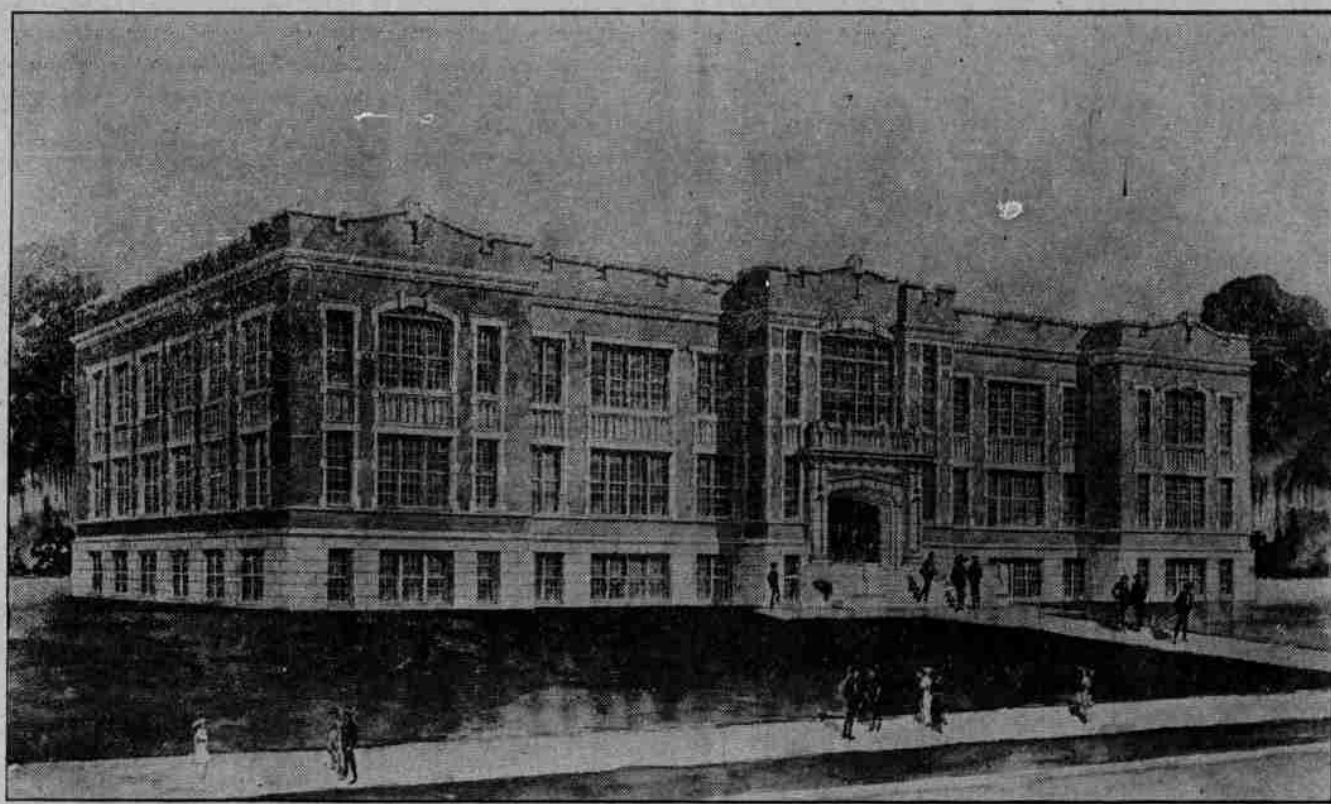

Despite the war and the unusual state of affairs resulting therefrom the Commencement this year is expected to be one of the largest and most successful ever held at the University. Dr. Frederick C. Howe, of the Board of Immigration of New York City, is to deliver the address to the graduating class. Dr. Howe is an eloquent and forceful speaker. He has also written quite a few well known books and contributed largely to the leading magazines. Dr. T. J. Fraser, President of the Presbyterian College at Montreal, Canada, will deliver the Baccalaureate sermon. Dr. Fraser is a speaker and writer of wide distinction.

While the graduating class will probably be cut to fifty or sixty due to the men leaving for the service still they will all be here in spirit and will have all the regular exercises. The Baccalaureate sermon will come Monday. Monday will be featured by the Senior Class Day exercises and contest for the Mangum Medal. Tuesday is Alumni Day. The commencement address, conferring of degrees and announcement of honors will take place Wednesday in Memorial Hall.

The classes of 1858, 1868, 1888, 1893, 1898, 1903, 1908, 1913, and 1917 are to have reunions on Alumni Day, June 4. President E. K. Graham and Dr. Archibald Henderson are members of the class of '98, now on the Hill. Prof. N. W. Walker graduated with the class of 1903. According to Mr. Rankin, who has charge of the Reunions, indications are that a large number of the Alumni will be back on the Hill to renew friendships with their class-mates.

The Faculty have decided to let the dances go on as usual this year. The Dance Leaders report that Handy's will probably be the Orchestra. If Handy's Orchestra cannot be secured, every effort will be made to get Don Richardson of New York. Richardson's Orchestra is said to be one of the best on the Atlantic Seaboard. The University will very likely use the University Band for all occasions requiring music. On account of the war, the dances will be Homeric and be as simple as possible; expenses will be cut to the minimum. In carrying out this policy, all refreshments will be of the simplest kind, and dance decorations will be as attractive but as inexpensive as possible. Flowers, feeds, and flivers have all been made contraband.

The following men have recently left the Hill to spend a few days at their respective homes, before joining the service: R. C. Maxwell, Francis Bradshaw, N. A. Boren, L. H. Tohr, C. R. Joff, R. L. Young, Leo Carr, Ed Warrich, L. H. Jobe, Q. C. Wilkins, H. V. Koontz, R. N. Pippin, Harvey Campbell, and J. C. Kennedy.

THE UNIVERSITY'S NEW \$125,000 PHYSICS BUILDING

EDITORS AND MANAGERS ARE SELECTED BY THE ATHLETIC ASSOCIATION

POWELL TO HEAD ORGANIZATION—STEPHENSON TO
EDIT TAR HEEL

The Athletic Association in its annual election here Wednesday elected the following men to serve during 1918-19:

Jack Powell—President of Athletic Association.

Ralph Pippin—Vice President.

L. H. Bryant—Secretary.

W. H. Stephenson—Editor-in-Chief Tar Heel.

T. C. Wolf, J. S. Terry—Assistant Editors.

R. W. Madry—Managing Editor.

Sam Ravenel, Cheer Leader.

V. S. Bryant, Jr.—Representative on Athletic Council.

L. H. Hodges—Manager Varsity Baseball.

E. E. White, L. H. Bryant—Asst. Managers Varsity Baseball.

Junius Horner, Will Ruffin, Boyd Harden, W. Hester—Sub-assistant Managers Varsity Baseball.

(Continued on Page 3)

POWELL CHOSEN CAPTAIN OF 1919 BASEBALL TEAM

At a recent meeting of the baseball team Jack Powell was unanimously elected captain for next year. This action of the team followed as a result of Powell's good work, both as pitcher and leading batter on the team this year. He has the hearty support of every man on and off the team and with five or six letter men back next year there is no reason why Carolina should not go over the top in baseball.

RUTHERFORD COUNTY BULLETIN

Rutherford County: Economic and Social is the title of a new bulletin to be issued by the Rutherford County Club in a few days, this being the fourth bulletin of this kind to be issued by County Clubs at the University this year.

The publication of this bulletin is made possible solely through the efforts of Mr. R. E. Price, who has done all of the work on it. Mr. K. S. Tanner, of Caroleen, an alumnus of the University and member of the class of 1911, is financing the cost of publication.

ALL PLANS MADE FOR NEW PHYSICS BUILDING

WORK WILL BEGIN RIGHT AFTER
COMMENCEMENT AND END
BEFORE SEPTEMBER

COST TO BE 125,000 DOLLARS

Monument to Progress of the University Will Be Shared by the Departments of Electrical Engineering and Pure Mathematics

Among the many improvements which Carolina men will see when they return to the Hill in September, the greatest perhaps will be the new physics and engineering building.

The building as planned will be one of the most modern and best equipped of its kind in the South, and will equal those of Yale and Harvard. The site chosen is midway between Peabody Building and Memorial Hall. Fashioned after the English Collegiate style of architecture in red tapestry brick with limestone trimmings and basement, and with an abundance of windows, this modern two story building will stand for the bigger and greater University of the future. Besides being of concrete and with steel-beams the building will have the most perfect and modern fire proof system known. The department of Pure Mathematics will share the building with the engineering and Physics department.

The large, well-ventilated basement, containing an Electrical Engineering and dynamo room, Civil and Electrical laboratories and work shops, together with class and lecture rooms will be turned over to the Electrical Engineering students.

The Civil Engineering department will use the first floor, which will be equipped with all modern conveniences, blue print room, cement laboratories, etc.

The departments of Mathematics

ATHLETIC TEAMS HONORED IN SPIRITED MASS MEETING

From the uproar of voices, the sound of yells, and the appearance of co-eds in Gerrard Hall last Wednesday night one was reminded of the night before Thanksgiving, the time when the football team leaves for Richmond. In the most spirited meeting of the year the student body met to show its appreciation to the various athletic teams for representing it so successfully during the past collegiate year.

Albert Coates opened the meeting, by reading the results of the election which took place Wednesday afternoon, after which he introduced Professor Collier Cobb who showed his usual "pep." He showed where the Phi Beta Kappa man does not always succeed because he sometimes fails to develop his brawns along with his brains. He said that there were men on the teams, however, who were leaders in their classes, in the different phases of college life, and finally leaders in the world. After Professor Cobb's peppy speech Dr. Lawson gave a review

TO WIN WAR KEYNOTE OF U. N. C. ACTIVITIES

FACULTY CO-OPERATION WITH
EVERY DEPARTMENT IN AS-
SISTING GOVERNMENT

OVER 1100 MEN IN THE SERVICE

To give its utmost to the war for democracy has been the shining light in the achievement of the University during the past year. Every department in carrying out its regular work has given the war work of the Government the right of way. The faculty has willingly granted leave of absence to 17 of its members whose services were desired by the government. Students and alumni have gone and continue to go until the total number of Carolina men in the service up to date is over 1100. This number includes two brigadier generals, five colonels, 16 majors and 75 captains.

One of the most interesting and far reaching phases of the University's war service is its Extension work, which has been greatly increased in scope and efficiency since the war began. The Extension idea is not a novel one at the University, but the war has organized and developed the Extension work to a degree not thought possible by many critical outsiders.

A new feature of the Extension work and one that has attracted great attention in the state and throughout the United States is the War Information Service. The purpose of this Service is to bring the University into contact with the communities of the state and with the individuals of this state and of the nation. This purpose is accomplished by means of lecturers sent from the faculty and through bulletins and pamphlets dealing with America's relations to the world conflict. Sixteen copies of this reading matter have already been printed and distributed. During the year Extension Centers were organized at Raleigh and Winston-Salem and others are to be started soon. In addition to conferences on definite topics in these centers, a great many lecturers are sent out to all parts of the state. The publication of leaflets is the unique feature of the division on direct publicity on why we are at war and why this is our war.

FIRST CENTER IN WINSTON-SALEM

The first University extension center was organized at Winston-Salem in February.

France was the general subject discussed at the Winston-Salem center.

Groups of all kinds of people attended the lectures and conferences at Winston-Salem. Printers, tobacco manufacturers, hardware dealers, merchants, and druggists, were included in the number. One prominent citizen of this city said he "got more out of one lecture than reading all the newspapers. I wish the government would print a million copies of the lecture and put them in the hands of all slackers. We know the facts, but had not organized and interpreted them. I am convinced that the people are deeply
