

THE TAR HEEL

OFFICIAL ORGAN OF THE ATHLETIC ASSOCIATION OF THE UNIVERSITY OF NORTH CAROLINA

Volume XXVII.

CHAPEL HILL, N. C., WEDNESDAY, NOV. 6, 1918

Number 6

Y.M.C.A. TO MAKE BIG WAR WORK DRIVE FOR \$8,000

CAROLINA EXPECTS TO GO OVER THE TOP WITH HER QUOTA—START NEXT WEEK

ASSOCIATION'S DONE BIG WORK

Is Now World-Wide Organization and Indispensable to Our Fighting Forces

Secretary W. R. Wunsch, of the "Y", announces that there will soon be launched a drive on the campus for the local quota of the United War Work Fund. Carolina's quota is \$8,000, according to announcement from headquarters of the United War Work. This fund, which will be raised throughout the country, will go to the recreational and welfare work being carried on in our camps and in the trenches overseas.

The work of the "Y" is known in all parts of the world today. When a rookie reaches camp, the first face to greet him is the smiling countenance of some fatherly "Y" secretary, who does all in his power to make the fellow pleased with his strange surroundings. At the "Y" hut there are libraries, reading rooms, and different forms of amusement. In order to furnish additional hours of pleasure, the association secures all the high class theatrical and musical stars possible, and supervises the athletics and other recreations of the boys. The "Y" is made as much like home to the men in service as possible. If it were not for the Y. M. C. A. there would be more homesick and discouraged soldiers than there are on this side. The work across the sea is still greater.

When General Pershing arrived in France with his small band of Sammies they were met by a small number of "Y" secretaries. Today the association has 5,739 men and 852 women workers overseas, beside the 3,882 in camps on this side. Behind the lines, the men find the welcome fire of the "Y" hut where they can write letters back home or spend an hour of recreation. In the front line trenches, you will find the cheerful secretary carrying chocolate, cigars, tobacco, drinks and cookies to the boys when they are unable to cease fighting for a full meal. There have been many accounts of the brave and heroic conduct of "Y" workers in the battle zones of France. The "Y" huts are the soldiers' clubs, theatres, schools and churches. These huts numbered 650 in September, and the number is ever increasing. These figures do not include the ones on this side of the sea. The cost of operating these rest and recreational clubs is enormous, and the support of every American is needed. From the trenches in Europe, our boys write letters home telling loved ones of the beloved "Y" man and his great work among the soldiers of Democracy. These letters ask the folks back home to help the association in its task. Even if peace comes soon, an enormous sum is needed for work in the camps and overseas while the period of reconstruction takes place. Secretary Baker in an address to United War Workers, told them not to let any decrease in their endeavors for raising funds take place. He said it would take a long time to bring the men overseas now back across, and to place all men in service into their old places in civil life. It will be the work of the "Y" to keep these men in the mood of happy and contented spirits. More detailed announcements in regard to the campaign will be made soon. It is expected that Carolina will do her part by the men in service. If it is impossible for men in the S. A. T. C. to go over, they have a privilege of making life pleasant for those over there.

A Pullman roadster has been loaned to the University for the period of the war. The car is owned by Mr. T. L. Simmons, of Rocky Mount, who is a member of the S. A. T. C. and is to be used by the Gas Engines classes. Practical instruction will be given in the construction and working of engines and the classes will learn to take an automobile apart and re-assemble the parts. Four more cars have been ordered by the University for this purpose.

Mr. J. E. Lear has accepted the position of Assistant Professor of Electrical Engineering and is devoting his time to the Gas Engines course. Mr. Lear was Assistant Designing Engineer with the General Electric Company in West Lynn, Mass., before coming to the University. He has had previous experience as Professor in the Agricultural and Mechanical College of Texas and at Norwich University in Vermont.

WHERE DO WE GO FROM HERE AND WHEN, IS QUESTION NOW

SELECTION OF MEN TO O. T. C. TO BE MERELY BY PREFERENCE FOR THE PRESENT

Where do we go from here and when, has been the uppermost thought and topic of conversation around the campus some time past. It is a question which has been answered in various ways and no one seems to understand it thoroughly or to possess any definite information concerning it. While the primary object of the Students Army Training Corps seems to have been the academic education of the men, still the great majority of the Battalion seem eager to be away, on to Training Camp and into the thick of the thing. And it is very natural that this condition of affairs and trend of thought should be. Before entering the S. A. T. C., the minds of most of the men were not fully made up as to just what they wanted to do, they had not seen the inside workings of the Army, had been spectators merely with a distant and hazy knowledge of the thing. But now that the curtain has been raised and the whole thing made plain, and as they become more and more a part of our great organization, the desire naturally comes upon them to move on. The martial atmosphere of the place is having a telling effect upon the men. It resolves itself into the old saying: "The thing you study is the thing you will soon want to put in practice."

It seems to be up to somebody to make some answer to the insistent question: "Where do we go from here and when?" and so the writer assumes responsibility and will make an attempt.

In the first place men will leave here largely by preference for the present,—that is if their qualifications are also established. There are some excellent men here now who do not care to be transferred at once, preferring to study a while longer. Transfers will not be made according to age particularly. If a fellow eighteen years old has the mental and physical qualifications of a good officer.

Competition is Rife in Non-S.A.T.C. Company

A great deal of interest is being taken at present in the non-S. A. T. C. drill. A contest is on for officers of the Company and there is keen rivalry between the men for the various commands. The present acting officers and non-coms. are S. C. Ogburn, Jr., 1st Lieutenant, A. H. Pell, 2nd Lieutenant, and T. J. Wilson III, first Sergeant. There is every indication that the company will be excellently officered. Everyone has a chance at any of the officers' positions and a fair chance will be given to every man to show what he can do.

According to latest orders, non-S. A. T. C. company officers will not be saluted except on the field.

The military authorities are very much pleased with the excellent progress made by the non-S. A. T. C. thus far. Indeed, the progress has been so rapid that Adj. J. V. Whitfield expects to terminate close-order drill on Thursday. After that extended order will be taken up. The old system of trenches will probably be remodeled for the trench warfare.

Capt. J. Stuart Allen will lecture on musketry and small arms from time to time during the course. These lectures will be given in the regular drill periods. All of the men are required to keep up with the lectures since they will be held responsible for them on examination and besides non-S. A. T. C. men must procure an Infantry Drill Regulation Book.

The non-S. A. T. C. will also have an excellent drum corps, judging from noise made in practice. This corps is now under the instruction of "Tiny" Hall. It will probably be composed of six men.

The Sigma Theta Chapter of the Phi Chi Medical Fraternity has recently initiated the following men: Edward Bizzell, Jr., Goldsboro, N. C.; Donald B. Cobb, Goldsboro, N. C.; David A. Cooper, Henderson, N. C.; R. Norman Harden, Commerce, Ga.; Ed Hughes, Danville, Va.; Harry G. Hunter, Hendersonville, N. C.; Louis D. MacMillan, Wilmington, N. C.; Blackwell Markham, Durham, N. C.; F. Limer Payne, Raleigh, N. C.; Robert A. Ross, Morganton, N. C.; John S. Terry, Rockingham, N. C.; Adam T. Thorp, Rocky Mount, N. C.; R. Earle Tyler, Keyesville, Va.; W. Gilliam Wilson, Jr., Wilson's Mills, N. C.

The members of the Woman's Association met in small groups during the Influenza epidemic to make gauze masks for the use of the Hospital Corps. Altogether 120 masks were made and sent to the Infirmary.

PROSPECTS ARE BRIGHT FOR A WINNING TEAM

PRACTICES GROW STIFFER AND MEN ARE DEVELOPING RAPIDLY

RAW MATERIAL IS MAKING GOOD

After-Company Games Have Begun and Are Putting Fellows in Condition

The result of the opening game with Wake Forest has shown that Carolina, despite the loss of all her letter men, has the brightest of prospects for a winning football combination. If Carolina with all new men can win over a team with six veteran letter men back, Coach Ritch thinks a strong eleven can be developed.

As the practices grows stiffer and the men develop, some of those showing less form have dropped out. As a result the squad has been cut some and there remains only the best, some 35 or more.

The backfield with Captain Gant, Lowe, Pharr, Herty, Fearrington, and McNeely showed up exceptionally well in the Wake Forest game. The line with a little more practice gives promise of developing into a strong defensive combination. Brown, Kernodle, Nichols, Carter, Simms, McQueen, Powell, Gibson, Austin, Shamburger, Holt and others have shown good form as linemen.

The generals usually put out a strong eleven and Saturday's scrap is looked forward to with a great deal of interest. On November 16 at Winston-Salem Davidson is met and by that time Coach Ritch hopes to have his men in tiptop condition for the peppery Presbyterians.

The most evident fault from both teams' work Saturday was the frequent fumbling. This is a result of the limited amount of practice the men have had. The Coach, however, is now working the team every afternoon and from 7:10 to 8:00 in the mornings. The inter-company games have begun and have put many of the fellows into condition. With another week of stiff work the team should be in great shape for the Washington and Lee game.

R. W. MADRY LEAVES

R. W. Madry left Tuesday afternoon for the Officers' Training Camp, Camp Gordon. Mr. Madry, who graduated last year, has been connected with the University Extension Service this year, in the capacity of director of the High School Journal and Managing Editor of the Alumni Review. He was connected with the Tar Heel in the capacity of Managing Editor but was forced to relinquish this office because of his other duties.

"Snipes" leaves behind him a host of friends and well-wishers.

Mrs. Madeline Palmer and Miss Lura Thomas have recovered from influenza.

Mrs. J. Hannah Dead

Mrs. J. Hannah, of Waynesville, died here Monday morning, October 28, from pneumonia, following influenza. The remains were taken to Waynesville that afternoon where the interment was made. Mrs. Hannah contracted influenza while attending her son, William, who is now practically well. Mr. Hannah is a prominent lawyer and well known citizen of Waynesville.

Post Exchange Gives General Satisfaction

The success of the P. X. was absolute and instantaneous from all reports that can be gathered. The satisfaction of the men is the main object and, judging from this the Exchange is a great success. The consensus of opinion is decidedly complimentary. The men seem to be highly satisfied with it. It has taken the place of the Post Office and Drug Stores in former times as a general gathering place for the S. A. T. C. men. The prices are the same as in any retail establishment, but as soon as the Exchange is put on a paying basis these prices will come down a great deal. In connection with the P. X. there will be a laundry and barber shop. These two branches will charge as low a rate as possible.

The stock at the Exchange is very good at present and more will be added as soon as possible. Owing to congested traffic and to the demand for goods at present it is very hard to procure supplies but a great effort is being made to get all necessary goods.

The P. X. is open from 12:30-1:30 and from 6:30-7:30 on week days and for all Saturday and Sunday afternoons.

KEEN RIVALRY AROUSED BY COMPANY ATHLETICS

IN HARD FOUGHT CONTEST COS. C-D TRIUMPH OVER A-B SCORE 6-0

Company football has added zest to the life of the campus, a fact demonstrated by the game Thursday evening. From the quantity of raw material in the four companies Coach Ritch has been selecting the most promising men and moulding them into reliable players. Despite the handicap of having a very limited time for practice and training, the men have been showing up well, and the prospects are bright for turning out a winning team.

In the game of last Thursday two teams were chosen from the squad of thirty men, one team representing Companies "A" and "B" and the other "C" and "D". Each team put all the energy and spirit it could into the game, realizing that they were champions of their companies. By permission of the military authorities all the S. A. T. C. men were excused from drill at 4:30 P. M. and marched into the grandstand, where they showed their interest in the game by hearty cheering. Lieutenant Rounds refereed the contest.

Right End—Widenhouse.
Right Tackle—Carter.
Right Guard—Nichols.
Center—Eaton.
Left Guard—McQueen.
Left Tackle—Kernodle.
Left End—Lynch.
Quarterback—Herty; Smith (Sub).
Left Halfback—Bristol.
Fullback—McNeely.
Right Halfback—Fearrington.
The players who constituted the "C" and "D" team were:
Right End—Powell.
Right Tackle—White.
Right Guard—Andrews.
Center—Brown.
Left Guard—Milligan.
Left Tackle—Holt.
Left End—Sims.
Quarterback—Pharr.
Left Halfback—Murchison.
Right Halfback—Lowe.
Fullback—Gant.

Faculty Committee to Aid in Y.M.C.A. Work

The Faculty Committee on Student Life and Activities is planning to cooperate with the military authorities, the Y. M. C. A. and the women students in arranging entertainment for the student body under the new conditions.

Under the auspices of the Post the Committee will aid the Y. M. C. A. in securing moving pictures, courses and lantern lectures. It is also interested in making the Y comfortable and has arranged to have the Y auditorium remodeled for a reading room. A circular letter has been sent out to members of the faculty and townspeople asking each family to entertain at least four student soldiers at Sunday dinner each month. The guests will be assigned through the Y. M. C. A. every week.

The military authorities have approved of the plans for Company dances to be held on Saturday nights in the Gymnasium. Each Company will give a dance including the non-S. A. T. C. Company. It is hoped that this may continue through the year and the first dance is scheduled for the coming Saturday.

The Committee hopes to assist in getting a center for the women students of the University. It is hoped that a place will be set aside for their use in order that they may have a room in which to hold their meetings and gatherings and also that the women students will have an opportunity to aid in providing entertainment for the soldiers here.

On December 1st, 1918, a new Infantry Officers' Training Camp will begin at Fremont, California. All civilians of September 12th registration in Class 1 and all registrants of previous dates in deferred classification on account of industry and occupation are eligible for this training camp. The course of training will cover a period of two months and the rank of successful graduates will be that of Second Lieutenant. The capacity of this camp is 20,000 men and North Carolina is to furnish 410. Captain Helmer of this Post has been given authority to select twenty-five men as his local quota and all aspirants are requested to file their application at Military Headquarters with the least possible delay.

Dr. J. R. Wilson, at the Library wishes to secure good pictures of campus scenes. A dollar each will be paid for the ones used.

In The Dial for September 5 Dr. Ferster has a book review of "Audubon the Naturalist" by Francis H. Herrick.

CAROLINA DEFEATS WAKE FOREST IN HARD CONTEST

GAME ENDS WITH BALL ONE FOOT FROM BAPTISTS' GOAL

CAROLINA BACKS DID BIG WORK

Gant, McNeely, Pharr, Lowe, and Others Showed Great Form for Us—Rabenhorst Baptist Star

In a good exhibition of gridiron warfare on Emerson Field Saturday afternoon, Carolina downed her ancient rival Wake Forest by the score of 13 to 7, the first game between S. A. T. C. Units in the state. The players on both sides showed a slight degree of nervousness and fumbled quite frequently, a result of the limited practice each team has had. Several of Carolina's fumbles were costly and netted the Baptists long gains, while one of Wake Forest's fumbles gained us a touchdown in the second quarter.

This was the first varsity football contest Carolina men have witnessed on the hill since 1917, there being no football last year; as a result of which Carolina had no letter men back, while the Wake Forest lineup contained six veterans.

The entire Tar Heel eleven showed up well, every man who had a chance in the game proved, despite the short two weeks of practice, that Coach Ritch has the material for a winning team. Pharr at quarter displayed very good generalship; Captain Gant and McNeely played a great game, both on defense and offense; while Nichols, Kernodle and Brown were towers of strength in the line. The features for Wake Forest were the skillful executions of three forward passes by Clanchard and Rabenhorst, and the brilliant all-around playing of Captain Rabenhorst.

In the first quarter after Wake Forest had received the ball and each team had fumbled, Carolina, by doing the allied battering-ram stuff, carried the ball over for the first touchdown. Lowe kicked goal after McNeely had gone over.

Carolina's second touchdown came in the second, when after a series of smashing line plunges Lowe went over but failed to kick goal. The first half ended with Wake Forest on the five yard line, as a result of three successfully executed forward passes.

In the third quarter the good work of Herty, who substituted for Lowe, and Pharr were outstanding features. Captain Rabenhorst, of Wake Forest, on a fake forward pass at the beginning of the fourth quarter, made a 65-yard run around end and landed at Carolina's 5-yard line. Fulton went over for a touchdown and Rabenhorst kicked goal. With a series of smashing line plunges Carolina carried the ball within one foot of the goal in the last three minutes of play. Wake Forest held desperately and the ball went over on downs. The whistle blew.

| Carolina | Positions | Wake Forest |
|--------------|----------------|--------------------|
| Powell | Left End | Kester |
| McQueen | Left Guard | Cates |
| Carter | Left Tackle | Blanchard |
| Brown | Center | Bailey |
| Kernodle | Right Tackle | Floyd |
| Nichols | Right Guard | Jackson |
| Widenhouse | Right End | Blizzard |
| Phan | Quarterback | Pace |
| Lowe | Right Halfback | Fulton |
| Gant (Capt.) | Left Halfback | Rabenhorst (Capt.) |
| McNeely | Fullback | Armstrong |

Substitutes for Carolina: Herty, for Lowe; Fearrington, for Herty; Simms, for Widenhouse; Holt, for Simms; Gibson, for Powell.
For Wake Forest: Moore, for Kester.

Referee: Lieut. Martin, of Georgia.
Umpire: Lieut. Robertson, of Penn. State.

Headlinesman: Armfield, Carolina.
Time Keeper: Lieut. Rounds, of Bates College.

A telegram has just been received from Miss Emma Appleby at Ward Belmont College, Nashville, Tennessee. They have already put on their campaign and secured over Fourteen Thousand Dollars for the United War Work Fund. This means about Thirty Dollars per girl. It sets a high standard, and if every College in the territory will meet with anything like this standard, we will far more than "go over the top."

"Appease that conscience—subscribe for the Tar Heel now!"
