PERFORMANCES OF MASQUE ENTERTAIN THOUSANDS AT FAIR

BEAUTY OF THE RALEIGH PAGEANT STIRS FAIR WEEK CROWDS

MASQUE A GORGEOUS PANORAMA

From the first trumpet call of the heralds of youth until the triumphant spirits of youth faded into the surrounding darkness at the conclusion of the epilogue, the Tercentenary pageant-masque, "Raleigh, Shepherd of the Ocean," presented, Tuesday, Wednesday and Thursday nights at the baseball park in Raleigh by its citizens held in much enchantment the crowds which watched its performance.

Those in the audience who had wondered what a community pageant was like, anyway, had their curiosity satisfied beyond their imaginings when they saw a gorgeous panorama of rainbow colors thrown against a lonely green background of pines; witnessed a profusion of gay and rollicking dances as well as many of the aesthetic type, extraordinary well executed; listened to the swell of a great chorus and beheld the courageous idealist and explorer, Raleigh and his famous contemporaries, come to life before their eyes through the dramatic interpretation of fellow townsmen who brought to their performance a surprising amount of genuine talent.

The part of Raleigh in his youth was portrayed in a spirited manner by Mr. Walter Simpson, and Dr. W. C. Horton, as the elder, in his portrayal of Raleigh in his tragic later years rendered the part with a pathos and nobility of character which was truly great.

Mrs. F. D. Castlebury, as Queen Elizabeth touched another higher water mark in her dramatic presence. (Continued on page four)

DR. CHASE SPEAKS IN CHAPEL ON CAROLINA SPORTSMANSHIP

DR. CHASE PRAISES STUDENTS FOR FINE SPIRIT SHOWN IN RALEIGH

Friday morning in Chapel Dr. Chase talked on true sportsmanship. As his example he used the true sportsmanship that was displayed by the Carolina team and student body at Raleigh on last Thursday. "I think," he said, "that any man who was there came back with a pride and love, and confidence in the team which he did not have before."

We were defeated, it is true, and there is no use trying to make excuses. We were beaten by a superior team and we admit it. But we should use this defeat "as a challenge and not a discouragement."

The people of the state are "proud of you and of the team," he told us, "and proud of the fighting spirit that was shown by both the team and the students throughout the entire game." Even with the odds against them the student body stood firmly behind the team. The team showed its real fighting spirit when the end of the ball was on our goal line and it took four trials to put it across.

A bigger and better thing than to score is to show a high, fine clean sportsmanship. Are we downhearted? To put it mildly, as Dr. Chase said, "No." "Then let us take renewed confidence in self-standard, fair play, etc. "Is there a man who is not proud of that team?" If there is, he is not a true Carolina man. But, on Thanksgiving Day, "The touchdowns that will be made against Virginia at Charlottesville will make everything all right." "Let this be a rallying point. Don't be discouraged and lie down in defeat. Let us make defeats challenges."

Studying Law at U. N. C.

C. H. Oliver, for many years a professor at Oak Ridge Institute, and a frequent contributor to the editorial page of the Greensboro Daily News, is studying law at the University.

CLASS ATHLETIC ROOM LOCATED IN STADIUM

The class athletic committee has secured athletic equipment and established a supply room under the west stadium. Footballs, basketballs, volley balls and boxing gloves may be secured here by any student from two until six every afternoon, the only requirement being that they must be signed for and returned the same day. The athletic committee has made this arrangement to allow individual students who for any reason cannot get varsity training, the privilege of athletic development along any line in which they may be interested. There will be an abundance of equipment so that the various class teams, scrub teams and dormitory teams will not have to suspend activities because others are practicing at the same time. It will be remembered that the Y. M. C. A. formerly issued such supplies, before the work was delayed to a class athletic committee for the purpose.

DIALECTIC SOCIETY FAVORS HOME RULE FOR IRELAND

R. C. KISER AND C. H. OLIVER ARE INITIATED BY DIALECTIC SOCIETY

An open forum discussion on the question of whether England should grant home rule to Ireland and the initiation of R. C. Kiser and C. H. Oliver into the society were the two features of the meeting of the Dialectic Society Saturday night. After the class of the discussion, the society voted in favor of going on record as favoring home rule for Ireland.

The question was introduced by R. L. Davis, who expressed himself as opposing home rule for Ireland. England's liberal treatment of Ireland and Irish dependence upon England were his main reason for disapproving the measure.

S. M. Cathey followed with three forceful reasons for not granting home rule to Ireland. Lack of unity among the Irish and other conditions that make them incapable of self-government.

W. E. White made the point that the right of government rests on the consent of the governed.

H. C. Heffner favored home Rule as the only way to satisfy the Irish and settle the problem.

C. W. Phillips compared Ireland's present situation with that of the thirteen American colonies when they were striving to obtain their independence.

J. L. Apple advanced the right of liberty and freedom as one of the reasons for granting home rule.

Joe Erwin explained the religious conditions in Ireland, and also gave some reasons for granting home rule. Messrs. Wills and Schwartz defended the negative while Messrs. Shepherd and C. J. Williams spoke in favor of the affirmative.

Geologists Get the Habit and "Organize"

Monday night members of the Department of Geology, including graduates and undergraduates students, assembled to revive the work and activities of the former Geology Club, instituting, however, in the place of this latter club the Journal Club which is similar in purpose and activity to the former. The Journal Club will meet every two weeks on Wednesday evening, the next meeting being accordingly scheduled for November 3rd. It is the plan of the Club to assign regular work among its members, and articles and these touching the field of geology will be read at the different meetings by both those pursuing graduate and undergraduate work in geology.

LEGAL FRATERNITY INITIATES

On Saturday, October 2, M. W. Sledge and G. L. Wimberly and Professor Efrd were initiated into the Phi Delta Phi legal fraternity.

STATE GEOLOGICAL SURVEY HAS WORK IN FAIR AT RALEIGH

STATE FORESTER GAVE NUMBER OF DEMONSTRATIONS IN TREE PLANTING

MARKETING OF ORE IS STUDIED

State Forester, J. S. Holmes, Assistant State Forester, Mr. William D. Clark, and Miss Grace White, all of Chapel Hill attended the State Fair, at Raleigh last week to be with, and explain, the elaborate exhibit installed there by the North Carolina Geological and Economic Survey, with which organization they are connected.

The Survey in its exhibit showed a collection of economic and gem minerals of North Carolina, also clay, and clay products, including pottery, brick tile, etc., as well as a large collection of wood, wood products, maps, charts, and posters emphasizing the disastrous cutting and lumbering operations, as now carried on in the State. In connection with the forestry exhibit, the State Forester gave a number of demonstrations in tree planting and pruning which will be especially interesting to public school teachers and pupils, as most of schools in the State will celebrate Arbor Day, November 5th, by planting shade and ornamental trees on the school grounds.

In addition to the mineral and forestry exhibits, the Survey is making a Drainage and Water Resources exhibit which includes pictures, charts and posters showing what has been accomplished in this direction in the past. One of the most interesting features of the Water Resources exhibit of the Survey are the pictures and charts showing what this division, under the direction of Mr. Thorndike, Saville, Associate Professor of Hydraulic and Sanitary Engineering in the University, accomplished during the past Summer.

Recently a plan was perfected for co-operative work between the U. S. Bureau of Mines and the North Carolina Geological and Economic Survey to study the problems pertaining to the marketing and treating of iron ores in North Carolina. One Particular phase of the work will be investigating improved methods applicable to the magnetic iron ore field of Avery and Ashe Counties.

Mr. Stanley C. Spears, Mining Engineer, of the U. S. Bureau of Mines has been detailed by the Bureau for this work. He is now in Cherokee County investigating the brown iron ores and will later go to Cranberry, Avery County.

While in Cherokee County, Mr. Sears will be assisted in the work by Mr. Jasper L. Stuckey, Geologist of the State Survey, and former student of the University.

BULLETIN OF RULES ISSUED FOR HIGH SCHOOL DEBATERS

THE OPEN SHOP IS THE SUBJECT OF THIS YEAR'S DEBATES

A bulletin entitled "Announcement and Regulations of the High School Debating Union of North Carolina for the Year 1920-1921" has just been printed under the auspices of the Dialectic and Philanthropic Literary Societies and the Bureau of Extension of the University of North Carolina. The committee supervising the printing of this bulletin is composed of Mr. N. W. Walker, Chairman, L. R. Wilson, D. D. Carroll, F. P. Graham, L. W. Jarman, Wills Staley, Wm. Yates, J. G. Gullick, Edgar McCorkle, J. C. Braswell, E. B. Newborn, Victor Young and E. R. Rankin, Secretary of the committee.

The query which will be discussed this year by the schools having membership in the High School Debating Union of North Carolina is: Resolved, That the policy of the closed shop should prevail in American industry. The question of the proper relation between labor and capital is always an interesting and highly important one. For many years in this country labor leaders have carried on a movement for the closed shop in industry. This movement has met with opposi-

PHI SOCIETY DECIDES TO MAKE ATTENDANCE PARTIALLY OPTIONAL

FRESHMEN ALLOWED ONE ABSENCE A QUARTER; SOPHOMORES ALLOWED TWO

VETO OF GOVERNOR DISCUSSED

At the beginning of the regular session of the General Assembly of the Philanthropic Society Saturday night resolutions were presented by B. C. Brown and J. H. Kerr of great import to the society. These resolutions were acted upon immediately. A special constitutional committee was appointed by the Speaker which passed its approval of the resolutions. The most important resolution was as follows: Be It Moved; That all members of the Assembly whether belonging to academic or professional school shall be considered active members of the Assembly; that the Senior and Junior classes of the Academic school and members of the professional school, while yet being considered

BUREAU OF EXTENSION WORKS TO BEAUTIFY SCHOOL GROUNDS

DEPARTMENT OF BUREAU HELPS SCHOOLS IN IMPROVEMENT OF THEIR GROUNDS

In order to promote the beautification of school grounds in North Carolina, the Bureau of Extension has established a new division called the Division of Designs and Improvement of School grounds, under the immediate direction of Dr. W. C. Coer, Kenan Professor of Botany and Director of the University Arboretum, and Miss Eleanor Hoffman, who will serve as secretary of the division of field work.

To facilitate its work and to present the program of ground improvements which it contemplates the division is now preparing an extensive bulletin which will contain twenty or more designs for actual and hypothetical school grounds, together with photographs of illustrative plantings from various sources such as the University arboretum, private grounds, mills, community houses, together with a few typical construction designs of arbors, walks, etc., each general design to be accompanied by a planting plan showing the plants to be used.

The text of the Bulletin will consist of general advice as to principles of planting so as to secure desirable effects, together with description of trees, shrubs, and flowers recommended for use in the three main sections of the State—east, middle and west.

A second purpose of the Division is the giving of direct assistance through personal visits by Miss Hoffman to any school that indicates a desire for help. Miss Hoffman will also visit other organizations as opportunity allows, in order to arouse interest in the general subject of the beautification of grounds.

In offering this service the Bureau will follow the usual practice which obtains in all its service—no charge will be made for personal visits, except that it is expected that the traveling expenses of the field worker will be borne by the school or organization visited. Similarly no charge will be made for information which can be furnished through correspondence and copies of the Bulletin will be sent free to any Resident of North Carolina upon application.

Davie Hall About Finished

The new biological building, known as Davie Hall, the foundation of which was laid last fall is now complete with the exception of a few finishing touches on the interior.

What's to Happen and When

Wednesday, October 27, Francis Bradshaw in Chapel.
Thursday, October 28, Musical Program in Chapel.
Friday, October 29, Dr. Chase in Chapel.

DAVIDSON SCRUBS TAKE THE GAME FROM FRESHMEN

FIRST YEAR MEN HOLD VISITORS TO A MODERATE SCORE

PRESBYTERIANS WIN 10 TO 0

Fighting fiercely against more experienced and seasoned opponents the Carolina first year team lost its first game of the season Saturday to the Davidson scrubs by the score of 10 to 0. The Freshmen more than held their own during the first half, keeping the ball constantly within striking distance of their opponent's goal. The weather was much too hot for football, and had its effect upon the players, making numerous substitutions necessary. Several minor injuries also marked the contest. Honeycutt, of the Freshmen, sustained a sprained ankle, and two Davidson men were unable to continue the game.

The first half ended 0 to 0, and it was not until the third quarter that Davidson was able, by a series of passes and shift formations, to put across the only touchdown of the game. A field goal, obtained during the same quarter netted them three additional points.

In the fourth quarter the Freshmen again threatened by a steady march down the field from their own twenty yard line to Davidson's 15 yard mark, but the time keeper's whistle intervened, preventing an almost certain score.

For the Freshmen the work of Gilliam at half, Lee, and Waardward stands out, though the whole team deserves mention for the strong fight put up against the Scrubs.

The Freshmen line up was as follows: Girsch, C; Bostick and Farrell, G; Lee and Mathews, T; Hogan and Lineberger, Ends; Woodward, S. B.; Rice and Gillam, H. B.; Williamson, F. B.

ANNOUNCE RULES FOR HIGH SCHOOL FOOTBALL CONTEST

COMMITTEE ANNOUNCES REGULATIONS FOR CHAMPIONSHIP GAMES

The committee representing jointly the Bureau of Extension and the General Athletic Association of the University of North Carolina makes announcement of the seventh annual state championship contest in high school football for North Carolina high schools. The high school football championship contests were instituted in the fall of 1913 and have been held each year since with the exception of 1918 when war conditions prevented. A great interest has been taken in the contests on the part of the high schools, and the final games for the State championship played on Emerson field, Chapel Hill, between the best team of the East and the best team of the West, have been excellent exhibition of football and have awakened keen interest throughout the state.

The contests were organized by the Bureau of Extension and the General Athletic Association of the University, with the hearty co-operation of the school men of the State, in order to encourage in a systematic fashion the playing of football in North Carolina high schools, with the idea that lessons learned on the football field are valuable and helpful not only in a player's immediate physical development but that such lessons are of measurable value to him through life.

At the seventh annual contest begins, the committee makes a straight appeal to each school and to each team to see it that the best of sportsmanship prevails at every game played by high schools in the state this season. It is, of course, far better to lose a game by a heavy score than to win, having the victory accompanied by any evidence of poor sportsmanship. The honor and distinction which sportsmanlike teams bring to their high schools are potent factors in developing school spirit and in building up traditions which are priceless.
