

A SEMINAR IN DANTE TO BE CONDUCTED BY PROFESSOR GRANDGENT

Six Sessions of Two Hours Each to Be Held—Preliminary Registration Required.

WEEK OF FEBRUARY 6-11

Professor Charles H. Grandgent, head of the Department of Romance Languages at Harvard University, will conduct a special intensive course in "Dante, his Period, and his Relation to Human Thought" during the week of February 6-11. There will be six sessions of two hours each. The course is under the direction of the Committee on Degrees with Distinctions.

Students majoring in the Division of Languages and Literatures are eligible, but the course will be limited to those who register in advance and who do certain preliminary readings. Students should register for Comparative Literature 2, beginning in January, or should arrange to attend this course as auditors.

While the course is conducted in English, no knowledge of Italian being pre-requisite, attention is called to the fact that an elementary course in Italian will be offered by the Department of Romance Languages next quarter. Students who take the course will find it possible to begin the reading of Dante in the original language in the Spring quarter.

A special shelf of books in Dante and his period may be found at the Library.

Professor Grandgent's topics for discussion are:

1. Biography, Symbolism, and Artistry in the Vita Nuova. Subject of the work: Reticence, Reality and unreality of Beatrice. Other characters, Prose and Verse, Construction, Balance, Contrast, Climax.
2. The Allegorical Journey: Visions of the other world, St. Paul, Fantastic Journeys, St. Brendan, Allegories, Brunetto Latini. The Quest, the Rose, the Celestial City, Moral Purpose, Double Meaning, Dante's Universe, the Itinerary.
3. Temperament: Dante's relation to various kinds of sin, in Hell, in Purgatory, Assignment of penalties; sympathy and antipathy. Virgil's attitude. Friendship and admiration.
4. Characterization and Description. Variety of human types. Dis-

BOARD OF TRUSTEES HOLD SPECIAL MEETING

Resolve to Ask the Governor to Recommend the Budget as Presented by President Chase.

At a special meeting the Trustees of the University met in Raleigh on December 30th, and had presented to them by President Chase the spectacle of hundreds of high school graduates turned away yearly because of lack of room for them, of those admitted being crowded into quarters designed for half that many, of 1,400 students being taught in overcrowded class rooms by underpaid instructors, adopted the following resolution:

"That the Board of Trustees, after careful examination of the facts and figures set forth in the report of President Chase as to the actual and prospective needs of the University, do heartily endorse all the recommendations set forth in said report, and request the Governor, Ex-officio Chairman, to present them in his message to the Legislature with the earnest request that by appropriations there should be ample opportunity offered to the youth of the State who desire to do so to receive their education at the University, which was intended by the founders as shown by the first constitution, to provide a place where useful education and learning should be encouraged."

The meeting was presided over by General Julian S. Carr, Governor

FOOTBALL SCHEDULE IS A DUPLICATE OF THE LAST SEASON

Many Other of Strong Institutions Asked For Place on Carolina's 1921 Schedule.

TRINITY LIKELY IN 1922

The University football for 1921 has been completed, with the exception of the place to play two of them, and will be the same as that of last year, including Wake Forest, Yale, South Carolina, A. and E. Maryland, V. M. I., Davidson, and Virginia. It is still possible that a game with some small college will be added to the first of the schedule, on about September 24th. The game with V. M. I. instead of coming to Chapel Hill as it has for the past several years, will be played in some Virginia city, perhaps Norfolk. The Davidson game may continue in the twin-city, but there is now a strong possibility of its being played in either Charlotte or Chapel Hill, while Maryland will be met this fall in Baltimore. It is the desire of the University to get our games to alternate between the home grounds of the contesting teams. This was adopted with reference to the Virginia game three years ago. It comes to Chapel Hill this fall. The A. and E. game will perhaps alternate between Raleigh and Chapel Hill, as will also the V. M. I. and Maryland State games alternate between here and their grounds.

For a time it looked as though Trinity would be included on our schedule, but was finally dropped as Trinity preferred to wait another year in that she is just beginning to get football underway again. She is very anxious to play Carolina in 1922, and it is very probable that we shall have a game with her.

Other teams that asked for places on the Carolina schedule are Princeton, Navy, V. P. L., Washington & Lee, and Alabama.

The complete schedule for year of 1921 is as follows:

- September 24, opening game—pending; Wake Forest at Chapel Hill on October 1; Yale at New Haven on October 8th; South Carolina at Columbia on October 15th; A. & E. at Raleigh on October 20th; Maryland State at Baltimore on October 29th; V. M. I. at (some Virginia city) on November 5th; Davidson at Winston-Salem, Charlotte, or Chapel Hill on November 12th; Virginia at Chapel Hill on November 24th.

Y. M. C. A. SECRETARY QUITS THE WORK HERE

Phillips of Senior Class Will Fill General Secretaryship For Balance of Year.

W. Robert Wunsch, of the Class of '18, and who has been General Secretary of the University Y. M. C. A. for the past two and one-half years, has resigned his post and returned to his home at Monroe, Louisiana. He found that it would be necessary for him to leave Chapel Hill some time before Christmas, but did not let it be known publicly, completing all arrangements with University officials quietly, and preparing for another man to take his place. The student body did not know that Wunsch was to leave, and when he left Chapel Hill he went as though he were merely going for the holiday period. But "Bobby" will not return.

In his stead, arrangements have been completed with C. W. Phillips of the present Senior Class, to become General Secretary of the "Y." for the remaining two quarters of the current year. Phillips originally came to the University with the Class of '20, but on account of a year lost while in the service, immediately after his Sophomore year, he returned last year and took up his Junior work with the Class of '21. Since he has been in college he has been connected with the work of the Y. M. C. A., and is quite familiar with its work and workings.

INCREASE IN COLLEGE ENROLLMENTS GENERAL THROUGHOUT COUNTRY

Yale, Tulane, Trinity, Butler, Hamilton, and Roanoke All Show Decrease During Last Two Years

WAKE FOREST'S GAIN BIG

According to statement given out by the Intercollegiate News Service as a result of a lengthy investigation Kansas State University had the greatest increase in student population from 1919 to 1920 of any college or university in the entire United States. Kansas had a 96 per cent gain, or a practical doubling of the size of the student body. In conducting this investigation correspondence was carried on with almost two hundred of the leading institutions of the country, of which 136 replied with adequate information.

Thirty-two state universities responded who had a total attendance in 1918 of 60,000 and of 95,000 in 1920; twenty other universities having a total attendance of 56,000 in 1918 and of 87,000 in 1920; fourteen state agricultural and teachers' colleges showed a total attendance of 19,000 in 1918 and of 26,000 in 1920; other New England colleges reported an increase in enrollment of 2,000; eastern colleges reported an increase of only about 400; Mississippi Valley colleges reporting shows an increase of something more than 3,000; Pacific coast colleges reported an increase of about 400; southern colleges reported an increase of 1,500; and the ten women's colleges reporting showed a decrease in attendance. The total increase of the 136 colleges reporting from 1918 to 1920 was roughly 10,000.

The per cent of gain is much smaller for 1920 over 1919 than 1919 over 1918. The eastern colleges show the smallest gains except the women's colleges and southern colleges, which are the only groups that show a decrease. In the women's colleges, the decrease was not confined to any one section, but was marked alike in eastern, southern, and western institutions.

The schools showing the largest gain this year over the attendance last year are: Kansas State University with a gain of 96 per cent, Otterbein College, Ohio increased 87 per cent, Pennsylvania State College gained 33 per cent, Wake Forest College gained 32 per cent, and the University of California gained 28 per cent.

There was a steady decrease in attendance at such institutions as

INCREASE OF FORTY PER CENT IN HONOR SCHOLARSHIP GRADES

Co-Ed is Only Member of Junior Class Who Makes a Perfect Score For First Quarter.

FRESHMAN CLASS LEADS

Scholarship records for the Fall term of the 1920-21 year show an increase of approximately 40 per cent in the number of students whose grades average 2 or better, according to statement issued at the office of the registrar. The number of honor students runs close to 140 for the past term and it was announced that incomplete grade returns prevented the publishing of the names of the students who attained that high scholarship. However, a report was available on the students making all ones in which group the graduate students lead with 10, the Freshmen follow with 3, the Sophomores with 2, and Juniors and special graduates with one each.

Of those making 2 or better exclusive of those making straight ones, are found 121 of which number 35 come from the Freshman class, 24 from the Senior class, 20 from the Junior class, 19 from the Sophomore class, 19 from the graduate school, two from special graduate school, and two from the Pharmacy school. Records to date show that 17 students made all ones, and 121 others made 2 or better.

Students attaining the grade of 1 were as follows: From the Freshman class: D. A. Brown, of Jamesville, prepared at Buie's Creek; S. A. Johnson, of Goldsboro, prepared at Goldsboro High School; G. E. New-

ly, of Hertford, prepared at Randolph-Macon Academy. From the Sophomore class: C. L. Moore, of Burgaw; E. P. Willard, Jr., of Wilmington. From the Junior class: Miss M. T. Yellott, of Bel Air, Md., prepared at St. Mary's. From the Graduate school: E. W. Atkins, of Canyon, Texas; A. L. Aycock, of Raleigh; J. S. Babb, of Hertford; P. R. Dawson, West Springfield, Mass.; T. H. Hamilton, Des Moines, Iowa; H. F. Lashaw, Chapel Hill; E. S. Lindsey, Tryon; L. D. Martin, Suffolk, Va.; C. I. Sillon, Chapel Hill; I. W. Smithey, Wilkesboro; Miss Louise Venable, of Chapel Hill attained ones in special grade work.

"I don't know as I ever saw a religion that did not have some good in it. Now, according to the Chinese religion, a man cannot get into heaven until all his debts are paid. (I have several ex-friends that I wish were Chinamen.)"—Will M. Cressy.

BUDGET FOR 5 YEAR BUILDING PROGRAM TO BE PRESENTED TO PRESENT STATE LEGISLATURE

FACULTY SPILL MANY WORDS DURING XMAS

Many Make Speeches Before Educational Mass Meetings Throughout The State.

Many of the University Faculty busied themselves during the Christmas holidays in making addresses throughout the State and South Carolina, principally before local Alumni Associations or Educational mass-meetings. President Chase made four speeches; Professor Frank Graham made five, and Doctors Knight, Wilson, L. R., and Branson at least one each.

President Chase was the principal speaker in Charleston, South Carolina on December 24th before the New England Society of Charleston; before the Alumni Association at Rockingham; before the special meeting of the Board of Trustees in Raleigh on December 30th; and on January 4th before the Greensboro Rotary Club.

Professor Graham spoke in Rutherfordton, Lenoir, Kinston, New Bern, and Oxford before local Alumni associations, or educational mass meetings which are fostering the cause of higher education in the State and working for more liberal support of the denominational, the private, and the state schools.

Dr. Knight spoke in Goldsboro before an educational mass meeting; Dr. Branson spoke in Wilmington before a similar sort of group; and Dr. L. R. Wilson spoke in Clinton.

Recently extended articles by Dr. L. R. Wilson, and Dr. Branson have appeared discussing in detail the present educational situation in the State with particular reference to the State supported institutions. Dr. Branson deals with the question of the State's ability to make large donations now for the cause of education, while Dr. Wilson discusses more particularly what the University has asked for, and why it costs to do work of a University grade.

FURMAN SPRINGS NEW WRINKLE IN FOOTBALL

That "Necessity is the Mother of Invention is Proven" When Clemson is Faced.

The part of student bodies in athletic contests is usually to explain why their team lost, or why it was able to display such wonderful skill and ability. But in the editorial column of the "Furman Hornet," published by the students of Furman University, Greenville, S. C., we find a new cause for a wonderfully favorable result. It seems that Furman was unusually successful throughout her football season, culminating it in a victory over Clemson for the first time in all history, about which season and victory "The Furman Hornet" has to say under the title "Billy Laval".

"The most solemn, grand, and noble words ever uttered by a football coach to an eleven were those of "Billy" Laval to his men in the dressing room immediately before the game last Saturday. Departing from his usual method of explaining plays to his men just before they leave for the fray, Coach only dealt with two or three features of the game before he, in a flood of tears, being almost overcome by the dramatic crisis of the occasion, spoke the words which put fire, zest, and courage into the Hornets sufficiently abundance to win the game over Clemson college. And then he ended with the following:

"I want to shake the hand of each of you as you leave for the game. Before that I want us all to rise and sing Onward Christian Soldiers. It may seem a little out of place, but I feel we ought to sing it."

In one grand and sweet refrain the notes of that majestic Christian

Almost a Million For Maintenance For Coming Two Years.

3,000 STUDENTS IN 5 YEARS

Program Includes An Auditorium Which Will Seat 3,000 People—New Law Building.

The statement of the University's financial needs as recently given to the Budget Committee by President Chase and which will be presented to the Legislature at its current session calls for a total appropriation of roughly six and a half million dollars of which approximately one million is for maintenance for the coming two years, and \$5,605,000 is for a building program which will cover a period of five years. This program anticipates that the University student body will number 3,000 in the coming five years. This is a far greater sum than the University has ever asked the Legislature for in the past, and is occasioned by the fact that the improvement of the physical plant of the University has not nearly kept pace with its rapid growth during the past decade.

DORMITORIES

For dormitory space for men \$1,530,000 is asked. It is expected that within the five year period the University will be called upon to take care of at least 1,275 more men students than can at present be taken care of by the dormitories and out in town. The probable increase of rooming space in the town has been estimated from the total cost of \$1,200 per man to provide the sort of dormitories that it must have. A prominent member of the Board of Trustees of the University of South Carolina recently made the statement that the student body of the University of South Carolina would not live under the disreputable conditions that exist here. The new dormitories are to be of the most improved construction with all the modern conveniences. The item of housing men alone calls for far above one-fifth of the total building program cost. For a women's building \$200,000 is called for. It will contain dormitory, dining hall, study and reception rooms for one hundred and twenty-five students. Up until the present time the University has made positively no provision for the proper housing of the increasing number of women students applying for admission to the upper classes and professional schools. The forty-seven women students that are attending this year are living in the village, and the University only contributes lectures and the use of the Library. And to furnish the dormitories \$75,000 is needed.

DINING HALL

One half a million dollars is needed to provide the facilities for feeding the 1,725 students that will be here at the end of the five years and which cannot be taken care of, because the 1,275 others who will also be here at that time will be eating at Swain Hall and at the private boarding houses of the town. This means that the University must quadruple capacity of Swain Hall dining room, kitchens, pantries, refrigerators, bakery, storage, etc.

LAW BUILDING

For the Department of Law \$150,000 is asked to build it a home. Since its establishment in 1845 it has been moved about the campus to space released by other departments; and finally settled down at its present location. This building was built for a library in 1849. And this simple hall has made its inside take the appearance of class-rooms, offices, and library by the use of thin wooden partitions; of which the Visiting Committee of the Trustees said in their report at Commencement of 1920, "It is a disgrace to the state of North Carolina that the Law Department is compelled to try to teach under such conditions." To equip this new building with seats for its six class-rooms, its court room, to provide library stacks and

(Continued on Page Four)

WHAT THE UNIVERSITY OF NORTH CAROLINA IS ASKING FOR

A Five-Year Building Program to Care for 3,000 Students

1. Dormitories for 1275 men \$1,530,000
2. Women's Dormitory 200,000
3. Dormitory Furniture 75,000
4. Dining Halls for 1725 students 500,000
5. Three Classroom Buildings for Languages, History, and Social Sciences, and the College of Liberal Arts 500,000
6. Three Departmental Buildings for Law, Pharmacy, and Geology 450,000
7. Additions to Departmental Buildings for Medicine and Chemistry 300,000
8. Classroom Furniture and Fixtures 200,000
9. Departmental Apparatus and Equipment 125,000
10. Additions to Library Building 100,000
11. Enlarged Physical Education and Infirmary Buildings 375,000
12. Auditorium to Seat 3,000 Persons 300,000
13. Administration and Extension Building 200,000
14. Dwelling for Administrative Officers and Faculty 100,000
15. Renovation of Old Buildings 250,000
16. Heat, Light, Power, and Water Extensions 250,000
17. Fire Protection 50,000
18. Permanent Improvement of Grounds 100,000

Total for Building Program for five years \$5,605,000

Maintenance Program for 1921-22 \$ 473,911
Maintenance Program for 1922-23 \$ 494,336
