THE TAR HEEL, MAY 17, 1921.

We were glad to see this finale for the man whose record has been only marred by the A. and E. and Georgetown games that came near the close of his career and were about to cover over the finenesses of the record of the man who has no equal on the Carolina diamond of this college generation. No man has served more unselfishly, nor worked harder for the team than has Wilson. Modest at all times, unassuming never, and ever ready to go and do for the welfare of the team with no consideration for self, L. Girard Wilson has made a record both in the quality and amount of work done, and in the spirit shown that Carolina athletes may all strive to emulate, but few can hope to equal.

To those of us who have seen him work for four years, who saw him stem the onslaught of the Virginians after our two first bets had failed at Greensboro, to those of us who saw him gather up his team last spring and

CIGARE

in five days pitch his way to victory through the three other strongest college teams in the State, and thereby the team's way to the State championship, the reverses that came at West Raleigh against A. and E. and at Georgetown, were nothing more than specks upon the horizon, and that could in no way reduce the radiance of a record already made.

Wilson is a hot weather pitcher, and has really struck his stride at one time this year: in the Virginia game here on the Hill when he held the Virginians for seven innings before his teammates had gathered themselves together to offer the needed air-tight support. And it is in terms of this sort of work that the real Wilson stands. It is in terms of this work of work that he came to be the captain of the present team which is the witness of its own greatness.

Although with many deserving men to pick from, we believe that the squad was right on Saturday when it elected Clement Manly Llewellyn to captain the 1922 baseball team. With an almost unbroken squad, and with admirable recruits from this year's reserve team we should easily top the South Atlantic group during the coming season.

The results of the celction of officers were as follows: Dr. W. DeB. MacNider, president; Dr. W. F.

production of plants.

## Drs. Henderson and Coker Speak-Officers Elected For Next Year

and Dr. W. C. Coker and the elec- ciety: Dr. W. C. Coker, editor-in tion of officers were the features of chief; Dr. J. M. Bell, and Dr. Colthe 24th meeting of the Elisha lier Cobb. Mitchell Scientific Society which was held Tuesday night.

Dr. Henderson's subject was "The Lorentz Transformation in Einstein Relativity." He undertook to give cal terms the explanation of the principle of relativity, following the lines est questions regarding space, time graviation ,and the essential characteristics of the physical universe.

Taking as his subject "The Effect matter by not wasting them nor scatof Length of Day on Growth and Re- tering them over the campus. A garproduction of Plants," Dr. Coker bage can will be placed near the gave a review, illustrated by lantern well as a receptacle for these, and slides, of the highly significant work it is requested that the students do of Allard, an alumnus of the Uni- their part by putting them in the versity, and Garner on the effect of can instead of littering the campus.

Prouty, vi ) president; Dr. J. M. Bell. permanent secretary; Mr. R. H. Totten, recording secretary and treasurer. The following were elected as the editorial staff of The Journal Talks by Dr. Archibald Henderson of the Elisha Mitchell Scientific So-

length of day on the growth and re

## DRINKING CUPS ARE TO BE PROVIDED AT WELL

Seeing the need of individual drinking cups at the well, the Order in the simplest possible mathemati- of the Grail undertook to remedy the situation by appointing a committee worked out by Einstein himself. It to confer with Mr. C. T. Woolen. was pointet out that the Einstein After discussing the matter with the theory of relativity raises the deep- committee, Mr. Woolen agreed to provide these cups, provided the student body gives its cooperation in the

## **Camel Cigarettes** are such a revelation in quality!

OMPARE Camels with any cigarette in the world at any - price and you will realize how unusual and delightful they really are. And then, too, you will better understand why Camels are universally smoked throughout the nation!

Camels were created to be the finest cigarette ever made both as to quality and the enjoyment they provide. They were made to excel in refreshing flavor and wonderful mellow mildness any cigarette you ever smoked-and they do! Your taste will prove that!

You'll keenly appreciate the smooth, much-desired delightfulness that comes to you from Camels expert blend of choice Turkish and choice Domestic tobaccos-and-Camels freedom from unpleasant cigaretty aftertaste and unpleasant cigaretty odor!

And, it's real satisfaction to be able to smoke Camels as liberally as you like because they never tire your taste!

## R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes for 20 cents.
