

# NOW ON SALE FACULTY NUMBER OF BOLL WEEVIL

## Education Is Nothing If Not Practical

You are going to college in order to acquire a practical education. Common sense will tell you that you cannot expect something for nothing. When you graduate, you will find that in actual experience, the things which are cheap are cheap because they are not worth any more. On the other hand, you will also find that extravagance leads to failure. There is always a happy medium where one strikes a proper balance. With this in view, we are striving to do business with you as students, not aiming for the low, neither do we urge you to select of the very high prices in made-to-measure clothes.

WE WILL BE PLEASED TO FEATURE  
**THREE PIECE SUITS**  
WHICH WILL GIVE ABSOLUTE SATISFACTION AT  
**\$29.50 to \$40.00**

We have some that cost more, and a good number to make up for less. In the above-named prices you will find just what you want without resorting to extravagance or be poorly dressed. We will stand back of every garment we make. We expect to see you often. Our frequent visits insure a responsive interest in you which is not offered by any other Tailoring Company doing business at Chapel Hill. The more you will see our line the better you will like it.

OUR NEXT VISIT TO CHAPEL HILL WILL BE  
**MARCH 8th**  
Watch for Display in Rooms of Carolina Confectionery Company  
**I. S. KAHN TAILORING CO.**

FAYETTEVILLE, N. C. RALEIGH, N. C.

TAILORS—CLOTHIERS :: :: FURNISHINGS AND HATS  
DURHAM, N. C.

Mrs. H. D. Learned, soprano, and Mrs. P. H. Winston, pianist, will give a recital for the benefit of the Episcopal Guild, at 8:30 Friday night, in the high school auditorium. The tickets will sell for 50 cents. Both ladies are accomplished musicians, and a pleasing program is looked for.

The North Carolina Club will hold its regular meeting at 7 o'clock Monday night in 206 Phillips hall. W. Barrette will read a paper on "Reform of State Primary Law," and L. H. Moore will speak on "Home and Farm Ownership."

### SMOKER COMMITTEE IS NOW PERFECTING STUNTS FOR BIG CAROLINA NIGHT

(Continued from page one)  
crowd waiting at the doors of the old Swan waiting for the bell to sound 9. It might be added that the lucky ones will be the ones who are on time, because the program will begin promptly at 9 and there will be a mob waiting for that time. So get there as early as possible and avoid the rush.

### HIGH SCHOOL ELIMINATION SERIES IN FULL SWING

(Continued From Page One)  
Square. Group II—Chapel Hill, Henderson, Sanford and Parkton. Group III—Trouton, Stonewall, New Bern and Jacksonville. Group IV—Durham and Ellerbe. Group V—Rocky Mount and Roanoke Rapids. Group VI—Wilson, Benson and Raleigh. Group VII—Smithfield, Fremont, Wilmington and Lumberton.

In the West: Group I—Mooresville, China Grove, Kannapolis, Albemarle and Monroe. Group II—Asheville, Candler and Cressnore. Group III—Dallas, Davidson, Charlotte and Lincolnton. Group IV—Walkertown, Wilkesboro, North Wilkesboro and Winston-Salem. Group V—Trinity, South Buffalo, Jamestown and Greensboro. Group VI—Leaksville, Mebane, Burlington, Graham, Reidsville and Guilford College. Group VII—Churchland, Welcome, Statesville and Startown.

The next number in the series of the Sunday afternoon programs given by the Music Department will occur on March 4, at which time a number of students of Mr. T. H. Hamilton will present the program. The wide-spread interest in the student recital given last spring has resulted in a plan to make this an annual or semi-annual event. A copy of the program will be published in the next issue of the Tar Heel.

### VALUE OF MATHEMATICS STRESSED BY PROMINENT TEACHER OF NEW YORK

Mr. Schlauch Relates the Significance of Mathematics to Life in Address to Math Teachers.

### NEW OFFICERS ELECTED

In an important meeting of the North Carolina Association of Mathematics Teachers held here last week, Mister Schlauch, who is well known in the New York schools and New York University as a mathematics teacher, brought two valuable messages: "Practical High School Mathematics," and "Geometry as a Means of Developing Methods of Thought."

The first lecture was of a general nature and dealt with the recent attacks on mathematics which charged mathematics with the failure to set before the students the fact that it functions in the every-day life they have to lead. The recent tendencies in text-books and presentation are bringing this fact forcibly before the learner, and as a consequence the attacks are beginning to subside. Mr. Schlauch gave many illustrations from the business world as indicative of his contention that not only does mathematics function in life, but that this vital connection with affairs should be continually held before the student. "Let them see the play of law in the universe," he said, "for it will enable them to fashion their lives in adjustment to that universe."

On Saturday morning Mr. Schlauch spoke to an audience composed almost entirely of teachers. He spoke of geometry as a means of developing analytical thinking. In teaching geometry there should be two aims constantly before the teacher: to interest the life of the pupil and to prepare the pupil for future work. On its technical side there are two fundamental things that must be accomplished in geometric construction: the fundamental concepts must be thoroughly mastered, and the method of analytical thinking must be acquired. "Geometric reasoning," the speaker claimed, "is the normal way of human thinking. This should be held before the student. For this reason alone, the race will never permit it to die."

Following this paper there was a round table discussion on "Typical Errors in Elementary Mathematics," led by Mr. J. W. Lasley, of the University faculty. The causes of these errors were discussed at length by the body of teachers, and suggestions made as to their remedy. It was suggested by way of remedy that greater emphasis be placed upon understanding of processes and less on mechanical drill.

The following officers were elected for the coming year: Mr. S. B. Smith, of Ronda, president; Miss Julia Groves, of Salisbury, vice president; Miss Nita Grissett, of Greensboro, secretary-treasurer.

It was voted by the association to have a yearly meeting in connection with the North Carolina Teachers' Assembly. The association went on record as approving and endorsing the bill for higher education now before the Legislature. A special committee was authorized whose duties would be to make a thorough study of high school curricula in mathematics in close cooperation with the various schools of the state, and report to the association a representative course for different types of schools.

The Interdenominational City Union, composed of the Epworth League, Christian Endeavor, B. Y. P. U., St. Hilda's Guild, and the Brotherhood of St. Andrew, will hold their quarterly union meeting next Sunday in the Presbyterian church at 7:20 p. m. Parson Moss has allowed this to take the place of the usual Sunday evening service. All students and town people are invited.

### Unique Salesmanship Course Offered Here

The University has a course in salesmanship which is said to be almost unique in its field. Only the Wharton School of Finance of the University of Pennsylvania is thought to have a course conducted in the same way.

After learning a principle or theory of salesmanship, each student applies that general theory in an attempt to "sell" some specific article to another member of the class. Towels, asbestos shingles, typewriters, overcoats, Hoover vacuum cleaners—these are a few of the articles which they have used in attempting to apply the principles discussed in class. One student presented his life insurance so convincingly that the "customer" was only prevented from buying by the realization that it was "just class work."

It pays to advertise in the Tar Heel—our readers know a good thing when they see it.

### THE KODAK SILHOUETTE

There's a fascination about this photographic pastime that is hard to resist. And it's all easy.

Making Silhouettes the Kodak Way is a simple story of added pleasure for the camerist. Come in and get your copy.
