\$3,500 IN CASH PRIZES

First prize is \$2,000. Open to everybody, anywhere, for answer in Educational contest. Prizes duplicated if tied. Send stamp for circular, rules and questions. SHEFFIELD LABORATORIES, Dept. 9, Aurora, Ill.

Phi Beta Kappa will celebrate its one hundred and fiftieth anniversary on December 5, 1926. William and Mary College of Virginia, where this first Greek letter fraternity was founded in 1776, is planning to raise a fund of \$100,000 for the erection of a building in memory of the 50 men who effected the organization. The auditorium is expected to be a replica of the Apollo room in the old Raleigh Tavern at Williamsburg, where it is believed the society was born.

Paavo Nurmi has been invited to attend the Georgia Tech Relay games on April 18. It is probable that he will give an exhibition race.

GRAIL LENDS AID TO THE CARNIVAL

Order of Grail Establishes Carnival Fund of \$500.

ORDER GIVES TROPHIES To Intra-Mural Department and Class Numerals to Freshman Athletes.

The Order of the Grail, organization for the promotion of a more wholesome campus relationship, has established a Carnival Fund of \$500 to insure for the campus the success of the Carolina Carnival each year. In establishing this fund the order has laid down the provisions that the fund be in charge of a trustee who will see that the carnival organization replaces the money at the end of each year so that the \$500 will be ready to start off the carnival of the succeeding year.

It was decided to make this offer to the carnival committee only after much consideration of the nature of the proposed annual carnival. With this fund from which to work each year the carnival committee will be able to operate a self-paying carnival that will mean one of the biggest and most all-inclusive social events of the year. A midway, a May festival, coronation of the queen, a number of specials and a big dance in the Tin Can are planned by the committee working on the carnival. The fund that the Grail has established will now insure for the campus the carrying out of the plans of the Carnival.

The action of the Grail has received much favorable comment from officials of the carnival, faculty members, and others of the community. It is expected that the establishment of the fund will meet with much favor in the student body at large.

In addition to the carnival fund the Grail recently donated \$50 to the intra-mural department for trophies. Last year the big silver basketball was presented to the campus basketball champions by the Grail. This year the trophy was won by Steele dormitory. The \$50 is in addition to the big basketball trophy.

To stimulate class spirit the Grail has undertaken to have the freshman class numerals worn by freshman athletes. The sum of \$25 has been set aside to purchase freshman numerals which will be presented to men making the freshman teams.

The Order of the Grail has issued a report of its financial status, which follows:

Cash on hand March 16	\$1,275.30
Carnival Fund	500.00
Intra-Mural Trophies	50.00
Freshman Numeral Fund	25.00

Cash on hand March 26 \$ 700.30

HULA-HULA DANCE FEATURE OF CABARET

Chi Omega to Turn Carolina Cafeteria Into Cabaret for Saturday Night Only.

A hula-hula dance, several solo and special dances, good music, and a fine feed in addition to dancing from 9 till 12 will be offered to the campus next Saturday when for one night the Chi Omega sorority will take charge of the Carolina Cafeteria and turn it into a cabaret.

The sorority is planning an elaborate affair that will be an unusual form of entertainment for Chapel Hill. Details of the night's revue include a dance of the nature that has made the South Sea Islands famous and drawn tourists the world over to Hawaii. The names of the grass skirt dancers have not yet been announced but the Chi Omegas promise that they are all experts and will give a good performance.

In addition to this entertainment there will be dancing until 12 o'clock. Dinner will be served early in the evening. Cover charges will be \$1.

URGE STUDENTS TO ATTEND C. M. T. C.

The Military Takes Over Chapel Monday and Urges Students to Go to Camp.

"Young men of North Carolina should take advantage of their opportunity this summer to spend a month of their vacation at a Citizen's Military Training Camp," was the substance of talks made in chapel Monday when a delegation of prominent military leaders appeared in behalf of the C. M. T. C.

General Albert Cox, Colonel Little and Colonel John W. Harrelson each made interesting pleas for attendance at the summer camps. General Cox stressed the two-fold development of the man, his development for himself and his development for his country, in that the summer camps made better and more patriotic citizens of those who attended.

North Carolina hasn't gotten its share of the money appropriated by congress, stated Col. Little, who advised that students who wished to attend should get their applications in right now, as the last to come in are always turned down because the quota is filled.

A special arrangement has been made, according to Col. John W. Harrelson who spoke next, whereby thirty men from North Carolina are to be sent this summer to Fortress Monroe, near Norfolk. Fifteen of these men he expects to get from the University and the other fifteen will in all probability come from State College. The condition for being allowed to take the training at the Fortress is that the applicant should either have already spent one month at a C. M. T. C. or two sessions at a college under military supervision.

Dean Bradshaw is receiving applications on the campus and has a number of the blanks ready for the students who want them. He will also be glad to give any information desired concerning the camps.

ORIGINAL OLD WELL NOW BEING DUG UP

First Source of Water for University Will Be Base for 200,000 Pound Testing Machine.

The old well in the rear of the east wing of Phillips Hall, the first source of the University's water supply, is now being dug out and will be used as a base for the concrete foundation of a large testing machine which the engineering school will soon install.

The history of the well dates back to the founding of the University, when the source of water was sufficiently adequate for the small student body. Later on, as the number of students increased, the well failed to supply the required amount of water and the authorities were forced to look elsewhere for a larger source. A pipe line was laid to Bolling creek and the present filter plant was installed, the old well being used for several years by the power plant. When the present power plant was built, the well was abandoned, filled up and practically forgotten until the last few weeks. Workmen are now busy removing the rock and rubbish and digging out the original walling.

The testing machine will be loaned to the engineering school by the State Highway Commission and will be the largest machine of its kind in the state and equally as large as any in the South. It will be used in the testing of steel and concrete structures and will have a capacity of approximately 200,000 pounds.

It is an interesting coincidence that the engineering school is soon to take over the Bolling creek pipe line and filter system and put it to a practical use as they have done with the old well. The present system is proving unsatisfactory and the plan is to run a new pipe line to Morgan creek and turn the Bolling creek line over to the engineering school for laboratory work in hydraulics.

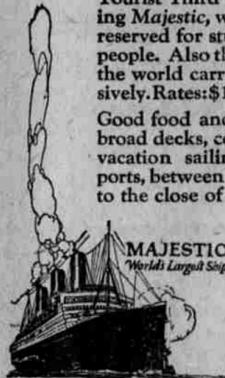

Graduate -and Go!
You can travel to Europe and Back for as little as \$155

See a bit of the world before you settle down to a real job. Get a fund of pep for a good head start. Get a real knowledge of conditions and affairs for a helpful background.

Here's the way!
Our College Specials

Tourist Third Cabin on great ships—including Majestic, world's largest steamer—entirely reserved for students, educators and congenial people. Also the Minnekahda, only steamer in the world carrying Tourist Third cabin exclusively. Rates: \$155 to \$180 according to steamer.
