

Gimghoul Castle Is a Replica of Mediaeval Saxon Stronghold

(Continued from page one)

strel Gallery" is the Round Table of the Gimghouls, around the edge of which is inscribed the oath of King Arthur's knights. The diameter of the table is 10 feet—Arthur's table was 30 feet.

A serving closet and a ladies apartment are in the rear of the reception room. From the serving closet a stairway leads down into the basement to a kitchen. On the second floor of the larger tower is the chapter hall, where matters of business are transacted. From the third floor or tower room the deck can be reached by climbing the winding stairway of the smaller tower.

Throughout the castle hang pewter candlesticks, each holding a small electric bulb. All of the rooms are fitted with base-plugs which can later be used for table lamps or cleaners. In the basement is an air circulation heating plant that heats the first floor of the building. All of the hardware is hand-forged, and is practically the same style as that used in the England of Saxon times.

Piney Prospect

Famous for the castle that crowns its brink and abounding in strange tales, also, is Piney Prospect. On this very hill a duel was fought, a lover killed, a lover pined away, so legends tell us. In front of the entrance and in a straight line with the vestibule is a large oval shape rock, the mythical tomb of Peter Dromgoole. The story of Peter

Dromgoole is known to every University alumnus. He entered in January 1833, although not a matriculate. Peter was a restless and unsteady youth and, it seems, got into some trouble. Associated with the matter was a pretty colonial maid.

"Dam him! he strack me, en call me a houn,—
En bofe of us shan't live above de groun!"

Thus runs the story of the duel as told by the old slave to his young master in the poem "On Piney Prospect" by L. B. Hamberlin in the University Magazine of 1892. The combat followed a commencement ball, as this source gives it, and Miss Fanny, sweetheart of young Dromgoole, was sent for at the time, but she reached the scene of the shooting too late. Peter Dromgoole was dead.

South Carolinians To Meet in "Y" Tomorrow

There will be a meeting of the Palmetto Club Friday night at seven o'clock in the Y. M. C. A. All members are urged to be present at this session, which will include in its program a talk by Dr. Coker, formerly of Hartsville, South Carolina, and present head of the Botany department. Business to come before the Club includes the election of a vice-president to succeed the man elected last year, but who has not returned. Since this is to be one of the most important meetings of the year, all old members and students from South Carolina who wish to become members of the organization are asked to be present. Refreshments will be provided.

Frosh Defeat Bragg Friday

Displaying a driving, smashing attack and a strong defense, the University of North Carolina freshmen shoved over a touchdown in the second quarter to defeat the 17th Field Artillery team from Fort Bragg, 7 to 0, at Fayetteville Friday afternoon. The Tar Babies made almost twice as many first downs as their heavier opponents and outplayed them thruout the contest. Both teams displayed some hard tackling and fierce driving.

Pair of Glasses Lost in the Stadium Saturday. Tortoise Shell in tan case. Dr. Louis, Wright, & Hicks written on case. Return to TAR HEEL office and receive reward.

WHAT'S HAPPENING

Today

- 7:30 p. m.—Meeting of the Graduate Club, Episcopal Parish House.
- 8:30 p. m.—Cheeri-O-Show, Memorial Hall.
- Saturday, November 6
- 2:30 p. m.—Varsity Football, Carolina vs. V. M. I., Emerson Field.

Three Hours Is Given to Daily Study by Frosh

(Continued from page one)

Time Divisions

The average number of hours devoted to each activity during the week is given below.

	Hours	Minutes
Music	2	2
Self-help work	7	15
Study	23	35
Class and Lab.	17	45
Religious Activities	2	55
Bull Sessions	3	24
TAR HEEL	1	5
Books	1	46
Other Newspapers	2	44
Other Publications		45
Off Campus Social Activities	1	24
Pickwick		28
On-Campus Social Activities		35
Other Campus activities		45
Trips (actual time spent in traveling)	1	45
Other Shows		15
Athletics	4	7

Space was provided on the cards for recording of time spent in Dramatics, Debating, Publications, Fraternity Duties, and reading Campus Periodicals, but the average amount of time devoted to these activities was negligible. Only a small percentage of the students recorded any time devoted to them.

Some very interesting extremes were recorded. One student traveled 48 hours during the week covered by the survey. Another studied 73 hours, or an average of over ten hours each day. One athlete devoted thirty hours to sports, an average of five hours each week-day.

Surveys similar to the one just completed here have been carried on in many of the prominent institutions of the country. Some important reforms in student time allotment have been brought about by them. Northwestern University, Syracuse, Colgate, Dartmouth, Yale, and the University of Southern California are some of the more important schools to carry on such surveys.

That the typical U. N. C. student is occupied with his classes and studies about seven hours each day is one of the most important facts brought out by the survey. This is in direct contradiction to the criticisms of the University made by newspapers, politicians, and others over the state. A wide participation in the various campus activities is also shown.

Mathematicians Organize

The Mathematical Club underwent a reorganization Tuesday night in Room 310 Phillips Hall, selecting as its officers, D. A. Cameron, president, and D. T. Hall, secretary and treasurer.

In former years the officers of the Mathematical Club were selected from the mathematical instructors and professors. Under the new organization, students studying mathematics will have complete control of the club. The purpose of the organization is to get mathematical students together, and to present papers in which all the members are interested.

Pitt County Club Meets

The Pitt County Club will have its regular bi-monthly meeting tonight at the Y. M. C. A. The meeting will be a "Smoker Night" affair.

The meeting is called at 8:30 p. m. and the Club will take up the question of having a banquet jointly with the county alumni followed by a dance during the Christmas holidays.

The following men have been elected officers of the club: Frank Wilson, Jr., president; Willis Wichard, vice-president; and Tom Johnson, secretary-treasurer.

letter man, may also be in condition to run. With these two added to Elliot, the Southern Conference smasher, Captain Daniels, Tilley, and Brown, the Tar Heels will have an aggregation that will compare favorably with any team in the south.

The Tar Babies have been working out daily with the varsity men, and led by Barclay, winner of the cake race, should make a splendid showing against the State freshmen. Other prominent freshman runners are Horney, Nims, and Devine.

schools the honor-point system is used, in which a man receives an extra credit for B's and A's, and is thereby enabled to graduate earlier in proportion to the excellence of the standing in scholarship. Here we have the Dean's List as an attempt to provide incentive to the exceptional student and to reward him for excellent work done.

Military Courses Resolution Meets Death in Di Senate

(Continued from page one)

One new senator was passed and initiated at the meeting, M. S. Younts, Salisbury.

Frosh to Debate

It was announced by Senator Brown that the freshmen intra-society debate would be on the subject, Resolved: that the United States cancel all French and German war debts incurred during or subsequent to the World War. Tryouts will take place Monday, November 15, at 7:30 in the Di Hall.

Senator Kennett announced that the subject for the Mary D. Wright debate will be, Resolved: that North Carolina's present method of nominating by means of direct primary be abolished. The subject was

chosen by the Phi, and in a meeting held after the senate adjourned by those trying out, it was decided that the Di would uphold the affirmative. Tryouts will be Monday, November 22, and the final debate will take place the first week in December.

A Few Bills

The following bills and resolutions were introduced, Resolved: that the Di Senate go on record as favoring a law to provide for the licensing of all bawdy houses in North Carolina; bill to be entitled an act for the cancellation of all French and German debts to the United States incurred during and subsequent to the World War; a bill to be entitled an act to change the XVIII amendment so as to provide for the manufacture of light wines and beer; resolved: that the Di Senate go on record as favoring the abolition of the class system at the university and the substitution of a system of organized class groups instead.

At Forty

"At Forty" the housewife in some sections of Europe wears a black bonnet to signify the end of her youth. A quaint custom—you say—but it usually signifies a fact. Heavy tasks, indoors and out, have made her old—at forty.

Of all the uses of electricity in America, the most important are those which release the woman from physical drudgery. Electricity carries water, washes clothes, cleans carpets, cooks the family's food—better and quicker than could be done by hand.

A trip to town or an hour's rest in the afternoon pays a woman dividends in good health "at forty years." And what is youth but that?

Men and women who have had the benefit of college training and college life have learned to place the proper value upon rest and recreation. They appreciate the relief afforded by electricity.

Upon great generators which send out current to light the homes and carry the burdens of millions, you will find the G-E monogram. Upon industrial motors, on electric railway trains—wherever quality and un-failing performance are first essentials—the G-E monogram will be found.

A series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.
