

GIFT OF \$275,000 FOR STADIUM MADE BY WILLIAM R. KENAN

TAR BABIES AND MARYLAND FIGHT TO 7 TO 7 DRAW

Exhibition On Emerson Field Slowed-Up Because of Wrangles.

PASSING FEATURES GAME

Carolina Frosh Miss Two Good Chances To Score To Break the Tie.

The Carolina freshmen played the Maryland freshmen off their feet on Emerson field Saturday but had to be satisfied with a 7 to 7 tie. The game itself was one of the poorest exhibitions ever played on Emerson field owing to the incessant wrangling of both teams with the officials, and several fights between players that were narrowly averted.

The Tar Babies were the first to score when just after the beginning of the second quarter, Spalding on a delayed triple pass circled right end for eight yards and a touchdown. A series of end runs by Ward and Spalding and a twenty yard forward pass, Ward to Snider, carried the ball from Carolina's 45 yard line to Maryland's eight yard line, from whence Spalding made his surprise dash for six points. Whisnant's dropkick was broken up, but the point after touchdown was allowed because a Maryland youth was offside.

During the halves, the Maryland coach must have imbibed his players with aerial desires, for in the third quarter just as soon as Maryland got her hands on the ball, she started forward passing. Standing on his own 15 yard line, Roberts, Maryland quarter hurled a pass to Dodson, Maryland halfback, that advanced the ball 30 yards. Another pass was completed for 20 more yards. A third pass, two plays later, again was good for 15 more yards, and the ball was on the Tar Babies 16 yard line. (Shades of the Davidson catastrophe!) Line plays failed, and for the fourth time, the Marylanders hurled the ball into space. Heagy made a beautiful one handed catch of Dobson's

DORMITORY RENTS REMAIN THE SAME

Budget Commission Hears Executive Committee of Trustees—Library Greatest Need.

The executive committee of the University Board of Trustees met with the State Budget commission at Raleigh Friday to discuss the situation in regards to the request of the executive committee for appropriations.

The question of whether or not University dormitory rents should be raised to encourage the building of dormitories by outside capitalists was practically ignored by the men at the meeting. The rents will remain as they are for sometime to come, it is understood.

President Chase, asked to denote the needs of the University in the order of their importance, stated that the greatest need of the University was a bigger library. He considered the rest of items, including a gymnasium and new dormitories, of equal importance.

NEW STADIUM OF THE UNIVERSITY OF NORTH CAROLINA

Carolina's dream of a new stadium has finally been realized through the gift of \$275,000 by William R. Kenan. There will be 12,000 seats on each side, but, contrary to the above picture, both ends will be left open, according to the latest plans. When the first picture of the stadium was made, the plans were to erect a structure to accommodate 35,000 people. The plans adopted when Mr. Kenan made his gift call for a decrease in seating capacity. The stadium, as is now contemplated, will follow the original design, with the exception that the horseshoe scheme will not be used.

WORK ON PROJECT TO BEGIN WITHIN NEXT FEW DAYS

Structure To Be Known As Kenan Memorial Stadium and Will Seat 24,000.

SITE IS YET UNDECIDED

Probably Be Located In Natural Amphitheater Behind Emerson Field—To Rush Completion

With the gift of \$275,000 by William Rand Kenan, a Carolina alumnus and now a prominent engineer of New York city, work will be begun at once on the new University Memorial Stadium, which has a seating capacity of 24,000 people and be located somewhere near the present Emerson Field. The donation is in memory of Mr. Kenan's mother, Mary Hargrave, and father, William Rand Kenan, and the structure will be known as the Kenan Memorial Stadium.

Mr. Kenan made the gift in person here Saturday afternoon in President Chase's office, in the presence of the graduate manager, Charles T. Woollen, Robert Lassiter, of Charlotte, Dr. Foy Roberson, of Durham, and President Chase. Mr. Lassiter and Dr. Roberson are chairman and secretary, respectively, of a committee which has laid plans for a general campaign among Carolina alumni for funds for the stadium, but Mr. Kenan's gift has made this drive unnecessary.

The site of the new stadium has not been definitely decided, but it is probable that it will be located in a natural amphitheater just back of the present athletic field. If it is built here it will be easily accessible from all directions by automobile.

There will be 12,000 seats on each side of the field, and provisions will be made to double this capacity when necessary. Both ends of the stadium will be left open in order to have no undesirable seats, and at the same time insure a good circulation of air across the field.

Track contests, as well as football, will be held in this new stadium. A quarter-mile cinder track will surround the field and there will be a straight track for dashes similar to the present one.

With so much pleasant weather at Chapel Hill in the fall and spring, band concerts, dramatic productions, graduation exercises, and all other similar attractions will be held in the new stadium.

Henderson on Trip

Takes Six Weeks' Trip To Do Research Work and Lecture.

Dr. Archibald Henderson, of the University faculty, is away on a six weeks' trip to do research work on certain aspects of the theory of relativity. He is being assisted in this work by a grant from the Rockefeller Foundation.

While on this trip, Dr. Henderson will make addresses before the University of Pennsylvania, Columbia, Yale, and the New York Theater Guild. He will also prepare articles for certain magazines along the line of his research work.

THETA RHO GETS PHI SIGMA KAPPA

Installation of 28th National Fraternity Here, Performed Coming Week-end.

INDUCTION SATURDAY

The coming week-end will mark the advent of the twenty-eighth national fraternity to be established here when the Theta Rho local fraternity will be installed as a chapter of the Phi Sigma Kappa Fraternity. Extensive plans have been made by the Fraternity to celebrate the occasion and preparations are under way for the installation and the entertainment of the visitors who will attend; Friday and Saturday, November 19 and 20 have been set as the dates for the event.

The ceremonies will begin Friday afternoon with the individual initiation of the members of the local chapter by the visiting installation team. Friday evening the fraternity will honor its guests at a banquet at the Carolina Inn. Saturday the actual Induction Ceremony will be held at which the Carolina Chapter of Phi Sigma Kappa will be formally installed. The remainder of the Day will be devoted to the entertainment of the visitors. The Carolina-Virginia Freshman football game is the attraction in the afternoon and Saturday night the Installation Ball, to which invitations have been received on the campus, will take place in the Carolina Inn Ballroom.

Phi Sigma Kappa, in granting the petition the Theta Rho, is establishing its fourth chapter in the South, the others being at Georgia Tech., Virginia, and Maryland. It is a strong northern fraternity, with the majority of its forty odd chapters above the Mason-Dixon Line. It was founded in 1873 at Amherst in Massachusetts and since that time has branched out slowly. The successful petitioner, Theta Rho was established here in 1923.

M. G. Little, of the University Extension Division, delivered an address before an assembly of the Pender County Teacher's Association last week at Burgaw, N. C.

TAR HEELS, WEAK ON AIR ATTACK, DEFEATED BY DAVIDSON 10 TO 0

Carolina Is Visitor and Victim At Wildcats' Dedication Of New Stadium—Passing and Grey's Kicking Prove Undoing of Heavy Collinismen.

Davidson dedicated its new stadium Saturday with a 10 to 0 win over the strong University of North Carolina eleven.

The score, a surprising upset of dope, was featured by the Wildcats' alertness in critical moments throughout the entire four periods.

Monk Younger had accurately foreseen the inability of Davidson to defeat the heavier Tar Heel team by use of straight football. Consequently, the air became full of pigskin in the first few minutes of play, and the Wildcats allowed the game to be resumed on an earthly basis only when the ball had been advanced on successive passes to Carolina's 6-yard line. Three line plays placed the ball on the 1-yard mark. At this juncture Nesbit, Davidson fullback, pushed over the goal line on a play through tackle. Grey was successful in his try for extra point. A field goal in the third quarter completed Davidson's scoring.

Gummed the Works

The Davidson receivers appeared to have glue-covered hands. If it is possible for one of these swift-moving ball catchers to muffle a pass, the fact was emphatically not demonstrated Saturday. Wells, Wildcat captain, gathered in two heaves that bordered on the phenomenal.

The Wildcats were successful in three out of four attempted passes; Carolina completed one out of five.

181 Yards for a Goose Egg

A review of Carolina's earnings during the game results in 12 first downs, 181 yards from scrimmage, and a big zero on the score board. Davidson succeeded in registering only five first downs, and gained 81 yards from scrimmage. The Wildcat wall invariably stiffened when Tar Heel drives carried the action into dangerous territory, and the team which last week swamped V. M. I. was unable to register even a point against the Presbyterian eleven.

Tar Heels Show Strength

Throughout the game, and especially in the second quarter,

Carolina ripped off yardage almost at will until the ball approached the realms of scoring distance. Fumbles, incomplete passes, and a grim set of Wildcat forwards halted the Tar Heels' advance on each occasion when a score appeared to be forthcoming. McPherson, Jenkins, Gresham, Shuford, and Ferrell made numerous lengthy gains.

Toe Told Tale

In the third quarter Davidson gained possession of the ball when Carolina fumbled on its own 41-yard line. Younger's team made two successive first downs, one on line plays and one by a pass. Two attempts to penetrate the Blue and White forward wall failed. Grey dropped back and booted the ball over the crossbar for three points and the last score of the game.

Davidson stiffened in the final quarter and smeared the Tar Heel offense time after time.

During the game, Carolina displayed a greater show of strength and a smooth working attack; but Davidson's superiority in the passing game and her ability to take advantage of breaks was enough to cast defeat into the Chapel Hill camp.

Fierce tackling by the Tar Heel forwards was a chief feature of the contest. Schwartz, at center, stood out especially for his work on the defense.

Line-up:

Carolina	Position	Davidson
McMurray	Left end	Bohannon
Morehead	Left tackle	Lincoln
Whisnant (c)	Left guard	Mitchell
Schwartz	Center	McConnell
Shuler	Right guard	Boggs
Warren	Right tackle	Ritchie
McDaniel	Right end	Pinkney
Hackney	Quarter back	Wilson
Ellison	Left half	Wells (c)
Ferrell	Right half	D. Grey
Jenkins	Fullback	Nisbet

STADIUM DONOR IS AN ALUMNUS OF PROMINENCE

William R. Kenan, Member of Class of 1894, Was Active Leader.

PLAYED VARSITY SPORTS

Has Strong Connections With University—He Heads Many Important Concerns Now.

William Rand Kenan, donor of the \$275,000 Memorial Stadium to Carolina, is one of the most outstanding alumni of this institution. He is a native North Carolinian, and besides being a graduate of the class of 1894, there are many other ties which bind him closely to his Alma Mater.

His father, William Rand Kenan, came to the University with the class of 1864 but left after a short time to join the forces of the Confederacy. He was afterward awarded his degree by the University authorities. His mother, Mary Hargrave, was a Chapel Hill girl. Her family home was located on the corner of East Franklin and Columbia streets, the site which is now occupied by the Andrews-Henninger store.

Mr. Kenan has a number of other relatives who have taken an active part in the affairs of the University. Two uncles, Thomas S. and James G. Kenan, the latter a trustee, and three cousins, Owen H. and Thomas S. Kenan, and James G. Kenan, the latter a trustee, have all attended the University.

Being originally from Wilmington, Mr. Kenan attended the Tileston high school there and Horner's Military School at Oxford before he entered the University. During his stay at the University, he was prominent in campus activities as well as an outstanding athlete. He played Varsity baseball four years and Varsity football two years. While a student at Carolina, he spent his summers in chemical research work with Dr. F. P. Venable, then professor of industrial chemistry. Their investigations led to the determination of a formula for carbide and the discovery that
