

CLIPPED

ANOTHER FIRST FOR N. C.

North Carolina is again leading the way, and this time in a highly constructive fashion which is certain to prove extremely beneficial.

A plan has been worked out whereby post-graduate work will be given practicing physicians in all sections of the state under an extension system fostered by the University.

So successful has the undertaking proved however, that it has attracted considerable attention and the "North Carolina plan" is to come in for discussion at the annual meeting of the American Medical Association now under way in Washington.

There is even ground for local pride in the plan for physicians of this immediate section had no little part in getting the "North Carolina plan" started. It was at a meeting of the Fourth District Medical Society in 1916 that the doctors of the district decided they would like to make some arrangements for obtaining extension instructions which should keep them abreast of the most modern discoveries in the science of medicine.

Under it leading experts connected with standard medical colleges and clinics are brought into the state periodically. Weekly classes are held at any point where as many as 15 physicians enroll for the course. In these classes the practicing physician has brought to him in lectures and demonstrations the most recent advancements which the research and experimental work of the hospitals and clinics of the nation have developed.

This is a first of which the state should really be proud—Rocky Mount Telegram.

MORE ABOUT EXTRA CURRICULA

Emphatic endorsement of extra-curricular activities formed the basis for a striking editorial recently in the Michigan Daily—which is, with the exception of The Daily Illini—perhaps the outstanding college journal of the country.

The theory that indulgence in extra-curricular activities is fatal to scholarship has at length been relegated to its proper place among outworn superstitions and fancies. An investigation conducted by the sociology department of this University brought forth statistics which prove that those who are most actively engaged in work which is not included in the curriculum are also those who rank highest in scholarship.

It is not hard to find reasons why this is so. In the first place, only capable students, who are not forever grubbing through books, will have the time to devote to extra-curricular work. It is the capable student, too, who will have the talent to engage in such activities as dramatics, debating, the student government, or student publications.

The time that an individual spends in college should result in his preparation for active competition in the world after he has graduated. While in some degree the work that he does in scholastic courses helps to fit him for this, yet it does not provide as much as might be desired of competition between man and man.

the effort required to obtain success in it are the finest ways of acquiring such training while in college. The qualifications for a clerk specify that he be able to concentrate and to perform mental labor. They do not necessarily require that he be capable of making his way in the face of obstacles which present themselves when other men become ambitious.

MUCH ABOUT LITTLE

Davidson college's "Suicide Club" has been killed. It has in a way committed suicide under the direction of the college faculty. The eight young men who belonged to the organization were summoned before the faculty and informed that while fraternities and other organizations and clubs were allowed on the campus, this suicide club business wasn't recognized.

The whole thing was more or less of a joke. It couldn't have been otherwise, even if the members of the club had believed themselves serious. In fact, if they had been engaged in the serious contemplation of suicide, it would have been a greater joke.

EXAMINATIONS SCHEDULE SPRING QUARTER 1927

Note: The schedule below gives the order of examinations for Academic courses meeting Monday to Friday or Monday to Saturday, inclusive, and for those meeting Monday, Wednesday, and Friday.

Examinations for courses in Engineering, including Drawing and Engineering Mathematics, are scheduled in Phillips Hall

Note: Classes in Accounting will have examinations as announced by instructors.

Table with columns for dates (Monday, Tuesday, Wednesday, Thursday) and times (9:00 A.M., 9:30 o'clock classes, 11:00 o'clock classes, 12:00 o'clock classes, 2:30 P.M., 3:00 and 4:00 o'clock classes, etc.)

NET TOURNEY IS NEARING CLOSE

The intramural tennis tournament will soon reach a conclusion as all of the teams are down to the round of eight and the D. K. E. team has gained its semi-final bracket.

Freshman Numeral Men

The names of the following men who made numerals on the freshman tennis team were omitted in the Tuesday issue of the TAR HEEL: Lee Wilson, Orlando, Florida; William Merritt, Chapel Hill; Benjamin Kendrick, Greensboro; Julian Palmore, College Park, Md.; McKenzie Watt, Greensboro; and Fleming Wiley, Durham.

The intramural baseball leagues are winding up their seasons. West has already won in the dormitory league, while Pi appa Phi will oppose Kappa Alpha for the fraternity championship Thursday.

NOTICE

Will the one who borrowed a fountain pen from W. W. Vaughan in the Registrar's office last Thursday please return it to the Y. M. C. A.

The Renfro Club will meet Thursday night at 9:00 o'clock in the club rooms of the Y. This is the final meeting of the year.

Nanette Guilford, Brilliant Opera Star, emphasizing voice protection,

writes:

"I first became acquainted with Lucky Strikes through my father, who preferred them to all others. Then I noted their popularity among singers—both men and women. I found the reason: Lucky Strikes protect the voice, never irritating the throat, also their flavor is superior."

Nanette Guilford

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted" Your Throat Protection

When in New York you are cordially invited to see how Lucky Strikes are made at our exhibit, corner Broadway and 45th Street.
