FREEDOM SHOULD NOT EN-**COURAGE ABUSE**

It is becoming noticeable of late, as one thoughtful student remarked the other day, that there is a growing lack of respect for University property and grounds. The TAR HEEL does not have to bestir itself to any great extent to seek far before a confirmation to this statement is forthcoming.

An ugly, well-beaten pathway bisecting the plats directly in front of Old West building is evidence of how careless the petty disregard for the beauty of the campus can destroy that which takes months to do. Thoughtless students, and members of the faculty as well, have contributed to this unsightly path by inadvertently taking a short-cut route to South building. They have no malice towards the University or the appearance of the campus. A dozen-yea, perhaps a score-of steps are saved; a wide swath, barren of grass, repulses the eye with its stark ugliness at a place where beauty and appearance is most desired.

terest being taken by the students in national politics is greatly to be commended. Particularly is this true at the present time when we have before

his fellow men. His was a pleasing and which made friendships. A public round. servant, a Christian and a gentleman in whom the milk of human kindness was combined with efficiency, faithfulness, vision and culture. That was W. N. Everett.

His record and his life speak for themselves and show unmistakably why the grief in the capital and over the state was so personal upon receipt of the news that he had passed into the Great Beyond .- Rocky Mount Evening Telegram.

HALING CLOSES **M'NAIR LECTURES**

Visiting Professor Finds True **Harmony Between Science** and Religion.

"Conflicts between natural science and true religion are always the result of misinterpretations and misrepresentation of one or both," asserted Dr. Thornton Whaling, Professor of Systematic Theology and former president of the Presbyterian Theological Seminary at Louisville, Kentucky, Wednesday night in Gerrard Hall in the last of the series of McNair lecbetween these two, although history abounds with illustrations of these forms of confusing contradictions." Dr. Whaling's topic for the final lecture was "The Relation of Science and Religion." He pointed out that aration of the case through to the there are certain mutual relations between the two, although their separa- lenging the jury, direct and cross extion into entirely distinct and diverse amination of witnesses, and the framspheres precludes any possibility of ing of the issues was dealt with at real conflict between them.

will see in his science an inspiration to true religion," he declared. "The nature which science has so wondrously revealed in modern times declares the attributes of God with convincing clearness and consummate art."

According to Dr. Whaling, a limited power could never guile the hosts of stars over their courses, nor create the atom containing millions of electrons. The established order of Nature, with its fixed uniformity of law, His plans.

Ehringhaus Speaks To Law School on **Trial of a Lawsuit**

Stressing the view that a lawyer's responsibility is to the public as well as to his client, J. C. B. Ehringhaus, of Elizabeth City, spoke here Thursday night in Manning Hall under the auspices of the University of North tures. "There can be no real conflict Carolina Law School Association on "The Trial of a Lawsuit."

This was the first of the annual series of lectures on the various phases of law practice. The speaker traced the steps of a lawsuit from the prepcourt room. The business of chalconsiderable length.

Mr. Ehringhaus emphasized the point that there is the human element in the court room as well as outside, and that in working a case to its end simple principles of psychology should be used and efforts should point to the most logical conclusion.

Workman to Speak **On Leadership Sunday**

Mr. M. T. Workman will discuss the subject, "Leadership-Is It Worth the exhibits no capricious God, but one so Price?" at the Methodist church towise that He has no need to change morrow morning at 10:05. The speaker has selected this topic in

the bout. After the Tech grappler 115-pound class-St. Amand, Duke, had the ex-football captain to the mat, and on his shoulders, however, Morehead bridged and held him off for four minutes. It was a fine exhibition of strength, but it was a position that no man could endure a great length of
