

Senator W. H. S. Burgwyn Addresses Student Body

Speaker is Candidate for Lieutenant-Governor of North Carolina

FORMER CAROLINA MAN

Pays Glowing Tribute to University as a Leader of the Dominant Spirit of Liberalism and Tolerance

"If any man in the country today understands what true democracy is, it is the University of North Carolina man," said W. H. S. Burgwyn of Northampton county in an address in Gerrard Hall Tuesday night. Mr. Burgwyn is a representative in the state Senate from his county and is a candidate for the lieutenant-governorship of North Carolina. The Northampton county man spoke here under the auspices of the Philanthropic Literary Society.

In tracing the development of North Carolina within recent years the speaker called attention to the progress made in roads, schools, and industry, but the most encouraging thing, he said, is that the young people today are liberal in their views, broad-minded and tolerant. He pointed out that the success of democracy today depended on the views taken by the citizens and he believes the young man of today has a clearer vision and a mind that is less clouded with suspicions than ever before in the history of the state.

Mr. Burgwyn declared that he was not speaking here in the interest of any candidate, but for the good of the Democratic party. He stated that in the past 28 years during which the Democrats have been in power in North Carolina, not one man had been charged with corruption and maladministration.

Speaking in an easy, straight-forward manner, Mr. Burgwyn contrasted the World War with the war that is being fought today among politicians. He pictured the war today as being fought with minds, education, and liberality against ignorance, prejudice, and intolerance. This war, he said, is being fought to keep democracy safe for the world. If this is not done, the Democratic party will be destroyed and with it would go the government of the nation. To prevent such an occurrence, he urged his audience to use every effort to eradicate any spirit of intolerance in the hearts of the people.

The speaker portrayed independence as the greatest factor in true democracy—independence of thought and action. This factor must be supported by being tolerant and liberal, he said, liberal in sentiments as well as action.

In his concluding remarks, Mr. Burgwyn recalled the days when he was a student here and paid a glowing tribute to the University as a leader of the dominant spirit of liberalism and tolerance and the unswakened stand it has taken for democracy since its foundation.

John Lewis, speaker of the Philanthropic Society, presented Judge Robert Winston who in turn introduced the speaker.

Collegiate Press Association Will Meet Today at Duke

Duke University publications have prepared an elaborate program for the meeting of the North Carolina Collegiate Press Association, which convenes there today to continue through Saturday. The University publications are sending two delegates each; this makes a total of eight men from Carolina. This convention was held at N. C. State College last year.

Chase Attends The Gaines Inauguration

Dr. F. P. Gaines was inaugurated as President of Wake Forest College there Tuesday morning, May 24th. Thirty-seven presidents and more than fifty delegates from the colleges of the United States were present. President Chase headed the group which represented North Carolina's Institutions of higher learning. In the inauguration exercises Dr. J. A. Campbell of Campbell College, President Howard E. Rondthaler of Salem College, Professor Charles H. Higgins of Bates College, Maine, and President Chase took part.

INSTALLATION OF CAMPUS OFFICERS HELD ON TUESDAY

Ceremonies Are Held in Memorial Hall; Jonas Presided

Campus is now under new leaders. The new campus officers became active at chapel period Tuesday. The retiring president of the Student Body, Charles R. Jonas, gave a short farewell speech in Memorial Hall and then formally yielded his office to Ed Hudgins, of Marion. President Hudgins stated that a revival of the Honor System would be an objective for next year. He complimented the retiring President, Jonas, on his work during the past year and stated that a special effort would be made to continue this work and to raise the Honor System to the high standard that it should hold at Carolina.

Hudgins introduced the members of the Student Council, of which he is ex-officio chairman: Howard Cox, Senior Class; "Red" Greene, Junior Class; "Pat" Patterson, Sophomore Class; Charles McAnally, Law School; John Redding, Medical School; David Browning, Pharmacy School; and Sam McNeely, from last year's Student Council.

Robert M. Gray, President of the Y. M. C. A. gave a brief outline of the work of the Y and introduced the new Y officers: Jimmy Williams, Vice-President; Bill Chandler, Secretary; and Wyeth Ray, Treasurer. Ray succeeded himself.

Odell Sapp, President of the Athletic Association, became so interested in his own talk that Ed Hudgins had to help him introduce Hoyt Pritchett, Vice-President of the Athletic Association.

The officers of the Debate Council will be announced later. These officers are not elected by the Student Body but are selected by the members of the Debate Council.

CAROLINA ALUMNI TO HOLD REUNION

Schedule Arranged to Bring Three Generations Together; Thirteen Classes Selected

A reunion committee comprising of fourteen alumni met at a luncheon given at the Carolina Inn on April 14. A schedule was arranged which would bring three college generations together. Members of the classes of 1884-1887; from 1903-1906; and from 1922-1925 were chosen. Last year's class was also elected to come, making a total of thirteen classes.

The plan of bringing successive classes was adopted in order to bring together the men who attended the University the same year. At the same time there are sixteen years difference between each group.

The fourteen members of the reunion group were: J. J. Jenkins, S. M. Gathis, Dr. N. W. Walker, F. F. Hickerson, R. B. House, D. E. Hudgins, Jr., J. M. Saunders, L. J. Phipps, J. O. Harmon, John Purser, Jr., T. H. Woodward, N. C. Barefoot, Edward Scheidt, and F. Frazier Glenn.

Prof. Kilpatrick Will Give Weil Lectures

The Weil Lectures for 1928 will be delivered by Professor W. H. Kilpatrick, of Columbia University, on May 3, 4, and 5, in Gerrard Hall, at 8:30 o'clock. The general subject will be "Education and Citizenship in the Changing South," and the titles of the three separate lectures will be: (1) "How the South is changing," (2) The consequent demands on citizenship, and (3) The education to meet these demands."

German Society Meets Tonight

The regular meeting of "Der Deutsche Verein" will be conducted tonight at 8:00 in 111 Murphy Hall. Prof. E. C. Metzenthin of the German department will be the speaker for the evening. Prof. Metzenthin will give an illustrated lecture on the beauty of Germany. All those who are interested are cordially invited to attend.

ENGINEERS SEND OUT INVITATIONS FOR OPEN HOUSE

All Departments of the School Will be Open For Inspection

Invitations reading as follows have been sent out to all registered engineers and High School principals throughout the state:

The School of Engineering of the University of North Carolina invites you to be present at the second annual open house, Phillips Hall, May the eleventh, from 5 to 11. Display of equipment—Exhibit of Student Work.

Many engineers of prominence are expected to attend this display, as well as those of the Physics department

will be in operation during that time.

The filter plant and the University power plant will be open for the inspection of the visitors, and with the members of the school of engineering acting as hosts, there will be nothing left undone in the way of making the visit a very profitable one for their guests.

Much new equipment has been added to Phillips Hall since last year, and the coming event is expected to completely eclipse the one which was held last year.

MANY STUDENTS TRYING OUT FOR WHOOPS M'DEAR

Definite Casting Will be Announced the Latter Part of the Week

An unusually large number of amateur actors came out for the first tryouts for "Whoops M'Dear" which were held in Memorial Hall Tuesday night.

According to estimates after the preliminary tryouts, there is a large amount of capable talent for the spring Wigwam and Masque production which has never been available before in the history of the organization.

With selection from this talent, the show is expected to excel all the others ever put on by this campus dramatic group.

Both the girls and male talent have shown an interest which far exceeds the fondest expectations of the director and producing unit of "Whoops M'Dear."

These preliminary tryouts Tuesday night were primarily interested in the discovery of talent especially suited to this type of dramatic work.

Further trials and selections will be made throughout this week, and all the real talent available will be rounded out and placed according to adaptability for the various parts in the new play.

Definite and tentative casting will be made at the conclusion of the tryouts this week, and announcements will be made early next week.

With a continuation of the progress shown up to this point, regular rehearsals on the show will begin by the middle of next week, according to a recent statement from a member of the producing staff.

Three thousand volumes, sent from the United States, form the nucleus of the Abraham Lincoln Library in Benito Juarez School, Mexico City.

The books have been donated at different times, most of them by members of the society called "Friends of Mexico."

The Weil Lectures for 1928 will be delivered by Professor W. H. Kilpatrick, of Columbia University, on May 3, 4, and 5, in Gerrard Hall, at 8:30 o'clock. The general subject will be "Education and Citizenship in the Changing South," and the titles of the three separate lectures will be: (1)

"How the South is changing," (2)

The consequent demands on citizenship, and (3) The education to meet these demands."

According to Dr. Totten, professor in the botany department, many interesting short papers by the leading scientists of the state will be read at the Academy of Science meeting. All papers will be limited to 15 minutes, except one or two which are of special interest; for these more time will be given.

Dr. J. M. Bell, head of the University Chemistry department, is president of the Academy this year, and

will be in charge of all the sessions.

MANY CASES COME BEFORE COUNCIL IN PAST QUARTER

Dishonesty of Students in Math Department Heads

The List

In accordance with the practice fixed last fall, the faculty executive committee reports the following disciplinary penalties imposed during the winter quarter:

Student 1, for disorderly conduct on class and falsely handing in attendance slips, dropped from Zoology and placed on strict probation for the rest of the year.

Student 2, for disorderly conduct on class, falsification, and violation of the honor system, suspended until fall, 1928.

Student 3, for dishonesty in handing in reports on Engineering material, refused permission to register spring term.

Student 4, for dishonesty in history examination, suspended until fall, 1928.

Student 5, for dishonesty in Spanish examination, suspended indefinitely.

Students 6 and 7, for dishonesty at the time of registration, placed on strict attendance and conduct probation for the spring quarter.

Student 8, for dishonesty in a mathematics examination, placed on strict probation for the spring quarter, and required to take a reexamination in the course.

Students 9, 10, 11, 12, 13, 14, 15, for dishonesty in a mathematics examination, loss of all credits earned in the winter quarter of 1927-28, and placed on strict conduct probation for the spring quarter.

Students 16, 17, 18, 19, 20, 21, 22, for dishonesty in a mathematics examination, loss of all credits earned in the winter quarter of 1927-28, and placed on strict conduct probation for the spring quarter.

Students 23, 24, for failure to appear before the committee to stand charges of dishonesty in a mathematics examination, refused admission to the University until they appear and stand these charges.

In view of the fact that students not directly implicated in any dishonesty in certain sections of mathematics nevertheless failed to report dishonesty of which they must have been aware, all students in the mathematics sections concerned were required to take a reexamination. This penalty was imposed not for dishonesty but for failure to carry out their individual responsibilities for student government.

Addison Hibbard, Chairman, Faculty Executive Committee.

Sophomore and Grail Dances on Calendar For This Week-End

The coming week-end promises to be another great success with the Sophomore Class dance and the Grail dance on the social schedule.

The second year men will hold their dance Friday night from nine till one in Bynum Gymnasium, and the Grail dance will be given in the same place on the next night from nine till twelve.

Extensive preparations are being made for these two events, and they should be unusually good.

The Grail dance will be given in honor of the newly initiated members. Both dances will be informal, and one dollar will be charged as admission for the Sophomore Dance.

The North Carolina Academy of Science will hold its 27th annual meeting here at the University on April 27 and 28. At the same time the North Carolina section of the American Chemical Society will hold its bi-annual meeting.

According to Dr. Totten, professor in the botany department, many interesting short papers by the leading

scientists of the state will be read at the Academy of Science meeting. All

papers will be limited to 15 minutes, except one or two which are of special

interest; for these more time will be given.

Dr. J. M. Bell, head of the University Chemistry department, is president of the Academy this year, and

will be in charge of all the sessions.

The members of the Academy will be luncheon guests of the University at Swain Hall on Friday at 1:45 o'clock.

Immediately after this the afternoon session will begin. At 4 o'clock there will be a business meeting

for members of other classes who are

having girls up for the other events

of the week-end.

Phi Beta Kappa to Hold Their Initiation Tonight

TEMPEST TO BE PRESENTED BY PLAYMAKERS

Ceremonies to Take Place in Gerrard Hall at 8:30; 30 Candidates

HENDERSON WILL SPEAK

Number of Candidates qualifying is Largest in the History of the University, According to Registrar

Those students who have done outstanding scholastic work during their three years here will receive the rewards of their labors tonight in Gerrard Hall. Phi Beta Kappa, honorary fraternity, is to hold its initiation at that time. The ceremony will begin at 8:30 o'clock, and Doctor Archibald Henderson of the math department will be speaker of the occasion. Dr. Thomas J. Wilson, Secretary and Treasurer of the local chapter, will also give a short talk.

Before the initiation there will be a business meeting of the officers and old men. The address by Dr. Henderson will immediately follow this, after which the formal initiation will take place. The preliminaries and addresses are open to the public.

The Registrar states that the number of candidates eligible to be taken into the honorary organization is one of the largest in the history of the University. There are over thirty to

the American Shakespeare Foundation has pledged itself to raise \$1,000,000 total necessary to recreate and adequately provide for a new Memorial Building to contain theatre of 1,000 seats, and to endow a dramatic school, a festival company, a museum, and a library.

Out of the 300,000 yearly visitors to Shakespeare's burial place, 40,000 are Americans. These statistics show the part that the United States should play in rebuilding the great English author's memorial.

The Playmakers have already produced a number of Shakespeare's plays in the Forest Theatre: "The Taming of the Shrew," in 1919; "Twelfth Night," in 1920; "Much Ado About Nothing," in 1921; "As You Like It," in 1922; and "The Comedy of Errors," in 1923.

"The Taming of the Shrew" was again produced in 1923. On this occasion, Dr. Koch, the founder of the Playmakers, played the part of Petruchio, the only time he has acted in any of the Playmaker's productions. Immediately after the performance the players planted a willow oak on the stage of the Forest Theatre to replace a great tulip tree which died when the stage was regraded. This tree is still alive and bids fair to be larger than its predecessor.

The cast will consist of: Alonso, Edwin S. Day; Sebastian, Arthur Sickles; Prospero, Shepherd Strudwick; Antonio, Richard Walser; Ferdinand, Harry Russell; Gonzalo, Moore Bryson; Francisco, Robert Cheatham; Adrian, Alfred White; Celibian, Urban T. Holmes; Trinculo, Alvin Kahn; Stephano, Charles Lipscomb; Boatswain, Edward D. Wilson; Miranda, Enita Nicks; Ariel, Lois Warden; Iris, Mary Dirnberger; Ceres, Fielding D. Toy; Juno, Emily S. Slade; Nymphs: Margaret Holmes, Betty Sloan, Anita Darling, Katherine Darling; Reapers and Shapes: Edward D. Wilson, Lawrence Thompson, John Norwood, Arnold Borden, Walter Creech.

"Life insurance offers opportunities to those interested in finance, office development, mathematics and science, or salesmanship," said Mr. Blair. But time permitted him to develop only the possibilities of salesmanship.

"Life insurance satisfies a fundamental human need. The most important factor today is activities of human beings. All the material prosperity which we enjoy today existed at the time of Columbus but liked human activity. Life insurance continues the active value of an individual after death and in this way satisfies a human need and yearning and is a guarantor of happiness."

N. C. C. W. Opera Gives First Comic Production

Greensboro, April 24
