The University basketball team opened a three-day Southern trip by nosing out the University of Georgia quint Thursday night, 31 to 29.

The game was closely fought but the Tar Heels displayed the needed edge for victory. The win was the fourth inside the conference for the North Carolinians, who have lost one S. I. C. game.

Free Flying Course Offered to Students

An opportunity to win a free flying course is offered students of the University of North Carolina by James S. Charles, head of the Charles Flying Service and operator of a large flying school at Richmond, Va. Mr. Charles, a distributor of Eaglerock airplanes in North Carolina and Virginia, has announced he would award a free 10-hour flying course, worth approximately \$300, to the college student in his territory who makes the best showing in the aeronautical scholarship contest which the Alexander Aircraft company of Colorado Springs is holding this spring to arouse more collegiate interest in aviation.

The Alexander company will award a completely equipped Eaglerock, or if preferred, a four-year university scholarship in aeronautics, on June 1 to the undergraduate who submits the best four short articles on aviation before May 1. The contest is open until that date. Both men and women are eligible.

High School Cage Race Starts Soon

These entry blanks are due back February 9. Schedules will be arranged immediately thereafter at conferences of faculty advisers of high schools in east and west, and the first games of the series will probably be played February 15 or 16.

Eliminations will be conducted as usual with Eastern Champions meeting Western Champions here at the University for the State Championship.

A record participation and a highly successful contest are being expected this year.

Plan to Celebrate Progress of College

On Arbor Day, February 22, Lenoir-Rhyne College will celebrate a culmination of improvements on its campus during the present period. At this time the campus will be planted with trees and shrubbery.

An outdoor pageant on George Washington will be presented by the college dramatic organization, directed by Miss Pearl Setzer, who prepared the scenes.

Improvements at the college during the past year were the erection of the D. E. Rhyne administration building, Mauney Hall for girls, college refectory, and the remodeling of the former Oakview Hall into a conservatory of music. The building program was commenced after fire had destroyed the main buildings at the college.

Dreams and weather predictions usually go by contraries.

RUSSIA GOOD TO DOCTORS

Lawyers are not very popular in Soviet Russia, but physicians are. Recently many restrictive measures against lawyers have been proposed, but the doctors are going to have their salaries raised. The presidium of the central executive committee has just announced the scale of increase: Beginning in the year 1928-'9 physicians are to have a raise of not more than 20 per cent every three years, but after three such increases the raises stop. Psychiatrists are first on the list for the boost.

Perhaps all men are liars, but there are times when it is unwise to say so.

Some men are silent because of their wisdom and some because of their ignorance.

BEN FRANKLIN made the horseshoe nail a symbol of the importance of little things. "The kingdom was lost and all for the want of a horseshoe nail", goes one of his wise sayings. So when he became Postmaster General, he knew full well the need for proper horseshoeing as one step in punctual mail schedules.

The care given to details can still make or break a great plan. In the

telephone industry, for example, the development of compact paper insulation helped to make possible the small diameter cable and therefore the vast underground plant necessary to serve large cities.

A multiplicity of details, from the testing of long fibre cotton to the "voice with the smile", offer a continual challenge to the Bell System men who unite the nation with telephones.
