

DR. BEARD TALKS ABOUT DRUGS AT ROTARY MEETING

Member of Pharmacy School Faculty Tells What Aims of Pharmacy Are.

The Chapel Hill Rotary Club had as its guest at its weekly banquet and meeting in the ball room of the Carolina Inn Wednesday evening, Dr. Grover Beard, of the University Pharmacy School faculty. Dr. Beard delivered at this meeting one of the most enjoyable and instructive lectures of any that have been featured thus far in the series of programs in which faculty members and students are participating. His lecture on "What Pharmacy Is and What It Seeks To Do" follows the plan of the program committee in introducing the club to the different professions followed by its members.

"To begin with," said Dr. Groves, "Pharmacy is the art and science of collecting, manufacturing and dispensing drugs. Pain is relieved by the use of morphine and fever by means of quinine. Yet if it were not for pharmacy, these medicines would never have been made fit for use in relieving these ills. Most laymen think of a pharmacist as just a mere man who stands behind a counter in a drug store and exacts exorbitant prices for a simple mixture of dope, but in reality, the selling of medicine is the most minute task which the pharmacist has to perform. Upon looking at the finished product in liquid form in a bottle one would never think of the danger through which men have gone to get raw materials from the heart of jungles. One would never think of the huge plants that are necessary for the refining and manufacturing of this medicine to make it possible for us to use.

"Yet I have visited one plant in which a machine costing \$700,000 alone is necessary for the manufacture of one drug by itself. Of course pharmacists are always on the alert for new drugs. Through exhaustive research and many years of work, cod liver oil has been changed, for instance, into a palatable and nutritious substance. The same thing is true of insulin which has been con-

Buildings Men Are Painting up Things

The building department is not very busy at present although it is painting the corridors and stair halls in the Quadrangle, putting a new roofing surface on the Power Plant, and making furniture for the reading room of the new library, Superintendent Burch said yesterday.

The walls and ceilings of the corridors and stair halls of the dormitories are being given two coats of cream paint, and if this is not enough to adequately cover them they will be given a third coat. The corridors and stair halls of the buildings in the Triangle were painted just before the spring holidays, the work being finished while the students were away.

As the roof of the power plant had become cracked during the winter by the expansion and contraction of the corrugated steel roofing, it was decided to replace this material with a new layer of water-proofing paint. The old material has been scraped off and the roof gone over with steel brushes, and it is now ready for the new paint which will be put on in the immediate future.

The building department is quite proud of the new tables that it is making for the reading room of the new library. These 28 tables are 14 feet long, 42 inches wide, and have only four legs. They are reinforced with steel angle irons and have heavy solid tops. The department has just finished a part of the equipment for the new Bingham hall. The shelving, tables, desks, and cabinets in this building were made by the department.

Tryouts for Cheer Leader To Be Held Monday and Tuesday

All men wishing to try out for positions of chief cheerleader or assistant cheerleader must see Bill Chandler, Chief Cheerleader, at the Y.M.C. Monday or Tuesday. Members of any class are eligible for the five positions.

Walter Spearman

(Engraving Photo)

Walter Spearman (above), who recently retired from the editorship of the Tar Heel, was awarded the silver loving cup presented by the North Carolina Collegiate Press Association for the best college newspaper editor during the past school year, at the Association's convention in Greensboro last week-end. Spearman is retiring president of the Press Association.

Engineers Society Selects Officers And Prize Winners

Charlie Waddell Will Head Cain Chapter of A.S.C.E. Next Year.

At the meeting of the William Cain Student Chapter of the A.S.C.E. Thursday evening in Phillips hall officers for the coming year were elected and the winners of the two annual prizes given to the member who has shown the most interest in the Society and to the one who has done the most work for the organization were selected.

Charlie Waddell, rising senior, was elected president of the Society and C. P. Erickson vice-president. R. J. White and Bill Bobbitt were chosen secretary and treasurer respectively. Professor T. F. Hickerson, who was faculty sponsor of the Society for the past year was unanimously elected to that position for next year. Walter Parks was chosen as the member who had shown the most interest in the society during the present year, and as a result he will be presented a copy of the Engineer's Handbook. Phil Howell, retiring president, is to receive a Junior Membership in the A.S.C.E. for having done the most work for the society.

Announcement was made at this meeting of a contest sponsored by the North Carolina Section of the A.S.C.E. for the best thesis written by a graduating student on one of three topics chosen by the two latest past presidents of the organization. The prize for the winner of this contest is a Junior Membership in the A.S.C.E. It was further announced that additional information about this contest may be secured from Professor Saville of the Engineering faculty.

At the next meeting of the Society, which will be held May 9, Mr. B. S. Colburn, of Asheville, who was the contractor on the bridge over the Quebec River, will give an illustrated lecture on the construction of this bridge.

Loss of Wild Crab-Apple Tree Drives Biologists to Despair

The Biology department soared to the heights of joy last week and then in the same week its spirit dropped to the lowest depths of despair. The cause of this sudden change was a tiny wild crab-apple tree, a perfectly harmless piece of vegetation in itself, but one of extreme importance to the local biologists.

The reason for the importance attached to this small tree is that for many years members of the department had been looking for a species of wild crab-apple that was supposed to grow in this section of North Carolina, but which no one had been able to find. Last week a member of the department happened to find a specimen of this tree on a small hill, near the country club. He went to the man who was

FINDS WITHERED HUMAN FINGER

Duke-Carolina Filling Station Proprietor Finds Puppy Playing with Gruesome Object.

A mystery of baffling aspect has been developed through the finding of a human finger by a small police pup belonging to C. M. Crutchfield, proprietor of the Duke-Carolina filling station several miles from Chapel Hill.

Wednesday night the puppy was playing with what appeared to be a stick. Out of curiosity, Mr. Crutchfield examined the object, and found to his horror that it was a human finger, withered almost beyond recognition. He immediately notified the sheriff, who is now in possession of the finger.

The condition of the finger is such that the sheriff was unable to determine to what kind of person it belonged. The rough, jagged condition of the nail, however, indicates the possibility that it once belonged to a man, probably a white person.

Just how the pup came in possession of the finger is somewhat of a mystery. According to Mr. Crutchfield, the pup never plays outside the yard. Investigation of the entire vicinity, however, has failed to reveal any clue. So far as is known now, there have been no accidents in that section, and there is no evidence of anyone having been murdered. It is believed by some that the finger came from the University of North Carolina's School of Medicine. This is the most likely theory that has been advanced so far.

Number of Special Features Planned For Junior Prom

Junior Class officials promise a number of features that will combine to make the formal Junior Dance on May 3 a gala affair. The battle of music to be staged by Mendenhall's Tar Heels and Wardlaw's Orchestra will have an ideal setting in which the maestros may present their syncopation, symphonized or otherwise, to best advantage.

Bynum Gym will be bedecked in its best-dress attire. According to the Junior Executive Committee, decorations will be effected in a light pink and green color scheme, which should add much to the gaiety of the occasion. Overhead, there will be a low canopy of alternating colors which will be arranged to give a wave effect. A unique lighting arrangement has been planned to increase the attractiveness of the improvised ballroom. The firm of Glenn and Holmes, local interior decorators, has been engaged to carry out the decorating plans of the Class Executive Committee.

Philosophical Group Will Meet Monday

A campus group interested in the discussion of philosophical problems has been formed and is holding weekly meetings. The meetings are held on Monday evenings at 7:15 o'clock at the Bullshead Bookshop, Murphy. Anyone interested in philosophical problems is invited to attend and to participate in the discussions. On next Monday evening P. A. Carmichael will read a paper on historical concepts of the nature of philosophy.

FITCH TO APPEAR IN SONG RECITAL

Tenor Soloist is Well-Known Throughout This State; Former Instructor Here.

Sunday afternoon at 4 o'clock in Memorial Hall Theodore F. Fitch, tenor, former instructor at the University, will appear in a song recital. Mr. Fitch was instructor in piano and voice at the University from 1923 until 1926, leaving then to go to Eastman School of Music in Rochester, New York, to do graduate work. He was a former soloist with the North Carolina Glee Club and is well known throughout this state as a soloist of excellent ability. He is now director of the Rochester University Glee Club, which has been acclaimed as one of the few famous collegiate glee clubs in the country.

The program which Mr. Fitch will sing is as follows:

- My Shrine Bach
- The Tide Weikel
- Over the Sea Shaw
- The Lost Sea Gull Phipson
- Aspiration Cox
- Major and Minor Spross
- To My Incense Burner Cunningham
- Dusk of Dreams Martin
- The Star Rogers
- Sketches of Paris Manning
- May Day Carol Deems-Taylor
- Old Shepherd's Song Fisher

The public is invited to attend this recital. Mrs. Harry W. Chase will accompany Mr. Fitch at the piano.

Exhibit of Flowers Art Work and Home Products Held Here

The combined exhibit of flowers, art works, and home products sponsored by the Garden Club, the Art department, and the American Home department of the Chapel Hill Community Club was held in the Episcopal parish house Friday from 3 o'clock in the afternoon to 9 at night.

There were 32 prizes awarded for superlatives in the exhibition of flowers. Both cut and potted flowers were displayed and there was an exhibit of wild flowers gathered by a student in the Biology department. The prizes were donated by the merchants of Chapel Hill and Durham.

Sixty-Six Carolina Students Sent Home

The deans of the four undergraduate schools announce that as the result of failures to maintain academic probation during the winter quarter, and to pass the necessary two courses, sixty-six students were sent home at the beginning of the spring quarter. The distribution of this number among the four schools was as follows: The School of Applied Science, ten; the School of Commerce, eighteen; the School of Education, twenty; and the College of Liberal Arts, eighteen.

Playmakers to Return From Their Annual Western Tour Today

Performance at Greensboro College Last Night Brought Tour to an End.

By GEORGE EHRHART Staff Correspondent

Robert Jarrett (above), editor of the Davidson Chameleon, school magazine, was elected president of the North Carolina Collegiate Press Association at its nineteenth semi-annual convention at Greensboro College last week-end. He succeeds Walter Spearman of the University.

Connor Will Talk At Chapel Monday On State History

Lecture Will Be Second of Series on Contemporary North Carolina.

Dr. R. D. W. Connor, Kenan Professor of History, will continue the series of six chapel lectures on "The Understanding of Contemporary North Carolina," with a talk on "The Historical Background of North Carolina" in Memorial hall at chapel period Monday morning.

Dr. Connor is well versed in this field and an authority on the historical background of the state, having served as secretary of the North Carolina Historical Commission and written a number of books on the history of North Carolina. He has recently published a five-volume history of the state.

Besides Dr. Connor's lecture next Monday morning there will be four more given on "Understanding Contemporary North Carolina," one each Monday until the end of school. The remaining talks of the series are as follows: "Requests for Industrial Leadership," by Dean D. D. Carroll, of the Commerce school; "Literature and Fine Arts of Contemporary North Carolina," by Dean Addison Hibbard, of the college of Liberal Arts; "The Progressive Movement in North Carolina," by R. B. House, executive secretary of the University; "Public Education in Contemporary North Carolina," by Dr. E. W. Knight of the School of Education. The order in which these lectures will come has not been announced yet.

The purpose of this series of lectures is to stimulate among the students more interest about state affairs and problems. It is a project to give students an intelligent understanding and knowledge of the state, in the past and present, with a study of contemporary problems which need to be solved in order to raise the level of citizenship, according to Dean Bradshaw.

"One outstanding characteristic of this institution," says Dean Bradshaw, who is sponsoring the lectures, "is to train men to think in terms of the state with an unbiased viewpoint; we want our University graduates, when they go out in the world, to feel a close relationship with the state, which calls for a sincere feeling of responsibility."

Dr. Branson organizer of the North Carolina Club, who has done much work through the Extension Division in trying to stimulate a deeper interest in state affairs, says that "It is a pity for students to go through the University and not know their own state."

Marion Alexander To Present Paper

At the meeting of the North Carolina Club Monday night, April 29, the subject under discussion will be Rural Education in North Carolina. A paper will be presented by M. R. Alexander of Buncombe county. The club meets in 110 Saunders at 7:30.

Performance at Greensboro College Last Night Brought Tour to an End.

By GEORGE EHRHART Staff Correspondent

Aboard the Carolina Playmakers' Special Bus.—April 26.—After playing to a packed house in Johnston City, Tenn., the Carolina Playmakers boarded their bus at 11 o'clock p. m. Thursday night of last week and traveled all night in order to reach Nashville in time for a matinee Friday afternoon. This was as far west as the playgroup went on their western tour. Here they played to two capacity audiences under the auspices of the Nashville Little Theatre group. The playmakers were jointly entertained by the Dramatic groups of Ward-Belmont and Peabody Colleges Friday Night.

Taking a much needed rest, the Playmakers did not give a performance on Saturday but traveled at a leisurely rate to Knoxville, Tenn., where they put up for the night. The next day they enjoyed the trip over the Cumberland and Smoky mountains, stopping at intervals to take pictures and enjoy the scenery. Monday night they played in Tryon under difficulties as most of the troupe had taken horseback rides through the mountains, suffering much soreness as a consequence.

Tuesday night the Playmakers gave their performance in Statesville where Professor Koch gave an interesting talk befitting the birthday anniversary of Shakespeare. Kenneth Macgowan, who is touring the United States making a survey of theatrical conditions outside of New York for the Cornegia Corporation, also saw the performance. Mr. Macgowan is especially interested in the little theatre movement and came a long distance to witness the Playmaker show. He will also speak at the Dramatic Conference here on April 2. His talk will be based on his experiences in twelve thousand miles of travel through America.

Leaving Statesville for Hendersonville, H. C. Heffner purchased 16 large juicy steaks, and the Playmakers stopped in the hills around Lake Lure and held their annual steak roast. This event is looked forward to with much pleasure by the boys and girls making the western tour each year. They were cordially received by the Hendersonville group and were given a large audience.

Thursday night they played in Gastonia. R. E. Williams, city editor of the News and Observer and Mr. Chadwick, of the Baltimore Sun Staff, witnessed the performance. In the afternoon Professor Koch gave a reading of Mid-Summer Night's Dreams before the local dramatic club.

The Playmakers closed their twenty-fourth annual western tour with a performance at Greensboro College for Women last night.

Four plays were carried on the western tour, including "The Man Who Died at Twelve O'Clock," "Quare

Scholarships Are Offered for Social And Health Workers

Information has been received by the Bureau of Vocational Information, 204 South building, concerning scholarships and fellowships for seniors of southern universities who are interested in securing training and practical experience in social work, children's welfare work, public health, or recreation and playground work. The scholarships are offered for the academic year 1929-30, and holders will spend from one-half to two-thirds of their time in securing practical experience with Community Fund agencies and the remainder in study at the school of social work and public health in Richmond, a department of the College of William and Mary.

Permanent positions after completing the work in Richmond are found with no difficulty. The demand in the whole country for social workers who have completed the training provided under these fellowships is much greater than the supply.

Seniors interested in securing further information concerning these scholarships should call by the Bureau of Vocational Information, 204 South Building.
