

Carolina Men Are Urged To Sign Up For C.M.T.C. Camp

"Stir up the C. M. T. C. down that way and send us some applications". Thus writes Col. James M. Little, of Winston Salem, who is in charge of the Citizens Military Training Camps recruiting in North Carolina.

This is the plea received by 2nd Lt. Philip R. Whitley, 321st Inf-Res., and former State Commander of the C. M. T. C. Alumni in North Carolina. Lieutenant Whitley, who graduated from the C. M. T. C. at Camp McClellan, Ala. in 1924, is anxious that all boys seventeen years of age and above who are interested in the military work, get in touch with him immediately. North Carolina is running behind in its quota this year and the officials in charge are anxious that the Old North State improve its record.

The C. M. T. C. Camps will be held this year from June 13th to July 12th at Fort Bragg, N. C., Camp McClellan, Ala., Fort Moultrie, South Carolina, and other posts in the fourth corps area.

The military camps are a part of the war department's program that is being conducted under the National Defense Act. The government furnishes all equipment during the thirty day training period and transportation to and from camp.

Graduates of the C. M. T. C. are eligible for commission in the reserve corps, and those who have had prior military training by attendance at military schools may receive advanced rank. Students who are interested in attending the camps are urged to see Lieutenant Whitley at the law offices of McIntosh & Whitley (over the hardware store). He will furnish application blanks and first hand information.

Double Utility Bi-Sexual Underwear Is Order of Day

Women have finally penetrated the last fortress of the male. Recent clothing advertisements have boldly flaunted the fact that the double utility of the track panties and bisexual underwear is the order of the day. No longer may the male stride down the populous thoroughfares happily conscious of the gaily striped panties, since the co-ed, too, has adopted like apparel. For all he knows, the winsome maid striding at his side may be the proud wearer of underwear even more luridly colored than his own. No longer may he leisurely select his red flannels. As he ponders on the relative merits of the purple or the green, some demure debutante may snatch the tempting bit from his too slow fingers.

Alas for the poor male, woman has triumphed. Perhaps the day will even come when women will have a corner on the underwear market and poor males will be forced to shiver and scratch with the enforced absence of their pink panties. Who knows? Perhaps a woman will be the fashion czar of the bi-sexual underwear world, and will dictate the amount of hip-flare that the male will be permitted to wear, perhaps even prohibiting him from wearing lavender or red.

There is only one possible solution to the problem. Males must do away with underwear. Let the women wear the panties. Men will bravely face the northern blasts minus the protection of underwear, and will scorn the weakness of women who affect these puerile adornments.

Men Selected for Freshman Debates

The recent try-out for the Carolina Davidson Freshman Debate resulted in the selection of Harry Gump, of Greensboro; Ben Aycock, of Pantego; W. E. Conally, of Leasburg; and William Uzzell, of Louisburg.

Gump and Aycock will go to Davidson to tackle the Wild Kittens on May 1. They will uphold the affirmative side of "Resolved, That the jury system should be abolished."

Conally and Uzzell will meet the Davidson Freshmen at Chapel Hill. They will uphold the negative end of the same question.

President Chase Has a Busy Week

President Chase has had a full week in delivering addresses before various clubs in the state. Wednesday afternoon he addressed the local chapter of the D.A.R. at Spencer Hall, and Tuesday he delivered two addresses at Gastonia, one in the afternoon before the Kiwanis Club at the Armington Hotel, the other at night before the Gaston county alumni club. Last night Dr. Chase spoke before the Class Secretaries Bureau of the Alumni Association at the Carolina Inn.

City Fathers Divide The Town Into Zones

Purpose Is to Regulate and Limit Buildings and Structures in Chapel Hill.

Attention is called to a recent ordinance of the town of Chapel Hill, which divides the town into four building zones known as "Residence zone A," "Residence zone B," "Business zone No. 1," and "Business zone No. 2."

The purpose of this ordinance is to regulate and limit buildings and structures, according to their construction or use, and to regulate the use of land for the purposes of promoting health, safety, morals, and general welfare of the community.

Particular attention, especially of the fraternal organizations, is called to the section concerning the restrictions of "Residence zone A. In this portion of the town no fraternities are permitted to build or occupy a house not previously occupied before July 3, 1928. Fraternities now occupying houses in these districts may still continue to occupy them, but they may be requested to move out at the discretion of the town authorities.

Fraternities planning to build or buy a house should see the city manager before buying in order to comply with these regulations.

Busy Week-End for Tar Heel Orchestra

Alex Mendenhall's Carolina Tar Heels, popular campus orchestra, will play at Hampton-Sydney College this week for a fraternity convention. The band is taking twelve men on the trip, which will be made in the orchestra's bus.

The Carolina Tar Heels, which Mendenhall states should not have the word "boys" attached, has contracts to play at four dances this week-end. They will play at the Phi Gamma Delta dance and the Junior Hop Friday, and at the Zeta Psi and Grail dances Saturday. The band will also make a three-day trip into the eastern part of the state in about two weeks, playing at Greenville and Elizabeth City. The orchestra has contracts to play in western North Carolina during the summer months.

Saville on Board To Study Erosion On Atlantic Coast

Professor Thorndike Saville, of the Engineering School, recently received a request from a board of engineers to act as consulting engineer in a study of sand movement and erosion.

This board is composed of United States Army engineers, and is to make a detailed investigation of the causes of the serious erosion which is now going on along the Atlantic coast. The investigation will be made with a view of devising such protective constructions that may be necessary and will be a year or more in its completion.

JOURNALIZING SHAKESPEARE
Shakespeare has been "revived" and modernized. In fact, Hamlet has appeared behind the footlights clad in knickers of the plus-four variety. To this trend of adaptations, Dr. Franklin, associate professor of English at Boston University, has added another.

Dr. Franklin was recently interested to learn that thirty-five students in his Shakespeare class were seeking journalism degrees at the college. He studied his class list, and then, in the manner of a city editor, distributed assignments to his staff. . . . He declared: "Shakespeare lives on for one reason—because he crowded such an abundance of human-interest material into his plays. Study the newspapers, and see what they feature. You will notice that subjects involving death and tragedy are prominently displayed. Then there are action stories—stories of fights, of sports, and of adventure. I hold that in Hamlet you will find human-interest stories covering all these newspaper requisites."

Here are some of the assignments which City Editor Franklin distributed:

"There are rumors of a war in Norway. Get an exclusive story."
"Prince Hamlet is reported mad. There's a good story here."

"He is a story for our society page readers. Hamlet and Ophelia, betrothed lovers, are reported estranged. Love stories are always interesting, and where the persons concerned are of the nobility their interest is tremendous."

Professor Franklin explains that he is employing his novel method of studying Shakespeare to give journalism students a new angle from which to approach their study of the classics.—Boston University News.

Saville and Ray Attend Pollution Control Meeting

Professor Thorndike Saville, of the School of Engineering, and Mr. Charles E. Ray, assistant engineer of the Water Resources division of the Department of Conservation and Development, attended a meeting last Friday of a technical committee engaged in a study of the causes and the methods of control of the pollution of the various streams in western North Carolina. The meeting was held in the offices of the Champion Fibre Company, in Canton, and was attended by technical representatives of the industries in the western portion of North Carolina and by engineers of the State Board of Health.

The meeting was held under the joint auspices of the State Board of Health and the Department of Conservation and Development. Professor Saville and Mr. Ray represented the Department of Conservation and Development.

DR. BEARD TALKS ABOUT DRUGS AT ROTARY MEETING

(Continued from first page)
verted into an excellent remedy for diabetes.

"Pharmacists are not just purifiers of drugs alone. They ever seek to improve distasteful and powerful drugs," concluded Dr. Beard. "Above all, a pharmacist must be accurate. Sometimes one-hundredth of a grain too much in a prescription will cause instant death. See here," at this, Dr. Beard produced a very small bottle half full of aconitine powder, "I have enough in this small bottle of powder to kill every student in the University and a great portion of Chapel Hill people. You can see by this illustration

Patronize Tar Heel Advertisers.

that death can be easily given to a person by mistake by the use of a bit of this stuff too tiny in size for human eye to see. Pharmacists must be accurate. A doctor can bury his mistakes, but a pharmacist is always liable to lawsuits as the result of inaccurately filling even a minor prescription."

Dr. Beard was introduced by Judge Bowman, attorney for the North Carolina Pharmaceutical Association, cooperating on the Rotary Club program committee with E. Carrington Smith, manager of the Carolina Theatre.

PLAYMAKERS TO RETURN FROM THEIR ANNUAL WESTERN TOUR TODAY

(Continued from page one)
Medicine," and "The Lie." "Old Wash Lucas" was carried along to play in the towns where one of the other plays on the bill had been played on previous tours.

Those on the tour are Professors Koch, Heffner, Selden, and Misses Farrar and Dorch; Howard Bailey,

10-Yr. Man Still Lauds This Smoke

Utica, N. Y., Aug. 30, 1928

Larus & Bro. Co., Richmond, Va.
Gentlemen:

Just a line to let you know where some of your tobacco has been going for the last ten years. I have been smoking Edgeworth for the past ten years; in fact, since I started smoking, and it is just as good now as it was then. Have given other brands a fair trial, but there is none like Edgeworth. During that time I have had costly pipes and some not so costly, but I have decided that it is not the pipe but what is in it that counts.

With best wishes for your continued success in the manufacture of this high grade tobacco, I am,
Sincerely,
(Signed) N. A. Vaeth

Cornell University Summer Session in LAW
First Term, June 24 to July 31
CONTRACT, Professor Costigan, Univ. of California, and Professor Grismore, Univ. of Michigan.
PROPERTY I-a, Professor Wilson and Assistant Professor Farnham, Cornell University.
CORPORATIONS, Professor Wright, Univ. of Pennsylvania.
CONFLICT OF LAWS, Professor Dickinson, Univ. of Michigan.
JURISPRUDENCE, Assistant Professor Laube, Cornell University.
ACCOUNTING FOR LAWYERS, Professor English, Cornell University.
QUASI-CONTRACTS, Professor Dickinson, West Virginia University.
Second Term, Aug. 1 to Sept. 6
CONTRACT, see above.
PROPERTY I-a, see above.
PUBLIC SERVICE, Professor Cheadle, Univ. of Oklahoma.
NEGOTIABLE PAPER, Professor McCormick, Univ. of North Carolina.
INSURANCE, Professor White-side, Cornell University.
MUNICIPAL CORPORATIONS, Professor Frierson, Univ. of South Carolina.
ADMIRALTY, Professor Robinson, Boston University.
Students may begin the study of law in the summer session.
For catalog, address the Cornell Law School Ithaca, N. Y.

A Triumph! Super-Shorts no center seam discomfort

The smartest of underwear now becomes the most comfortable. Super-Shorts have been invented. •• An ingenious back panel banishes the wedging, bothering center seam. It eliminates binding in every posture, from class-room sitting to athletic field stretching. Provides ample roominess, yet hugs the body without harassing. •• More, Super-Shorts do credit to your taste in fraternity house dishabille. Wilson Brothers Style Committee presents them in the latest colors and patterns, separately, or with shirts in Blend-Suits. •• You won't have to write home for an increased clothing allowance to enjoy their extra comfort and style. But you might write Dad the good news, after you've tried a pair from the college haberdashery. They are sold back home as well.
