## Deans Clear Confusion Over Tri-semester Plan

Indian Summer Session Bridges Gap

By Burnie Thompson

Statements by Dean Robert B. House and Dean Cecil Johnson in the Tar Heel helped to clarify the confusion brought by the change to trimester Staff Meeting

Due to the course of the war, the University has found it necessary to change from the quarter to the trimester period of instruction. These measures have been decided upon only after much discussion by the administration, faculty, and the University at large. In an effort to avoid all possible inconvenience to the students, the University is offering a third

summer session to begin September® 18, and last until the third week in October and by attending all of these summer sessions the students will hasten rather than delay their degrees, thereby being of more service to their country.

Since the war started many of the professors have been called into the armed services or into more essential war work. This has led to an acute shortage of instructors, and the University has found that by combining the civilian and navy students they can adequately meet the needs of all.

Vacations for Faculty

The joint civilian-navy classes will - begin with the opening of the November-March term. This combining of classes will also make it possible for the faculty members to have a vacation, which is impossible under the present system.

In a recent notice issued to the civilian and co-ed students from the office of the Dean of administration well, therefore, to confer with his facit was stated that, "The September ulty adviser, or deans, before making term would not be a repetition of the such a risky decision. second term of summer school, courses in it will be offered in such a way as to enable students to make the transition to the November trimester with a minimum amount of inconvenience."

Dean House continued, "All students should plan to enroll in September as usual, in order to make maximum progress toward a degree

and availability for service to the nation. Any student who might decide without competent advice not to attend both the second term of summer school and the September term might inconvenience himself severely.

The second quarter of most threehour sequences (which were begun in the first term of summer school) will be offered in the second term of summer school, and the third quarter will be offered in the September term.

A student who is taking English 1 in the first term of summer school, for example, and who does not get English 2 in the second term of summer school, and English 3 in the September term, will find difficulty in making a proper connection with the English work that is offered in the November trimester. The same situation will prevail in many other courses. Any student who might be planning to be out of the second summer session or the September term will do

ontinuance Urged Although the illustrations above apply mainly to General College students, all Arts and Sciences students should plan to continue through the second summer term and return on schedule, after the eighteen days of vacation in September, in order to

## **Enlisted Men** To Fill Ranks

**Forrestal Declares** Fleet Wants 189,000

By Irwin Smallwood

Announcement by Secretary of the Navy Forrestal Saturday that the Navy needs 194,000 more men by December 31 of this year and a possible 189,000 more by June 30, 1945, tended to dispel rumors recently floating around Chapel Hill that the V-12 program is to be severely slashed in the near future.

The majority of the men will be obtained through the selective service, it was revealed, and the Navy's request for October has been increased by 8,000, making the total 30,000. Over all strength of the Navy will be boosted to 3,389,000 by this plan, Forrestal

This sharp jump in the number of Navy men on active duty was necessitated by the accelerated pace of the war in the Pacific against the Japanese. These new men will be disbursed mainly to man the amphibious and auxiliary craft that are slated to be commissioned next year.

Secretary Forrestal disclosed that it had been evident for some time now that the present naval strength would not be sufficient to last through 1945, Carr dormitory, which has been although it would satisfy needs as late

### Issue Honors its announcements will be posted. Capt. Popham

Student voice of the naval ROTC, the Catapult, bi-monthly magazine, came off the press Wednesday.

Edited by Albert Jacobson, second classman, the issue was dedicated to Captain W. S. Popham, USN, who departed for active service last month, and carried on the cover a scratchboard drawing of Captain Popham by

Al Kaufman, AS, V-12. Giving a complete picture of the life of the Roticee's on the Hill, the issue contains a satire on Swain hall by Saunder Harris, short biographies of some of the February arrivals to the unit, a description of the week cruise from Charleston taken the last of June, news of alumni in action in all the naval theaters of war, features on Captain Popham and Captain W. T. Mallison, USN, retired, who succeeds Popham as V-12 commandant, professor of naval science and tactics, and commanding officers of the U.S. Navy basic school of medical science, as well as messages from the two men.

Pictures of Captains Popham and Mallison, shots from the cruise, one of the entire V-12 unit taken during commanding officer's inspection, and one of Paul Green, former member of the unit, and a photo of the armory, give color to the magazine.

John Bacchus, second classman, is business manager.

Wedding bells rang for Wilma Smith, Carolina coed from Ashland, Ky., and Sergeant Warren F. Schroeder.

Attached to the V-12 staff on the campus, Sergeant Schroeder has been married to the former Miss Smith since July 8.

## Officials Calm Students As Epidemic Totals Drop

By Kent Palmer

With no new infantile paralysis cases reported locally and the state's dayby-day total in the epidemic dropping noticeably, University administration and health officials last night advised jittery students to "take it easy" as regards the danger of an epidemic breaking out in Chapel Hill.

Dean Francis F. Bradshaw and Dr .William P. Richardson both issued statements tending to spike rumors of new cases in this area. The statements followed a noticeable nervous-

ness within student body ranks after the death of an Orange county man from the disease.

State Total Over 350

A total of 362 cases had been reported over the state through Saturday, state health officials said. Only four new cases were listed Saturday, the most noticeable decline since the epidemic began early in June.

Dr. Richardson, district health officer, said in his statement:

"The rumors of several cases of polio in the Pre-Flight school or on the University campus are without foundation. I have checked with Commanders Rowe and Vance and they have had no such cases or illnesses that were suspicious at the Pre-Flight \* school.

No New Cases

"There have been no additional cases other than the two already re-For Discussion cases other than the two already reported and I see no cause for alarm or excitement among students. ## Campus BMOC

## Busy Harvey White Holds Myriad of Student Posts

By Bob Pearce, USMCR

Harvey O'Neal White is the president of the DKE fraternity which meets on Wednesday nights in the Carolina Inn. Every Wednesday night Harvey has to leave for the Deke meeting at least fifteen minutes early so he can stop by the Archer house and borrow his fraternity pin from his girl friend. Archer house has quite an attraction for Harvey and he seems to have quite

an attraction for the house, because he was elected honorary president of the girls dorm last March. CPU Chairman

Harvey White is chairman of the Carolina Political Union which is a nonpartisan student organization that has brought such speakers as President Roosevelt, Vice-President Wallace, and Governor Bricker to the campus. He is temporary chairman of the Ways and Means committee of the legislature, during Libba Wiggins' absence and is a member of the Interfraternity council.

He is the parliamentarian of the student legislature and a member of the Golden Fleece and the Grail. Harvey ran against Charlie Benbow for president of the student body in March of this year.

Although White was born in Chester, S. C., he lived most of his life in Birmingham, Ala., and has moved about a lot because his father is a

# No New Polio Cases In Chapel Hill Additional Men Needed For Expanding Navy Fleets

There will be a meeting of the entire staff of the Tar Heel in the office on the second floor of Graham Memorial Thursday afternoon at 4

There will be a complete reorganization of staff assignments and all old and new members must attend. This includes news reporters, feature writers, columnists, editorial writers, cartoonists, photographers, business circulation, advertising and sports.

All news beats will be reassigned and plans for the new term will be outlined. Applications will be accepted for staff appointments to fill vacancies created when former members graduated, transferred or took

short vacations. Experienced writers preferred, but new writers welcome and quick advancement is open to all. Failure to attend will be taken as an indication of lack of interest unless a likely excuse is offered in time to one of the editors. . . .

# Carolina Completes Final Plans To Receive Servicemen Returning For College Education

### Rogerson Releases Thorough Analysis

By Bob Rolnik

Carolina has made final plans to receive servicemen returning for educational training at the expense of the federal government, under the recently enacted GI bill and veterans' rehabilitation act, revealed L. B. Rogerson of the consolidated University, who released his thorough analyses of the situation this week.

Dean House assigned the task of further planning for the ex-GI's to the College for War Training, now headed by Dean F. F. Bradshaw.

### Twelve Already Here

Already benefiting from the veterans' rehabilitation bill at the University are about twelve medically discharged servicemen, stated Ed Lanier, director of the student loan and selfhelp office.

Various administration leaders expressed the opinion that many of the servicemen now on the campus would complete their college training under the government's plan after the war at veterans' choice, with tuition and all Carolina.

will also be given to persons enrolled under the bill. Time Limit

Those who wish to enroll under the benefits of the act must begin their course "not later than two years after the date of his discharge or the termination of the war, whichever is the later." After seven years beyond the end of hostilities, education shall no longer be afforded.

Eligible for educational benefits are all persons who were in active service on or after September 16, 1940 and prior to the termination of war, who were discharged under conditions other than dishonorable and whose education was impeded by entrance into the service. Whether attending school or not man will be eligible if he was not over Sergeant Marries 25 years of age.

Eligibility Men must have served at least 90 days (exclusive of any period assigned for a course of training under the Navy College program or ASTP, which
