Blankets On The Greensward

Old-Fashioned Community Sing Sunday Night In Front Of GM

An old-fashioned community sing, complete with blankets on the greensward, will be held Sunday at 8 p.m. on McCorkle Place in front of Graham Memorial. In

case of rain it will be canceled. Song Leader Joel Savell promises a wide variety of songs "to suit all tastes." Director of the Wesley Foundation here, Savell has handled a number of group sings before.

No Need For Glen Lennox Baptist Church

No new Baptist church in the Glen Lennox area of Chapel Hill is needed at present was the unanimous opinion of interested persons who met this week in response to a call extended by the Baptist Church.

Dr. Paul Shearin, vice-chairman of the Board of Deacons, presided, and Dr. W. P. Richardson, chairman of the Denominational Activities Committee of the Baptist Church, outlined the purpose of the meeting.

Opportunity also was given to residents of the area who could not attend to indicate their opinion by mail.

Other models consist of complex arrangements of levers, wheels and pulleys. There is a circular pulley which made it possible for a man to lift tremendous weights with comparatively little effort, an excavation machine, a diving apparatus, a hydraulic saw and a ventilating apparatus.

Leonardo's inventions included many which were designed specifically for wartime use. Models depict a machine gun, aerial bombs which were designed to be fired more accurately than the stone missiles of his day, a rotating bridge which could be swung to one side, cutting off passageway for an enemy, a shrapnel projectile, a military tank and a hasty construction bridge.

A free booklet may be obtained in the exhibit room which gives a sketch of Leonardo's life and works along with some of his interesting drawings, photos of the scale models and a commentary on his work in other fields.

Public inspection is invited daily from 2 to 10 p.m.; on Saturday from 10 a.m. to 10 p.m., and on Sunday from 1 p.m. until 10 p.m.

The models come from the Fine Arts Department of International Business Machines Corporation and were constructed by Dr. Robert Guatelli, one of the world's foremost authorities on Leonardo.

Lenoir Lists Eating Hours During Summer

Manager George Prillaman yesterday announced the serving schedule for Lenoir Hall, student dining hall.

The hours: breakfast—7 a.m. to 11; lunch—11:30 a.m. until 2 p.m., and supper, 1 p.m. to 7:15. Breakfast hours are 7:30 to 11 on Saturday and 8 to 11 on Sunday. Other meal hours remain the same.

"We would like to remind students," Prillaman said, "that we give free seconds on coffee and tea."

The eating hall is a non-profit affair operated by the University. Costs of meals are based on overhead.

The Pine Room, downstairs in Lenoir Hall, also is now open to serve snacks to students. Manager Elbert Hardy also pointed out that he has some space available to rent to groups for small parties. In addition, there is dancing space open to all.

Serving hours in the Pine Room: 11 a.m. to 11 p.m. Monday through Friday; closed on Saturday, and open from 4 p.m. to 11 on Sunday.

A photo, preferably 8 x 10, must be submitted. The pictures will be

Leonardo's Genius Is Displayed In Model Show At Planetarium

By Tom Parramore

Sunday will be the last day for students to see Morehead Planetarium's exhibit, "Leonardo's Scientific Sketches."

The exhibit is being held under the sponsorship of Dr. Loren C. McKinney of the Department of History and consists of models made from Leonardo's original drawings which are now touring the museums and universities of the country.

Among the many interesting models is Da Vinci's proposed helicopter which was one of the first serious attempts at mechanical flight. In a day when the most powerful weapon of war was the catapult, Da Vinci designed and built a successful steam cannon which is also depicted among the models. There is a miniature of Leonardo's "Tent of Linen," or parachute, which is also reputed to have been used successfully.

Many of the exhibits are constructed to allow manual operation that one may get a better idea of the work they were designed to perform. Among such models are a printing press, a mechanical

scaling ladder, a hydraulic water pump, a device which made variable speed drive possible, a lens grinder and an odometer for recording the distance traveled by a vehicle.

Other models consist of complex arrangements of levers, wheels and pulleys. There is a circular pulley which made it possible for a man to lift tremendous weights with comparatively little effort, an excavation machine, a diving apparatus, a hydraulic saw and a ventilating apparatus.

Art Classes For Children

Summer art classes for children will be given here for the next five weeks by Leonard White and his wife Suzanne.

The sessions will be held at the Chapel Hill Recreation Center from 8:45 a.m. to 10:45 a.m. from Monday through Friday through July 17. Eligible are 4th, 5th, and 6th grade pupils, including those who have just finished the 3rd grade.

The fee for each pupil for the five-weeks course will be \$25, plus \$2.50 for materials. The class will be limited to 15.

A graduate of the University's art department, White has been an art teacher in the Danville, Va., public schools since the Fall of 1951. Mrs. White holds a degree in art education from L'Institut de l'Enfant Jesus in Brussels, Belgium. She conducts private art classes for children in Danville.

A barbecue supper will be given for both groups at 6:30.

A joint meeting tonight will be addressed by E. C. Brandon Jr.

Deadline Extended 'Til Monday For Watermelon Queen Entrants

With queen contestants lagging and the fruit ripening on the vine, the Watermelon Festival chairman yesterday made a plea.

"We want candidates," Chairman Dusty Lamson said. Lamson's agitation came about this way:

The Watermelon Festival is to be held next Friday afternoon under Davie Popular. Everybody gets all the melon they want, but the highlight of the day is the crowning of the festival queen. However, no contestants—no queen.

Lamson extended the entry deadline from today until Monday noon. He said he expected a large number of coeds to be entered today as dormitories did not have organizational meetings until last night. Any group may enter a contestant as long as it pays a \$3 entry fee and its candidate is in Summer School.

Serving hours in the Pine Room: 11 a.m. to 11 p.m. Monday through Friday; closed on Saturday, and open from 4 p.m. to 11 on Sunday.

A photo, preferably 8 x 10, must be submitted. The pictures will be

posted in the Y lobby and the campus will vote for its favorite via a penny a ballot. There is no limit on the voting, provided the voter pays for each ballot.

The top five candidates will be announced Friday morning and the runoff held that day, still voting by money. Proceeds will go toward defraying expenses of the festival.

The Watermelon Festival is an annual event and the top social affair of Summer School. This year's program will be emceed by Director of Admissions Roy Armstrong. Following the eating and crowning, a variety show will be held and after that the Rendezvous Room in Graham Memorial will be the scene of dancing.

Persons interested in helping on the festival are invited to a meeting of the committee this afternoon at 4 o'clock in the YMCA.

CAMPUS SEEN

Butterball student to portly Chemistry prof: "Would you please move so I can see the board?" Prof to student: "Certainly. I've been asked that many times, but never by one who knew so well."

Boys Staters making sweet harmony in Y Court in the morning.

Campus flagpole nude except for a paper sack dangling on the halyard.

NANCY MURRAY, who will sing at Sunday night's community sing, is shown in costume for her soprano role in "Princess Ida," Playmaker production.

Civil Service-Personnel Meet Opens Today, Over 100 Come

More than 100 members of local civil service commissions and persons interested in public personnel administration already have registered for the Joint School on Municipal Finance and Public Personnel Administration to be held at the University today and tomorrow.

Donald Hayman, assistant director of the Institute of Government, sponsoring organization, who will conduct the school, announced the advance registration figures yesterday.

Following registration from 12 to 2 p.m. today at the Institute of Government building, sessions will get underway in Manning Hall, home of the Law School, at 2 o'clock, with a program designed specifically for finance officers. J. A. McMahon, assistant director, Institute of Government, will take up such topics as budget preparation, amending the Appropriation Ordinance, budgetary control and safeguarding funds.

Panels also are scheduled on "What Are the Proper Functions of a Civil Service Commission?" and on "What Are the Proper Functions of a Personnel Department?"

A barbecue supper will be given for both groups at 6:30.

A joint meeting tonight will be addressed by E. C. Brandon Jr.

High Schools' Economic Ideas Are Keystone

By John Peck

"The level of our economy," said Edwin G. Nourse, nationally famous economist who spoke this week before the Workshop on Economic Education here, "will be determined by the level of economic understanding and economic attitudes instilled into the minds and hearts of that great majority population of our country who do not go beyond high school."

Speaking to the 70 teachers, supervisors and other school personnel attending the workshop from all sections of the state, Dr. Nourse, tall, scholarly authority on the nation's economic pattern, pointed to what he termed the "Five P's" of economic understanding—Problem, Process, Principles, Policy, and Program. It is not only possible but necessary, he stressed, in today's high schools to bring students the basic concepts of these five steps in economic literacy.

Problem, in the vernacular, he said, might be interpreted as "whatever it is that's eatin' you," or whatever raises a challenge in people's minds with which they must come to grips.

"Process, a direct function of the teacher, is a matter of analytical development of those phases of the social processes of which the young citizen will become a part, the instilling of sense, sequence and meaning into the problem as it stands before him.

"Principles, involving the moral concept, are those guideposts by which the economic pattern

is to be guided. Policy, the application of principles to specific situations, is the third step in economic understanding.

Refreshments will be served during the program.

"While square dancing is the major event, round dance music will be played between square dances," Ballenger continued. "Everyone should come to these informal get-togethers," he concluded. "It's fun."

SOUTH KOREA'S PRIME MINISTER Paik Too Chin is in Washington for talks with President Eisenhower about his country's decision to turn loose 25,000 prisoners yesterday. Korea's defiant action in freeing the PW's may wreck the nearly-completed truce talks.—NEA Telephoto.

Directories On Sale

Student directories containing the home towns and campus addresses of all 2,380 students in Summer School are now on sale in the Y lobby and at Graham Memorial for 15 cents each.

The directories are in mimeographed form and contain 35 pages. This is the earliest the directory ever has been published during a session.

Dr. W. H. Plemmons of the School of Education will preside Tuesday night when Dean Lindley J. Stiles, University of Virginia School of Education, will discuss secondary education.

Dr. Thelma Gwynn Thurstone of the School of Education, formerly director of special services for the City of Chicago school system, will speak on "Measurement in Education" Wednesday afternoon when Dr. W. D. Perry of UNC presides.

Stewart Harral, Director of Public Relations Studies, University of Oklahoma, will take as his topic, "Telling the Public About Its Schools" at the final session Wednesday night. Dr. A. S. Hurlbut, UNC, will preside.

All sessions will be held in Carroll Hall. Cobb Dormitory will serve as conference headquarters.
