

## Phi Literary Society Gives Membership To Co-Eds

Heated Debate Results In Most Radical Move Made In Recent Years.

### UPSETS OLD PRECEDENT

The Phi Assembly last night, after heated discussion, passed a resolution admitting co-eds into the Phi Assembly with full privileges of that institution.

The representatives speaking for the resolution were McDuffie, James, Wilkinson, Neely, Kelly and Campen. The opposition was composed of Representatives Hobgood, Brown, Baldwin, Haywood, Albright and Nazareno.

The main contention of those favoring the resolution was that the co-eds had been admitted to practically every other organization on the campus, and the Phi Assembly should not entertain any objections to their becoming members.

Those opposing the admission of co-eds to the assembly contended that they had not shown any desire to enter and they should not be granted the right. Nazareno in his speech said: "You class them your equals; you forget their place."

The Phi favored a resolution submitted by Representative Speight that the assembly should hold a dance in the near future in the assembly hall.

Senator J. C. Williams from the Di informed the assembly that the Bingham debate had been decided upon. The question to be discussed in this de-

## GLEE CLUB GOES ON SPRING TOUR

Itinerary Will Include Eastern North Carolina and Virginia. Thirty Boys On Trip.

The University Glee Club under the direction of H. S. Dyer leaves on its annual spring tour this morning.

The itinerary is as follows: Tonight the club will appear at Blair High School in Norfolk, Virginia; Thursday night, at Chowan College in Murfreesboro, N. C.; Friday night, at Griffin high school in New Bern; and Saturday night, at the Academy of Music in Wilmington. The group will return to Chapel Hill next Sunday, but included as a regular part of the tour will be a concert in the Mayflower Hotel, Washington, D. C. on the evening of April 30.

The program to be used by the club is as follows: Now Let Every Tongue Adore Thee, by Bach; With Heart Uplifted, by Schvedov; Ave Maria, by Arcadelt; The Long Day Closes, by Sullivan; Now is the Month of Maying, by Morley; Dreamworld, by Duparc; Chorus of Camel Drivers, by Franck; Sun and Moon, also Autumn, by Gretchaninov; Hymn of the Pilgrims, and Dance of Gnomes, by MacDowell; Bugle Song, by Foote; and A Sea Song, by Gaines.

In addition Nelson O. Kennedy, piano instructor will render two piano groups on each program.

Those making the trip are as follows: First Tenors, Charles Aiken, C. C. Duffy, S. A. Lynch, Jr., E. L. Swain, W. T. Whitsett, George Winston, W. C. Petty,

### To Sell Invitations

Because of many requests for another period in which orders for senior commencement invitations may be given, the committee in charge of taking these orders has decided that it will accept orders today and tomorrow.

The committee states that this is positively the last time that invitation orders can be given, and that anyone wanting them must place his order during these two days.

There will be someone in both Patterson's and Sutton's from 1:30 to 9 o'clock on these days, and anyone wishing to place orders should do so between these hours.

## DI PREPARES FOR BINGHAM DEBATE

Senators To Hold Banquet In May; Proposal For Dance Is Defeated.

At the regular meeting of the Dialectic Senate, in the Di hall last night, an enthusiastic group of senators were parties to a number of important legislative transactions.

In regard to the Bingham debate, an annual affair which is sponsored by both the Di and Phi, the senate voted to accept the following query: "Resolved, That the government of the United States should recognize the Soviet Union." The senate also agreed to take the negative side of the question. Participation in this debate is limited to members of the junior class only. Teams representing both societies will immediately be chosen.

Unanimous approval greeted Senator Dungan's motion that a committee be appointed to draw up plans for a banquet to be given at the Carolina Inn during the third week of May, that the Phi Assembly be urged to take part, and that the Honorable Josephus Daniels be invited to deliver an address upon this occasion. Senators Dratler, Dungan and Patterson were appointed to serve on this committee.

Following two amendments, the report of the improvement committee was accepted by the senate. This report included the following rule, which is now in effect: "Upon the event of two unexcused absences from Di meetings during a single quarter, the offending senator will be automatically dropped from the senate and barred from all social activities engaged in by the senate."

A motion proposed by President Rector, that in the future the vote of the senate be taken by counties, was accepted.

It was announced by President Rector that only one more initiation meeting will be held this quarter, at which time all new men will be admitted.

### Greene Speaks Monday

Dean Bradshaw announced yesterday at chapel period that "Red" Greene, incoming president of the student body, had requested that the installation of student body officers for next year be postponed until next Monday.

## OIL INSTITUTE WILL SPONSOR PROJECT HERE NEXT YEAR

Chemistry Department Announces Award of Two New Fellowships By American Petroleum Institute.

Professor R. W. Bost has recently received word from the American Petroleum Institute that two new research fellowships will be sponsored by the Institute here next year. The Institute already has one fellowship in chemistry here, Mr. Miller Conn being the holder.

At present the national research council has 42 research projects in as many universities in the United States and abroad. The project at the University of North Carolina is listed as project No. 41.

The acquisition of these research fellowships places the department of chemistry at Carolina along beside that of other larger universities in this country. At present the University of North Carolina and the University of Texas are the only southern universities that have been honored with these fellowships. Some of the larger universities which have received fellowships are Johns Hopkins, Harvard, Princeton, Northwestern, Illinois, Minnesota, Michigan, California, Leland Stanford, Missouri, Penn. State, the University of Brussels in Belgium, and Charles University in Czechoslovakia.

The fellowships entitle the holder to take graduate work and to devote his whole time to research work. Eleven months each year are to be devoted to the work and one month to vacation.

In project No. 41 the "Thiophanes" are being studied. These are organic sulphur compounds which occur in petroleum and the reactions of which very little is known. A number of these compounds have been prepared in the chemistry laboratory here by Dr. Bost and Mr. Conn, and their properties are being studied at present.

The new fellowship will take up the study of the substituted "Thiophanes" and the substituted "Thiophenes." As the properties are unknown, the preparation of these compounds is very laborious and time consuming. Under the present grant, however, several part-time men will be employed during the coming summer to assist in the preparation of the sulphur compounds. This will make it possible to obtain earlier results.

### Y's To Meet

Eight Carolina Men To Attend State Conference.

The State Y. M. and Y. W. C. A. student officers conference will be held at Guilford College from Saturday, April 26 until Monday, April 28. This meeting is an annual event, and is held at some college in the state. There will be eighty members present at this meeting, 30 boys and 50 girls.

This University will have eight representatives this year. They are Jimmie Williams, Ed Hamer, John Lang, Sam Gorham, Joe Eagles, Harry Finch, F. M. James, and Grady Leonard. They will leave the University Saturday and return Monday.

## UNIVERSITY PROFS TO READ PAPERS AT PHYSICS MEET

Stuhlman, Whitaker, Braune and Hart, Authors of Science Papers To Be Presented at American Physical Meeting.

The physics department of the University will be represented at the spring meeting of the American Physical Society to be held in Washington April 24-26 by two papers presenting the results of research work conducted in the department during the past three years. Dr. Otto Stuhlman, who will attend this meeting as representative of the physics department, will also attend a call meeting of the National Research Council, of which he is a member, and a meeting of the National Academy of Science.

The first of the two papers from the University to be read is upon the subject of "High Frequency Electrodeless Discharge Characteristics." Its authors are Dr. Stuhlman, M. D. Whitaker, candidate for a master's degree, and M. L. Braune, candidate for a doctor's degree. The second is upon "Relative Intensities of Arc and Spark Lines of the Electrodeless Discharge in Mercury Vapor." It is a report by Dr. Stuhlman and O. P. Hart, candidate for a doctor's degree. Both of these reports are results of three years' work of Messrs. Whitaker, Braune and Hart, conducted by the physics department, and will be read together with 106 other such papers, representing work in all parts of the country.

### New Council Has Executive Meeting

The new student council met in its first regular executive meeting last night. President Red Greene presided. Bob Graham, senior, was elected from the old council to serve on the new council for the coming term. Graham will be back next year to enter the law school. At a previous unofficial meeting Mayne Albright, senior representative, was elected secretary.

The present membership of the council is: Red Greene, president; Mayne Albright, senior representative, secretary; Scott Benton, representative from the law school; L. G. Barefoot, representative from the pharmacy school; Bob Graham, representative from the old council; Bill Uzzell, junior representative; and Harper Barnes, sophomore representative. The representative from the medical school will be elected this week, and the council will be officially installed Monday morning in chapel, along with the other new officers.

### Lear Is Appointed

At the meeting of the state board of registration for engineers and land surveyors, held in Greensboro last Monday, John E. Lear, of the engineering school, was appointed vice-chairman of the board.

Mr. Lear, who is the acting head of the electrical engineering department, will fill the place on this board left vacant by P. H. Daggett, who has gone to Rutgers. This board grants licenses to all engineers and surveyors in the state.

## Tau Beta Phi Taps Seven For Membership In Group

### Next Grail Dance

The second Grail dance of the month was announced yesterday for April 26, and is to be given in honor of the thirteen new members of the Order of the Grail. According to the dance committee, this will be the outstanding Grail of the year, since there are two other dances and several houseparties scheduled for the same week-end. Alex Mendenhall and his orchestra will play for the affair.

## CHAPEL HILL TO HAVE MUSIC WEEK

Band, Glee Club, and Cincinnatti Chamber Orchestra To Give Concerts Week of May 4.

The following plans have been made for Chapel Hill's participation in national music week which begins Sunday, May 4.

On the first day special music services will be held in all the churches of the community, and on Monday the University band will give a concert under the Davie Poplar. On Tuesday and Wednesday, May 6 and 7, the Rogue Song starring Lawrence Tibbett of the Metropolitan Opera company will be shown at the Carolina Theatre. Thursday the glee club will give a concert in the Methodist church while a music department student recital will be held in the same place on Friday. The week will close Saturday night with the appearance of the Cincinnatti Chamber Orchestra, a part of the regular student entertainment course.

Throughout the week music will be stressed in the community schools.

The committee making possible the elaborate week's program, has for its honorary chairman, Zeb Council, mayor of Chapel Hill. Serving as co-chairman are Mrs. T. S. McCorkle and H. S. Dyer. Their assistants on the committee are: E. C. Smith, manager of the Carolina Theatre; C. A. Hoyle, superintendent of schools; E. A. Abernethy, president of the local Rotary club; R. M. Grumman, president of the Kiwanis club; T. S. McCorkle and N. O. Kennedy of the University music faculty; Mesdames W. F. Prouty, F. B. McCall, J. M. Valentine, and A. S. Wheeler, all representing the music department of the community club, and the following ministers: Drs. Moss, Howard, Lawrence, Rozzelle and Olive.

### ECONOMICS DEPARTMENT ENTERTAINS VISITORS

James P. Warbasse, distinguished ex-surgeon, visited the commerce school last week. He lectured to some of the classes in economics Thursday and Friday. Dr. Warbasse is now devoting his time to the consumers cooperative movement.

Dr. W. Collins of the Groves City College, Pennsylvania, is at present visiting the economics and commerce departments.

Sigma Phi Sigma announces the pledging of John McCullen Warren, Durham, and Ronald Kochendorfer, Richmond Hill, L. I., N. Y.

Merritt, Pittana, Hayes, Thompson, Parsley, Quinn, and Bryan Are Honored In Ceremony.

### DEAN BRAUNE SPEAKS

With its solemn and very impressive ceremony, Tau Beta Pi, national engineering scholastic fraternity, last night tapped seven outstanding men in the school of engineering for membership in this organization which recognizes superior character development and unusual scholastic ability.

The men honored by the fraternity last night are: W. D. Merritt, instructor in engineering, John B. Pittana, a senior transferred to the University in 1928 from the University of Sicily, Italy, and C. P. Hayes, George Thompson, Aubrey Parsley, G. J. Quinn, and Norman L. Bryan, all juniors in the school of engineering.

In an address before the tapping ceremony, G. M. Braune, dean of the school of engineering and a member of the fraternity, briefly outlined the history of Tau Beta Pi since its organization at Lehigh in 1885 and discussed the importance of the group and the meaning that Tau Beta Pi has for the engineering graduate who has been a member.

At the ceremony last night only four of the men selected were tapped; telegrams notifying them of their election were sent to Parsley, Quinn, and

## MISSING CAROLINA STUDENT LOCATED

Bill Pemberton Returns Home After Two Months Of Wandering.

One of the mysteries arising from the recent disappearance of two students from the University was explained yesterday by a report received from the parents of Bill Pemberton of Greensboro that Bill, who disappeared from the campus over two months ago, had returned home.

Mr. T. Pemberton, who was here recently in search of the missing boy, is now happy in the return of his son, while the mother of M. P. Moorer, whose more sensational disappearance occurred in March, is yet unaware of the whereabouts of the other Carolina student, whose abrupt departure caused a nationwide search.

From all appearances young Pemberton has returned home after nothing more than an extended period of wandering. Penn Harrison, of Chapel Hill, and former student at the University, has stated that on a recent trip north he saw him in Philadelphia. It is understood that New York, which held much interest for the lad, figured prominently in his wanderings. The manner of his travel is not known, but it is a matter of record that he returned penniless, and by no means proud of his adventures.

Although Pemberton did not leave Chapel Hill until February he was not registered in school last quarter. He has already begun work for his father, and will, of course, not return to school this year. He will probably register here again next fall.
