

NOTED PHYSICIST TO LECTURE AT DUKE UNIVERSITY

Dr. R. A. Millikan Won Nobel Prize in Physics in 1923.

Dr. Robert Andrews Millikan, president of the California Institute of Technology and director of the Norman Bridge Laboratory of Physics, will lecture on "New Knowledge of the Universe About Us" in the Page Auditorium of the new Duke campus Monday, December fifteenth, at eight P. M. Dr. Millikan consented to speak at the request of the scientific societies of Duke University. The address is open to the public.

Dr. Millikan for many years has been making researches on electrical phenomena and molecular theories connected with light rays. Of his contributions to science there are three of major importance. The first is the isolation of the electron and an accurate determination of its properties. The second is his accurate determination of the quantum of energy. The third and perhaps the most important is his work concerning cosmic rays from interstellar bodies. He has just returned from a trip to the magnetic north pole, where he studied the intensity of these rays. Dr. Millikan has also carried his work to South America where he conducted researches in the Andes. The cosmic rays are sometimes called Millikan rays because he has done so much to increase the knowledge of them.

Among the honors that Dr. Millikan has won by his researches is the Nobel Prize in Physics in 1923 from the Royal Swedish Academy as a result of his success in connection with the discoveries concerning electrons and their properties.

The Crowell Scientific Society of Duke University and the Sigma Pi Sigma, honorary Physics fraternity there, are responsible for obtaining the speaker.

COMMUNITY CLUB MEETS TO HEAR THREE LECTURES

Home, Garden, and Music Departments Stage Monthly Meetings This Week.

Departmental meetings of the Community Club have taken place this week.

The home department under the direction of Mrs. Ralph Trimble met in the social room of the Methodist Church Tuesday, December 9 at three-thirty o'clock. R. G. Barrett spoke on "Decorating the Living Room and Bed Rooms."

The garden club met Wednesday evening, December 10 at eight o'clock in Davie Hall. Miss Josephine Pritchard was in charge of the program and talked on "Window Gardens." The club will meet again on the evening of the second Wednesday in January.

The music department met in the choral room of the music building, Wednesday evening at eight-thirty o'clock. Dr. Guy B. Johnson of the Institute for Research in Social Science talked on "Negro Folk Music in the United States."

Johnson traced the growth of the music of the American negro and discussed the various types of negro songs. He also

Meeting of Second Year Class Called

President-elect Graham of the University, "Stud" Henry, president of the sophomore class, and "Red" Greene, president of the student union, have requested that all sophomores be present in Gerrard hall at chapel period this morning. On previous mornings this week, both the junior and senior classes have met with Graham, Greene and the presidents of their respective classes.

BAND IS SPONSOR OF SUNDAY SHOW

Performance of "Love Parade" And a Musical Program Will Be Given at Theatre.

The Carolina Theater will present a special showing of "Love Parade" Sunday afternoon in connection with a concert by the University band. There will be no charge for admission, but those attending will have the opportunity to make a contribution at the door. The entire proceeds will go to the band.

The performance will begin with a short program by the band at two-thirty which will be followed by the picture, "Love Parade," starring Jeanette MacDonald and Maurice Chevalier.

E. Carrington Smith, manager of the theatre, plans to have the first four rows of seats removed and special lights installed for the concert.

The University symphonic band is different from the athletic band. The former plays only the best of music, and past experiences have proved that it tunes down like an orchestra, the volume never being offensive even in the smallest of buildings. The theater with its special acoustical qualities for the sound pictures, is said to make a splendid concert hall.

Although the band has made it a point not to charge admission for Chapel Hill programs, there are certain expenses necessary to the existence of the organization for which funds must be raised by the band, since the University is not in a position to subsidize it.

Chief among these expenses is the purchase of awards for men who have given three years of service. In addition to this, the band arranges one or two concert tours each year, on which it plays mainly before high school groups to encourage new talent to come to the University. Sometimes, because of bad weather, unusual competition, or like difficulties, these trips result in a slight deficit. To meet just such a contingency the manager of the Carolina Theater donated two Sunday performances last year. Although the contributions were rather small in some cases, the venture proved a great help.

DUNN IS REGIONAL GUEST OF SCHOLARSHIP GROUP

Clyde Dunn, editor of the *Yackety Yack*, who has been in Atlanta for the last two days as the guest of the regional Rhodes scholarship committee which is meeting there to pick men to attend Oxford University in the fall of 1932 is expected back on the campus to-day. The other representative from North Carolina was Dean Rusk of Davidson College.

The Late Major William Cain

This is a photographic portrait of the late Major William Cain, professor-emeritus of the University, who died Saturday night as the result of injuries received when he was run down by an automobile that afternoon.

"Dixie" Makes Last Curtain Call After Years Of Faithful Service

"Dixie," the only quadruped Ph.D in the University, and a member of the Actor's Equity Association of America, the Carolina Playmakers, and the Carolina Dramatic Association, silently passed to her reward Monday night, following a fatal ride on a running board, from which she was thrown into the path of an on-rushing machine. Fifteen minutes before her sudden demise, "Dixie" made what chanced to be her final curtain-bow in the Playmakers Theatre, where, taking her customary place of prominence upon the stage, she conveyed to a sympathetic audience by her frank, delicate attitude, her usual boredom with the amateur actors and playwrights. "Dixie" was often referred to as "the best critic and actor that ever crossed the Playmakers' stage."

Eight years ago the lady-terrior won the admiration of Frederick H. Koch, Jr., by way of

helping him deliver the morning papers to Chapel Hill's subscribers. Young Freddie, then seven years old, was so much attached to the snowy pup that he pled with the owner for a transference of custody. At a cost of \$2.50 "Dixie" became an adopted member of the Koch family. It was not long before she neglected her young master and devoted her attention to Professor Koch. With this affiliation her normal inclination drifted to the theatre and an interest in dramatics. In the Playmakers Theatre, in the classes of Shakespeare and playwriting, in the seminar rooms and at important conferences, she would sit, a silent, solitary figure, passively bored with the systemized actions of human beings.

"Dixie" had sat through so many examinations of candidates for the Ph. D. that one

Stene Will Paint Portrait of Logan

William Steene, the local artist who has contributed generously of his time and talent to the proposed organization of an art department in the University, is to go to Chicago early in January to paint the portrait of Frank G. Logan, Chicago millionaire and philanthropist.

Logan is the creator of the Logan Perpetual Award which has granted a long series of prizes in the field of art. The Chicagoan has long been an active enthusiast and patron of art. For more than twenty years he has been a trustee of the Chicago Art Institute, having just completed a renewed term as vice-president. The board of governors of the Grand Central Arts Galleries of New York City named Steene for the task.

Steene's selection is indicative of his growing reputation, inasmuch as his activities in the portrait field have thus far been limited to the South and East.

Wigue and Masque Plans Winter Revue

The initiation of two men and the discussion of plans for a review comprised the second meeting of the quarter of Wigue and Masque, University dramatic organization, Tuesday night in the music building.

Theron Brown and Francis Jacocks were taken into the club with due ceremonies.

Wex Malone presided over the meeting and plans for a revue, scheduled to take place during the winter quarter, were discussed. This revue will be the first given by the organization in two years as plans for last winter's revue were abandoned when Memorial hall was torn down and no other adequate auditorium was available.

Infirmiry List

Joe Kelso, N. A. Bridgers, T. S. Jenrette, E. L. Peterson, and Coach Chuck Collins were confined to the infirmary yesterday.

Math Students

All students of the school of education majoring or minoring in mathematics are requested to see Professor C. E. McIntosh if they are interested in a class in mathematics 6 for the winter quarter.

ALDERMEN REGRET BRAUNE'S PASSING

Board Passes Resolution in Memory of Esteemed Fellow Member's Death.

At the monthly meeting of the Chapel Hill board of aldermen Wednesday evening a resolution to the following effect was unanimously passed by the board:

"IN MEMORIAM
GUSTAVE MAURICE
BRAUNE
1872-1930

"The aldermen of the town of Chapel Hill having learned with deep regret of the untimely death, November 26, 1930, of their colleague, Gustave Maurice Braune, a member of this board from 1922 to 1930, hereby order that the following expression of their sense of loss sustained by this community be entered upon their minutes:

"By the death of Gustave M. Braune the Town of Chapel Hill has lost a good citizen, the governing body of the town, a valuable member, and we, his colleagues, a loyal friend.

"As a citizen, he always manifested a keen, intelligent, and unselfish interest in the welfare of this community and to his interest many of the improvements made during the past decade may be directly traced.

"As a public official he was faithful to his duties, wise in counsel, prompt to accept responsibility, and ever ready to place at the service of the town the fruits of his wide professional experience and his expert knowledge of problems vitally affecting the interests of the municipality.

"As a friend and colleague, he was gentle, patient, forbearing, helpful, and staunch and loyal in good and adverse fortune."

There was little else discussed at the meeting except that the board voted to have sixteen sugar maple trees planted along Franklin street, and to have a community Christmas tree placed in front of the Methodist church. The tree was not placed on the University campus as last year because it was found that it could not be seen from the road and some people neglected to attend the distribution of the gifts. Small cedar trees were placed along Franklin street yesterday at the order of the board of Aldermen and the unemployment committee.

Filling Station Nearly Completed

If the gasoline tanks arrive in time, the new Texaco gas station at the corner of Franklin and Columbia streets will be officially opened Saturday, December 20.

The station is now practically complete except for the tanks. The fence around the station, which is soon to be painted white, is now being painted and shrubs and trees are being planted in the ground surrounding the corner. Sugar maple trees, Burkman's globe, and Japanese arbor vitae are to be planted.

FUTURE OF PARTY TO BE DISCUSSED AT POLITY FORUM

Professor B. B. Kendrick Will Talk Briefly in Gerrard Hall This Evening.

The polity forum meets tonight in Gerrard at seven p. m. in its second meeting of this quarter to hear Professor B. B. Kendrick, of N. C. C. W., who is to make a short talk on "The Future of the Democratic Party."

Professor Kendrick is a nationally known authority on government questions, having written several articles and books on the subject. He has also taught in numerous universities and colleges in the country including Columbia University.

It is the plan of the forum that no resolutions be passed in the meeting influencing students to vote for one particular party, but instead the president of the group hopes to stimulate independent thought and discussions on political issues and candidates.

At the meeting tonight a resolution to encourage students of the country to think politically and begin to take an interest in affairs of politics will be discussed. This question is to be brought up at the meeting of the N. S. F. A. which convenes in Atlanta sometime in the near future.

President Jack Dungan states that the forum is a flexibly organized group, membership in which is based on interest shown in political and foreign relation questions. He said further that any persons in the student union, faculty, or citizens of Chapel Hill, who might be interested in hearing Professor Kendrick's talk tonight will be privileged to attend the meeting in Gerrard hall at seven p. m.

Members in the polity forum are required to pay no dues or fees of any sort. This meeting tonight concludes the program of the group for this quarter, but it is the plan to start immediately after the Christmas holidays.

GRUMMAN ISSUES BULLETIN ABOUT EXTENSION WORK

Division Has Registered Total of 22,692 Students in Nine Years of Service.

The latest bulletin of the University extension division has recently been issued by R. M. Grumman, director of the division. The bulletin is an explanation of the work of this department, its organization, function, objective, and of the classes themselves. A list of the rules governing correspondence instruction is also given.

By means of correspondence instruction, extension classes located in all parts of the state, radio lectures, extension library service, reading courses, community dramatics, interscholastic activities, and a variety of publications, the University, through the extension division, is relating itself with the life of the State.

At the present time the division is organized and prepared to make available to the people of the state a great many of the educational offerings now enjoyed by students residing in
