

FRESHMEN WILL VISIT FRATERNITY HOUSES BY CARD

Fraternities Must Send Invitations to Interfraternity Council Head Before Tonight.

In an announcement in regard to the current rushing season, the president of the Interfraternity Council, John P. Cooper, declared that all violations of the rushing rules, whether by freshmen or fraternity men, would be punished by the full power of the council and that these regulations are to be rigidly enforced.

In connection with the rushing system in effect at this University, which is one of the most nearly perfect and complete in the country, according to Cooper, he remarked that its success depended entirely upon the cooperation accorded it by the fraternity men and the freshmen. Without this wholehearted backing of the system by all concerned there can be no success whatsoever in this fall's rushing.

Cooperation Needed

The regulations as laid down by the Interfraternity Council should be observed not by a police method of enforcement but by a genuine spirit of cooperation.

No fraternity will be allowed to receive any invitations for prospective freshmen until the one hundred dollar bond has

(Continued on last page)

GRAIL DANCES TO BEGIN SATURDAY

The first Grail dance of the quarter will be staged next Saturday night in the gymnasium from 9:00 to 12:00 with Billy Stringfellow and his Carolina Club orchestra furnishing the music.

Tickets will go on sale at Pritchard-Lloyd drug store and Book Exchange Friday morning at the usual price of one dollar. The remaining tickets are to be sold at the gymnasium on Saturday night beginning at 8:30. As has been the former custom, if the limited number of stag tickets has been sold before the dance starts, no boy will be admitted on the floor except with a date.

No freshmen will be admitted to the dance, and as usual, the German club rule will also be in effect.

ROTARY GROUPS TO GATHER HERE

More than 200 Rotarians, representing clubs in eight towns, are to gather in Chapel Hill on Thursday night, October 1, for an Inter-City Rotary meeting, at the Carolina Inn, with the Chapel Hill club as host, Rev. C. Excell Rozzelle, president of the Chapel Hill Rotary Club, has announced.

Serving with Reverend Rozzelle on the committee on arrangements are Henry London, of Raleigh, and Ben Lassiter, of Oxford.

The clubs to be represented are in Clayton, Raleigh, Durham, Henderson, Oxford, Roxboro, Sanford, and Chapel Hill.

The principal speakers will include Tod Johnson, of Raleigh, governor for this district, and President Frank Graham of the University. There will be other brief talks on club, vocational, community, and international service.

Mayne Albright

Albright, president of the student union, is also head of the student council which will have a new office in the Graham Memorial building.

HILL IS DONOR OF NEW MUSIC HALL AND PIPE ORGAN

Auditorium Named for Prominent Alumnus Who Remained Anonymous for Year.

The donor of the new auditorium and organ in the music building remained a secret until this summer, when, at the meeting of the regents of the University, a resolution was entered to honor the giver of the auditorium and organ by naming the music building after him. Permission was granted, and the music building was named the Hill music hall, in honor of the giver of the auditorium and organ, Mr. John Sprunt Hill, of Durham, who graduated from the University in 1889, with the degree of Th.B.

Carolina Alumnus

Mr. Hill is a native of Duplin county and married the daughter of the late George W. Watts. He attended Columbia university, after receiving his degree at Carolina, and at Columbia received the degree of LL.B. For a while, he practiced law in New York City, to return later to Durham, where he has since lived.

In Durham, he is prominent in banking, manufacturing, and civic affairs. Until recently, he was chairman of the first state highway commission, to which position he was appointed by Governor Morrison in 1921. He served as chairman until this year.

Mr. Hill has been a member of the board of trustees of the University for many years.

Among his other endowments, is the North Carolina Collection Library. He and Mrs. Hill have also contributed several organs to various churches throughout the state.

Students May Get Tickets At Y Today

Students desiring to exchange their athletic coupons for tickets to the Carolina-Wake Forest football game may do so in the Y. M. C. A. lobby beginning at chapel period today. The men in charge of issuing the tickets will be in the lobby from 10:30 until 11:00 and from 2:00 until 5:30 today, Thursday, and Friday.

Bo Shepard warns students that the pass books must be presented with their tickets at the gate to be admitted, and that no student will be allowed to enter without his pass book.

Men who have lost their coupon books should report the loss to Obie Davis or Paul Edwards, who will be in charge of the distribution in the "Y".

Dr. L. R. Wilson Gives Impressions Of English Library Conference

University Librarian Believes Americans Are Better Organizers But Far Behind Their European Neighbors in Scholastic Attainments.

Chosen with Dr. W. W. Bishop, head librarian of the University of Michigan, to represent the American Library Association, Dr. L. R. Wilson, University librarian, delivered an address on American library science before the annual conference of the British Library Association at Chittendale, England. Dr. Wilson left America, August 8, in order to have time to tour Ireland and parts of England previous to a two-day committee meeting of the International Federation of Library Associations, August 29. Drs. Wilson and Bishop were the only official American representatives at the British conference, which lasted from August 31 to September 5. The delegates returned to America, September 15.

Speaks at Conference

Dr. Wilson's address, which was titled "The Aspects of Education for Librarianship in America," dealt chiefly with the development of librarianship in this country, and its future possibilities. The librarian summarized the evolution of library training since the founding of the American Library Association in 1876 to 1919, then reviewed the period of study and planning from that year to 1924. Pointing out some of the important developments in the field since 1924, Dr. Wilson asserted that there are significant trends in librarianship at present.

Freshmen To Meet With Deans Today

Instead of the regular assembly in Memorial hall this morning, the members of the freshman class are asked to meet with the deans of their respective schools at the places listed below.

Commerce freshmen will meet with Dean Carroll in 103 Bingham; A. B. freshmen with Dean Hobbs in Gerrard hall; education freshmen in 201 Peabody with McIntosh, and those in the school of applied science with Dean Bell in 206 Venable.

The next regular assembly will be Thursday morning at the usual time with the Y. M. C. A. in charge of the program. The self-help plan of the association is to be explained at this time by Ed Lanier, self-help secretary. Friday morning John Phil Cooper, president of the inter-fraternity council, is scheduled to explain rushing regulations, and it is especially urgent that fraternity members as well as new men be present.

All freshmen and sophomores who have not received their assembly seat assignment may secure same by calling at 204 South between the hours of 2:00 and 4:30 today.

Free Picture Tonight

The chemistry department will continue its last year's policy of presenting free motion pictures on subjects in connection with the chemical world. Tonight the first of these pictures will be presented in room 206 Venable hall at 7:30 o'clock. The title of the presentation this week is "Ocean Transportation," a cinema in five reels. All students who are interested in attending are invited to do so.

In addition to attending the British conference Dr. Wilson represented America at a committee meeting of the International Federation of Library Associations, which was likewise attended by representatives of the principal nations. Several days were pleasantly spent touring leading English cities and Ireland.

American vs. European

"It is an impressive fact," said Dr. Wilson of the convention, "that the British librarian knows his parliamentary procedure and debate in the administration of convention affairs better than the American. He's a better speaker both in diction and presentation." Further commenting on the British librarian, Dr. Wilson continued: "While the British library lacks the organization for making available the material, their scholarly ability in handling materials is impressive. We're better organizers; they're better scholars."

Speaking of the languages used at the international committee meeting, Dr. Wilson says, "As a result of sitting in the conference of the International Federation of Library Associations I was impressed with the value of the mastery of languages on the part of the French and German delegates, while American students of language simply play with it."

Wilson To Confer On Consolidation

Dr. L. R. Wilson, University librarian, leaves for Raleigh Monday to consult with the committee of Governor Gardner's committee of twelve investigators into the organization for the consolidated "greater University," of which he is an elected member. Dr. Wilson will meet Dr. E. C. Brooks, president of State, Dr. Benjamin B. Kendrick, professor of history at N. C. C. W., and Dr. F. L. Jackson, treasurer of Davidson college, in order to discuss appointments of experts in consolidation organization.

The work of the experts, says Dr. Wilson, is expected to solve the problems of consolidated administration, forming a unified program that will eliminate duplication of courses, and avoid the demoralizing effects of rivalry.

Dr. Wilson was in Washington July 18 with Dr. Fred Morrison, secretary of the general committee, consulting government authorities.

Pep Meeting

There will be a pep meeting exclusively for freshmen tonight at eight o'clock in Memorial hall. The meeting will be under the supervision of freshmen cheerleaders, and no upper classmen will be allowed.

Cosmopolitan Club

Epsilon Phi Delta Cosmopolitan club will meet for the first time this year tomorrow evening at 9:00 o'clock in the committee room on the second floor of Graham Memorial building. All members of the organization are asked to be present.

Ed Hamer

Hamer, former president of the Y. M. C. A., is now assisting the Y as freshman secretary and is to aid in forming the Freshman Friendship Council.

GALLI-CURCI TO SING IN CONCERT ON JANUARY 27

Four Varied Programs Have Been Scheduled as Part of Entertainment Series.

With four entertainments already arranged by the student entertainment committee and a fifth scheduled later, the first student entertainment performance will be conducted October 30.

The year's entertainments and the dates of their appearance are as follows: "The Beggar's Opera," October 30; Don Cosacks and his Russian Singers, November 18; Ted Shawn and His Dancers, January 7; Abbey Irish Players, March 21; and a lecture or performance in April.

"The Beggar's Opera"

The first of these, the old classic, "The Beggar's Opera," is being presented by The Beggar's Opera Company, an organization of English actors on their sixth American tour. They have performed before the student bodies of several universities as well as in many large cities, and are enjoying a wide reputation.

These entertainments will be given in Memorial hall. Another performance of note to take place in Memorial hall this year is that of Galli-Curci, famed Italian soprano, on January 27. This entertainment is being sponsored by the music department.

Tickets Issued

All students in the college of liberal arts, the commerce school, and the school of education may obtain their tickets for the student entertainment series at the business office in the near future. Announcement will be made later when these tickets are to be issued.

McChesney Is Added To Medical Faculty

The enrollment in the school of medicine this year is about average, there being thirty-six students in the first-year class and thirty-seven in the second year class. Five of last year's first year medical students failed to return. All of last year's second year students have transferred to other schools to finish their medical courses.

Another professor has been added to the medical faculty to take the place of F. B. Brooks, who went to the University of Michigan for two years as research assistant to work on problems concerning pernicious anaemia. The new professor is E. W. McChesney, Ph.D., formerly Northwestern university. He will act associate professor of physiology.

BELL-RINGERS TO OPERATE TOWER SOUGHT BY DYER

Donors of Memorial Carillon Desire Chapter of International Guild of Bell-Ringers.

After the Morehead-Patterson memorial bell tower is dedicated at Thanksgiving, it is planned that a regular schedule of ringing will go into effect, provided that a corp of bellringers can be organized. It is the desire of John Motley Morehead, '91, one of the donors of the tower, that a chapter of the International Guild of Bell-ringers be established at the University.

Chester Meneely, designer and builder of the bells, will be in Chapel Hill to train men in the ringing of the bells. Mr. Meneely is himself an internationally known bell-ringer.

Two men will be required to ring the bells. Several students, who have had experience in this line, have already applied for the positions. Applications should be filed with Dr. Harold S. Dyer, of the music department. It is planned, tentatively, that short concerts on the bells will be given in the morning, during the noon recess, and a vesper concert at twilight.

It is the wish of the donors that the bells should not be rung until the day of dedication. It is possible that the bells will be muffled for practice.

GEOLOGY MEN DO RESEARCH WORK

Various members of the geology department of the University spent a great deal of their time during the summer vacation engaged in research work.

Cobb in Paris

Professor Collier Cobb, head of the geology department, has continued his studies on the loess deposits of the Mississippi Valley. At the present time Professor Cobb is in Paris where he went to deliver a paper on the loess deposits of the United States before the International Geographical Congress.

Professor W. F. Prouty spent the early part of the summer in the study of geological structures in relation to marble quarrying. During the latter part of the summer he has continued his geological study and mapping of the Triassic deposits in the central portion of the Deep River area, North Carolina.

Dr. G. R. MacCarthy taught the geology and geography courses on the two months transcontinental study tour given by the extension division of the University. Dr. MacCarthy has continued his studies on the Atlantic Coast beach sands.

With Bureau of Mines

Dr. Joel H. Swartz has accepted a position with the Bureau of Mines in the geophysical division. He retains his connection with the department of geology of the University as research professor of geophysics. He will give graduate courses in geophysics; the Bureau of Mines will furnish, free of charge, the geophysical instruments necessary for such work.

Dr. John G. Douglas has come to the geology department as an associate professor. For the past few years Dr. Douglas has been doing practical geological work for oil companies in Venezuela.

Mr. J. C. Bynum is with the
