

**LIBRARIANS OPEN MEET IN DURHAM**

The North Carolina library association convened last night in its seventeenth annual session at Duke university, for the interchanging of experiences in their separate fields. Dr. W. P. Few, of Duke, welcomed the association guests to the Duke campus in the first assemblage. Dr. L. R. Wilson, president of the association, addressed the group Thursday night. The highlight of the program today will be the speech by Carl L. Milam, secretary of the American association.

The University will be well-represented at the sessions, as the full-time members of the library staff have arranged their schedules to enable them to attend. The school of library science was given a holiday in order to permit attendance.

President Wilson was unable to attend the opening of the assemblage; therefore, the first sessions were presided over by Mrs. Nell G. Battle, librarian of the Braswell memorial library of Rocky Mount.

**With Contemporaries**

(Continued from page two)

farther with this scheme, he would run headlong not only into the stiffest opposition. *The Daily Cardinal* can offer to anything which thus stifles student thought, but against Wisconsin's current of liberal and enlightened education which has been vigorously flowing for 80 years, never refusing audience to ideas, and proving, year by year, that freedom in discussion and thought produces no harm, but rich maturity of viewpoint.

He and his club would be bucking the United States government which protects the right of people to assemble and discuss. He would charge head on against our standards of justice in education—standards which have protected the state from dogmatic tyranny ever since the brilliance of Voltaire illuminated the mind of gullible Europe.

We are not standing up for socialism or communism as solutions to government, but we are defending fair play for them. That is something which we shall always protect. We defend it because we believe freedom of thought and discussion rounds out our education in its necessary ratio.

We advise Mr. Chapple to forget it. He is running counter to Wisconsin spirit, to the constitution, and to justice. And he will not get to first base with the students.—*Wisconsin Cardinal*.

**SPANISH CLUB WILL DISCUSS CATALONIA**

At the meeting of the Spanish club tonight on the second floor of Graham memorial at 7:30, several interesting talks, having Catalonia as the central topic, will be given.

Ervin Jaffe will present the first talk, the subject being "The Historical and Linguistic Background of Catalonia." J. C. Johnson will speak on "Catalonian Literature," O. T. Slade on "Present Day Political Aspects," and C. E. Bennet of the engineering school will talk on "Barcelona."

**New Sewage Plant Is Opened Near Village**

A new sewage plant located about one mile east of Chapel Hill was opened yesterday. The plant is modern throughout and of the very latest design.

The plant was designed by H. G. Baity, dean of the sanitary engineering school, and will be used by the sanitary engineering students for test on methods of treatment of sewage.

The contractor, aldermen, and mayor of Chapel Hill were present at the opening.

of Wake Forest college, President Henry N. Snider of Wofford college, Dean Howard Lee McBain of Columbia university, Mrs. Julius W. Cone of Greensboro, Major George Lee Butler of Clinton, and Professor Ivey F. Lewis of the University of Virginia.

**FRESH**

**in nature's way**

**CAMELS are never parched or toasted!**

**FRESHNESS** and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out *freshness* and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are *naturally* smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette *fresh* to start with, and *fresh* to smoke.

If you don't realize what natural moisture means in genuine *freshness* and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can!

**CAMELS**  
Made FRESH—Kept FRESH

● Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against sweat, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked.
