

# VARSITY DEFEATS YEARLING TRACK TEAM, 98 TO 28

### Stafford Is Star in Varsity's Win, Leading Scoring With Thirteen Points.

Taking thirteen out of fourteen first places and getting a tie for first in the other event, the varsity track team triumphed over the freshman track team 98 to 28. Jackson, who tied Smith in the pole vault, was the only freshman taking a first place.

Stafford was the star of the varsity's win, running two of the best races of his career in first places in the low and high hurdles. He also took second place in the broad jump for a total of thirteen points. Farmer, with first places in the 100 and 220 dashes, was second high-point man with a total of ten. Hawthorne, who trailed Stafford both times in the hurdles, took freshman honors with six points.

#### Summary

The summary of the meet follows:

100-yard dash: Farmer (V) first, Marland (V) second, Morfimer (F) third. 220-yard run: Farmer (V) first, Higby (F) second, Childers (F) third. Time: 21.6. 440-yard run: Marland (V) first, Weil (V), second, Watkins (V) third. Time: 51.

880-yard run: Case (V) first, Watkins (V) second, Williamson (F) third. Time: 2:01.6. 120-yard high hurdles: Stafford (V) first, Hawthorne (F) second, Abernathy (F) third. Time: 15.8. 220-yard low hurdles: Stafford (V) first, Hawthorne (F) second, Turbnick (F) third. Time: 25.4.

Mile run: Jensen (V) first, Williamson (F) second, Curlee (F) third. Time 4:30.8. Two-mile run: L. Sullivan (V) first, Hubbard (V) second, Pratt (V) third. Time: 10:11.

Pole vault: Smith (V), Jackson (F) tie for first; Blount (V), Stevens (F) tie for third. Height: 11 feet. High jump: Hamlet (V) first, Reid (V) and Dockery (V) tie for second. Height: 5 feet 11 inches. Broad jump: Higby (V) first, Stafford (V) second, Childers (F) third. Distance: 22 feet 2 inches.

Shot put: Hodges (V) first, Ray (F) second. Distance 41 feet 8 inches. Discus throw: Brown (V) first, Smuckler (V) second, Shea (F) third. Distance: 134 feet 5 inches. Javelin throw: Chandler (V) first, Wertheim (F) second, Strauss (V) third. Distance: 171 feet 6 inches.

## Three Debates Are Set For This Week

Three home contests are listed for Carolina's debaters this week. The team will meet Tennessee in Gerrard hall Monday night at 7:30 o'clock and the Oregon system will be used. The topic for the debate will be on the centralized control of industry with audience decision.

Wednesday the team will defend capitalism while New York University will represent socialism in Gerrard hall at 9:00 o'clock. Georgia Tech will bring a team here Friday night to debate on capitalism.

### Twelve in Infirmary

Tom Weeks, E. E. Brown, Edmund Waldrop, A. C. Hitchcock, M. S. Dunn, B. F. James, G. H. Holmer, E. S. Longest, R. M. MacMillan, M. A. Webb, C. E. Wilder, and John Innes were on the infirmary list yesterday.

The president of Lehigh university says students have changed very little in the past 30 years. This is why parents who have sons or daughters in college worry.—Life.

## UNIVERSITY GOLF MEN BEST DUKE

### Winston-Salem High School Defeats Freshmen by 13-5 Count.

Carolina golfers beat Duke at Hope Valley yesterday 9½-8½ in a great match that wasn't settled until the last hole of the last doubles match when Captain Joe Adams sunk a putt from off the green for a birdie two while Stokes of Duke was missing by an inch and taking a three.

Peacock, Duke ace, burned the course up in the morning's singles. Alan Smith, Carolina ace, shot an ordinarily brilliant 71, but Peacock was down to 67 and took three points off the Tar Heel.

In the doubles Brown and Smith, Carolina, turning in a best ball of 68 scored 2½ points while Caldwell and Peacock were getting ½. In the other match Stokes and McCanness, Duke, took two points to one won by Adams and O'Brien, and it was only Captain Adams' brilliant finish that won for Carolina.

Winston-Salem high school defeated the Carolina freshman team yesterday at Winston-Salem by the score of 13 to 5.

## APPOINTMENTS TO FELLOWSHIPS ARE MADE BY PIERSON

(Continued from first page)

### Chemistry

Robert Herschel Belcher, B.S., Georgia State College for Men, 1930, S.M., University of North Carolina, 1931; Daniel Johnson Brawley, S.B., University of North Carolina, 1930, candidate for S.M., ibid., 1932; Simpson Douglas Sumerford, B.S., Mississippi Agricultural and Mechanical College, 1929, candidate for S.M., University of North Carolina, 1932. Alternates: Jacob Addestone, B.S., College of the City of Charleston, 1924, S.M., University of North Carolina, 1926; Thomas Basil Douglas, S.B., University of North Carolina, 1931, candidate for S.M., ibid., 1932; Joseph Nisbet Le Conte, B.A., Emory University, 1928, M.S., ibid., 1929.

### Classics

William Johnston Hogan, IV, A.B., College of William and Mary, 1927, candidate for A.M., University of North Carolina, 1932. Alternate: Albert Irving Suskin, A.B. in Education, University of North Carolina, 1931, candidate for A.M., ibid., 1932.

### Economics and Commerce

Lyles Glenn McNairy, B.S.C., University of South Carolina, 1931, candidate for A.M., University of North Carolina, 1932.

### McDonald Kelso Horne, Jr., A.B., University of Mississippi, 1930, candidate for A.M., University of North Carolina, 1932. Alternates: Edward Hutchings Anderson, B.S., University of Virginia, 1923, M.S., University of Florida, 1928; Clement Harold Donovan, B.S., St. Lawrence University, 1931, candidate for S.M., University of North Carolina, 1932.

### Education

John Hiliary Andrew Workman, A.B., University of North Carolina, 1913, candidate for A.M., ibid., 1932. Alternates: William Watson Morgan, A.B., Wake Forest College, 1925, candidate for A.M., University of North Carolina, 1932.

## BIERMAN STRESSES AGGRESSIVENESS IN FOOTBALL TEAMS AT MINNESOTA

### Unbalanced Line, With Ends Loose, Is Favored on Offensive While Close in Six Man Line Is Used on Defensive Coach Concentrates on Speed.

(EDITOR'S NOTE: B. W. Bierman, head coach at Minnesota, presents an explanation of the system and plays used by Minnesota football teams, in this article especially written for THE DAILY TAR HEEL.)

By B. W. Bierman

For some years I have been using on offense the single wing back formation with variations. The line is unbalanced, with the ends loose, and the backfield distributed somewhat different from the ordinary run of single wing back formations. The tail back is fourth toward the strong side, and the front back in the tandem is not out so wide as in most single wing back formations.

The formation is designed primarily for maximum speed to the strong side, without sacrificing ability to get back to protect the weak side.

### Shift into Formation

We shift into this formation from an original semi-huddle lineup, and, to keep the defense guessing, use some variations of formation; both in the line and in the backfield. At times we snap the ball as soon as the rules permit after shifting, but we change this timing sufficiently often so that the defense cannot anticipate when the ball is going to be snapped.

### No Concentration on Plays

We do not concentrate our efforts on any particular play or type of play. In other words, we do not have a passing attack, a line-bucking attack, or anything of that sort as our main attack. Rather, we try to keep a balanced and varied offense, and against some teams one feature will predominate our attack, while against another team it may be another type of play. However, the one thing we do

continually concentrate on is speed. No matter what the play is we want it played as fast as possible, and we are willing to sacrifice to get additional speed.

### Aggressiveness Stressed

Aside from this position on lineup, the one thing that is stressed is aggressiveness. In theory we are not attempting to hold our opponents to small gains or stopping them. We are attempting to drive them back.

### Knowledge of Football

Another major factor that enters is knowledge or football brains. If the team is to be successful, it is necessary for it to possess a high degree of intelligence, diverted and trained to thoroughly understand football, and have a thorough understanding of the details involved in the particular plays and system we are using.

### Geology

James Atwell Alexander, A.B., Davidson College, 1929, A.M., ibid., 1931. Alternate: Elburt Franklin Osborn, candidate for A.B., DePauw University, 1932.

### German

Newton Duell Holbrook, 3rd, A.B., Vanderbilt University, 1930, candidate for A.M., ibid., 1932. Alternate: John Wyatt Armfield, candidate for A.B., University of North Carolina, 1932.

### History and Government

Frank Sevier Hale, B.A., University of Louisville, 1925, M.A., University of Virginia, 1926; Edward Harold Hunnicutt, A.B., George Washington University, 1929, candidate for A.M., University of North Carolina, 1932; Paul Murray, Ph.B., Emory University, 1927, M.A., ibid., 1929. Alternates: James Logan Godfrey, A.B., Roanoke College, 1931, candidate for A.M., University of North Carolina, 1932; Edwin Adams Davis, B.S. in Education, Kansas State Teachers' College, 1925, M.A., State University of Iowa, 1931; John William McIntosh, A.B., University of Alabama, 1930, candidate for A.M., ibid., 1932.

### Mathematics

Thomas Wall Eden Greville, A.B., University of the South, 1930, candidate for M.A., University of Michigan, 1932; Hubert V. Park, A.B., Lenoir-Rhyne College, 1931, candidate for A.M., University of North Carolina, 1932. Alternates: Billy James Pettis, candidate for

continually concentrate on is speed. No matter what the play is we want it played as fast as possible, and we are willing to sacrifice to get additional speed.

### Six Man Line

On defense we favor a close in six man line with either a three-two or a two-two-one secondary. Obviously we use this because we think it is the strongest defense possible.

### Chemical Society To Hear Princeton Man

"The Use of Electromotive Force Measurements in Analytical Chemistry" will be the subject of the address by Dr. N. H. Furman to be presented before the North Carolina section of the American Chemical Society tomorrow night in the main auditorium in Venable hall.

Dr. Furman is professor of analytical chemistry at Princeton University and is widely known as an author and investigator. He will be given a supper at the Carolina Inn at 6:30, preceding the lecture at 8:00 o'clock.

### A New Sunday Feature

On Sunday and Wednesday of each week THE DAILY TAR HEEL henceforth will print a new column. *I Spy* (the column) is of an entirely new sort—look for it on the back page, column six! Try to guess who writes it; we don't know!

### WANTED

Furnished House until June or July. Must have three bedrooms. Mrs. Titchener, Carolina Inn.

## STAFF MEETINGS SET FOR TODAY

The entire editorial staff of THE DAILY TAR HEEL will gather at 7:00 o'clock tonight in room 213 of Graham Memorial for an important meeting. This meeting will be preceded by the regular gatherings of divisions of the staff in the afternoon.

The city editors will meet with the managing editor in the offices of the paper at 5:00 p. m. today while at the same time the foreign news board will meet. The editorial board will meet with the editor at 5:30 o'clock. The meeting of the feature board is set for 4:30 p. m.

## Chemical Society To Hear Princeton Man

"The Use of Electromotive Force Measurements in Analytical Chemistry" will be the subject of the address by Dr. N. H. Furman to be presented before the North Carolina section of the American Chemical Society tomorrow night in the main auditorium in Venable hall.

### WANTED

Furnished House until June or July. Must have three bedrooms. Mrs. Titchener, Carolina Inn.

## INTRAMURALS IN BASEBALL WILL OPEN TOMORROW

### Over Forty Teams Are Entered In Fraternity and Dormitory Baseball Races.

Carolina's intramural baseball season is scheduled to open tomorrow afternoon on the intramural diamonds. Many teams have made a last minute entry and the number has swelled above forty. Because of these late comers the original schedule of play had to be changed and the intramural department has not drafted a new one yet.

As the intramural department is trying a new system of playground ball, the strength of the various teams is not known. Last year, playing regular baseball, A. T. O. downed Graham in the campus championship game after one of the fastest races in intramural history had taken place in the dormitory league.

The season will be run off in the same manner as the football and basketball races were run. The teams will be divided into dormitory and fraternity leagues and the winner of each loop will play in a final contest.

But if 20 poor men should injure property as the "short interests" have, they would be dangerous reds.—Port Arthur News.

## Debate Finale

MONDAY, APRIL 4  
7:30 P. M.

WEDNESDAY, APRIL 6  
9:00 P. M.

FRIDAY, APRIL 8  
7:30 P. M.

## GERRARD HALL

MONDAY, APRIL 4—Tennessee on Centralized Control of Industry. Cross-examination. Audience decision. Soup and Fish. Speakers: Our Speakers: Fleming-Jones and E. A. Minor.

WEDNESDAY, APRIL 6—New York University on Capitalism versus Socialism. U.N.C. defends Capitalism. Cross-examination. Fish and Soup. Our Speakers: Lacy, Fleming Hyphen Jones, and Jon.

FRIDAY, APRIL 8—Georgia Tech on Capitalism. Cross-examination. Our Speakers: J. W. Slaughter, the other Wardlaw, A. S. Kaplan.

The divertisement this week is guaranteed 99 44-100% pure. The priceless ingredient is the intellectual integrity of the debaters. (Look for the libel: "Profunditas, Dignitas, Publicitas.")

Picture before your mind's eye, Jon Wilkinson in action—a post hoc in one hand and a flaming sword in the other.

### Impromptu Debate

During a trip to Wapscott College our boys were put up in a Girls' dormitory. On trying to catch a train at 4 A. M., Lacy and Eddleman had to debate an astonished and suspicious watchman on the subject: Resolved that we are nice boys and that you ought to unlock the front door.

### Professor Will Debate

Professor Bouncer, specialist in wild life, has signed a contract to debate the affirmative of the question: Resolved that publicity men should be chloroformed en masse rather than separately.

### Evening Song by Martin Luther

"Wer liebt nicht Wein, Weib, und Debat  
Der Debat bleibt ein Naar beneath sein Hat"
