University Professor Discusses Family Problems Before Institute in Boston.

Speaking before the Parents Institute in Boston yesterday, Dr. E. R. Groves, professor of sociology in the University and noted authority on family problems, laid the difficulties of the family at the door of science and the luxury-craving civilization it has produced; conceded that there has been a decline in standards, satisfactions and stability of the family; and suggested remedies and solutions in a bold and optimistic talk on "The Renaissance of Family Life."

"The depression," he thought, "is at least revealing an unexpected strength in family ties and is giving us time to catch our second wind as we prepare to wrestle with pleasure-demands unparalleled in human history."

### Candidates For Student Body Presidency Offer Platforms

By Haywood Weeks

To the Student Body of the University of North Carolina:

Because I intend to execute all campaign promises made to the Student Body, they can be listed simply and briefly.

1. Running independently at the request of students who are interested in the welfare of student government at the University and who wish to have the opportunity of selecting their officers, I am bound by no political ties.

2. Having served for a year as secretary of the Student Council, I feel that I am qualified to carry on the functions of that office, which only experience teaches, and in the interest of the Student Body, I shall, if elected, have the Engineering School represented on the Council so that it will be truly representative of the Student Body, in which it now fails.

3. If I should be elected, my highest aims shall be to serve the University as a whole to execute the will of the Student Body.

4. Feeling the seriousness of the matter of students graduating from the University and being unable to find employment, I shall, if elected, establish a Placement Bureau, the purpose of which shall be to find permanent employment for graduates and undergraduates of the University.

5. Finally, if elected, I promise to follow the dictates of my conscience and the will of the Student Body in shaping any further policies that may fall to the President of the Student Body.  
(Signed)

HAYWOOD WEEKS

By Hamilton Hobgood

My platform as a candidate for president of the Student Body of the University of North Carolina is as follows:

1. A reduction in the cost of Student Government, with no reduction in its quality, by the lowering of various student fees.

2. To revise the honor system by separating the two distinct problems of cheating and drinking, thereby handling each case on its individual merits.

3. To inquire widely in all sections of the campus to determine student opinion before any changes in Student Government would be made.

4. To successfully operate the Student Forum so as to bring forth valid student opinion on all controversial subjects of campus interest.

5. To work consistently and earnestly for optional attendance upon classes.

6. To indorse reciprocity between athletic opponents away from home in all athletic contests.

7. To attempt to cause the state to understand and sympathize with the program of the University and its Student Body by radio programs and the fair and dignified conduct of activities on this campus.

8. To strive for the perpetuation of the Carolina ideal so that any qualified man may have an opportunity to rise in Student Activities regardless of social class or affiliations.

9. I hereby pledge myself on my honor to see that all decisions and actions of the Student Council, provided I should be successful in being named to this office, would represent the voice and the desires of the Student Body.  
(Signed)

### NO POLITICAL LETTERS

For four years the Tar Heel has declined to print political advertisements in the form of open forum letters on the grounds that revenue derived from such advertisements when paid for reduces the cost of publishing the paper, as well as the fact that letters written on behalf of candidates during years of great contest would occupy more space than the paper affords. In this we are backed in precedent by all of the college dailies in North America.

The only exception to this is a skeleton outline of policies allowed the candidates for the presidency of the student body.

The Daily Tar Heel from year to year has fought to maintain its aloofness from personalities in campaigns and the endorsement of persons, on the belief that that is the will of the student body in the matter.

### PATROLMAN HAD NO AUTHORITY TO DRAFT PENN CAR

Patrolman U. M. Rackley of the local police force was without authority to draft the car of Ashby Penn for the bandit chase last Thursday night, according to Assistant Attorney General A. A. F. Seawell, who unofficially cited the law on the subject upon request of the *Raleigh News and Observer* Monday.
