

Three Positions Still Unfilled As Practice Draws To Close

Catcher, First-Baseman, and Shortstop Not Yet Chosen From Applicants.

With the last full week of practice before the opening game with Washington and Lee next Tuesday ahead of them, the Carolina baseball team still has three uncertain positions. Merry battles for the catcher's berth, first base, and shortstop are being waged daily.

Four men are leading the race for the backstop job at present. Norman McCaskill, a letterman shifted from second, Jim Tatum and Red Matheson, two reserves from last year, and Profest Strayhorn, last year's frosh receiver, are the four leading candidates. Joe Parker and Farrell are two other dependable receivers who may see action.

Johnny Phipps and Dutch Leonard are waging the hottest battle over the shortstop job and at the present, Phipps should be given a slight edge. Leonard has shown an improvement in his hitting, however, and should this continue, he may oust the taller and heavier Phipps. Over at first another close battle is going on between Jim Dixon and Tommy Temple. Dixon is a letterman from last year, though he played then in the outfield. Temple is out for his first year but he is an upper classman. Temple has a powerful batting eye but lacks Dixon's experience around the initial sack. Dixon should get the call with Temple being held in reserve. The latter should get plenty of chance to play due to his excellent batting so far this season.

Captain Willie Powell and Vergil Weathers, two veterans will cover third and second respectively and are looking especially good. In the outfield, Coach Hearn can pick his gardeners from an experienced bunch. Croom, Brandt, Peacock, and Hornaday are all letter outfielders, and then there is Gene Zaiser and Vick, two promising sophomores.

Baseball Players Meet

Coach Bunn Hearn has requested that all varsity baseball players meet with him this afternoon at Emerson stadium at 3:00 o'clock.

wife's children to be distinguished, like Dr. Cobb, as the possessors of gold teeth.

He began his professional career by teaching in the public schools of this state, then at the state normal school, and successively at Harvard, of which he is a graduate, the Massachusetts Institute of Technology, and as head of the Geology department of the University. In 1921 he was appointed a Kenan Research Professor, under which foundation he studied the shore lines of the Northern Pacific, the Gulf of Mexico, and the Caribbean Sea. Dr. Cobb is also widely known as the discoverer of the Enfield Horse in the early prehistoric deposits of North Carolina.

In addition to having edited and published a newspaper from 1871-1875 (he was nine years old when he first undertook the job), Dr. Cobb is the author of numerous books, including: *Where the Wind Does the Work, Human Habitations, Landes and Dunes of Gascony, A Pocket Dictionary of Common Rocks and Rock Minerals, and a Geography of North Carolina.* At present he is at work preparing his memoirs, which give promise of being most entertaining reading.

AROUND the FIELD

By
CLAIBORN M. CARR

ACCORDING TO MEMBERS of the Duke's spring sport teams, Carolina hasn't a chance to win any of the spring contests. For some unknown reason about four Devil varsity tennis men came over here recently spreading a lot of stuff about how badly they were going to trounce our racketeers. These haughty Devils even went down on the courts and broke the news to Coach Kenfield himself. "Our number one man will beat Hines, and the rest of the Carolina team will fold up," was about the way the talk went.

WILMER HINES WILL TAKE care of any man they can dig up at Duke. Last year Hines met Welch, their tennis idol, in the state tourney semi-finals and allowed him about three games during the whole match. Of course Barney may have improved, but look at the room there was for improvement. After Wilmer come Lenoir Wright, Harvey Harris, Harley Shuford, Dave Morgan, Walter Levitan, Ricky Willis, John Dillard and Ike Minor. These bab-

GOLFERS PLAY TO SET LINE-UP IN COMING CONTEST

Captain O'Brien and Smith Lead Play in Qualifying Rounds For Richmond Battle.

For the past few days the varsity golfers have been playing qualifying rounds over the Hope Valley course to determine who will represent Carolina in the season's opening skirmish against Richmond University, Thursday. Saturday in one of the qualifying rounds it was Captain Billy O'Brien who set the pace. O'Brien scored a 72 on the difficult Hope Valley course.

Each candidate must play three rounds before Wednesday, and the men with the four lowest aggregate scores will fill the positions on the team for the first match. Several men have completed one or two of their rounds, and their scores are: Alan Smith, 75-74-149; Billy O'Brien, 79-72-151; Carl Cramer, 77-78-155; Erwin Laxton, 79-79-158; Fred Laxton, 82-83-165; Henry Bridges, 77; Will Sadler, 77; and Wilson Coffin, 76.

Smith Leads Field

Alan Smith, one of the south's steadiest collegiate golfers, played consistent golf in both rounds to lead the field by two

WEATHER CAUSES DELAY OF GAMES

Scheduled Contests Will Be Played Later in Baseball and Tennis Races.

Yesterday's inclement weather rendered baseball diamonds and tennis courts unfit for play, necessitating the postponement of all intramural contests listed for the day. The games, which were to have been the openers of the season in both sports, will be scheduled later in the season according to Herman Schnell, director of intramural athletics. Five baseball and five tennis engagements are on today's card which will serve officially to open the intramural campaign for the spring quarter. The schedule for this afternoon follows:

Baseball

3:45—(1) Pi Kappa Phi vs. Sigma Nu; (2) Best House vs. Steele.

4:45—(1) Lewis vs. Old West; (2) Everett vs. Ruffin; (3) Theta Kappa Nu vs. Delta Psi.

Tennis

3:45—(1) Sigma Phi Sigma vs. Kappa Sigma; (2) Aycock vs. Carr.

4:45—(1) Phi Delta Theta vs. Sigma Phi Epsilon; (2) New Dorms vs. Lewis; (3) Theta Chi vs. Tau Epsilon Phi.

strokes. Carl Cramer played two nice rounds, playing consistently throughout. Erwin Laxton's

FETZER REPORTS ON BOXING MEET

National Intercollegiate Boxing Association Meets at Penn State For Rule Revision.

Coach Bob Fetzer has returned to the University after attending the Eastern Intercollegiate Boxing championships at Penn State last Friday and Saturday.

During the same period that the boxing matches were being run off, the National Intercollegiate Boxing Association held a meeting. Coach Bob also attended the boxing meeting, held by the leading men among collegiate boxing circles in the United States, and brings back a report of the meeting.

The main question brought before the gathering was that of rules and regulations. A subcommittee was appointed to study these and formulate new definite rules which will be put on the same basis as the national collegiate football rules; that is, rules which all the colleges in the United States will go by in holding matches between two different colleges.

The subcommittee is scheduled to bring their report to a second meeting of the boxing association which will take place also at Penn State during the time of the annual Penn Relays.

two 79s showed that he was far off form from his usual steady

WINTER PRACTICE RESUMED TODAY ON KENAN FIELD

Coach Sapp Puts Squad Through Work-out in Absence of "Chuck" Collins.

Yesterday afternoon on Kenan field Carolina's football squad held its first practice of the second part of winter football. Forty-five reported, regardless of the bad weather.

Due to the absence of Coach Collins, Coach Sapp took charge of the initial workout. The practice consisted mostly of limbering-up drills and passing, in order to get the players in proper shape before hard work is undertaken.

The coaches plan to keep the football squad out three more weeks before quitting until next fall. During this time the members of the squad will be given individual attention in an effort to iron out the various faults of the candidates for the 1933 eleven.

The majority of the squad which reported yesterday were freshmen and without doubt they will be the making of next year's eleven. Babe Daniels, giant center, who is scheduled to go far among Southern Conference players, was out and ready to go. Daniels did not play last fall due to an injury.

GROWING
A
FLOWER
GIRL

ILLUSION:

The magician exhibits a flower pot with hinged sides on a table in the center of the stage. He opens out the sides to show that this container is empty. Closing it up, he places a screen between it and the audience. After a short period of magic incantations he removes the screen. The astounded audience sees a beautiful girl, covered to the shoulders in lovely flowers, rising from the "empty" container. Where did she come from?

EXPLANATION:

The girl was hiding behind the drape of the table. There is a trap door in the bottom of the flower pot, with a hole large enough to allow her to crawl through. The flowers, called "magicians' feather flowers," are a regular part of a magician's outfit. The flower girl wears a rubber tunic and a bathing cap to keep the flowers compressed into small space. She slides the tunic down and the flowers expand when she emerges.

IT'S FUN TO BE FOOLED

...IT'S MORE FUN TO KNOW

A trick frequently worked in cigarette advertising is the *illusion* that mildness in a cigarette comes from mysterious processes of manufacture.

EXPLANATION: All popular cigarettes today are made in modern sanitary factories with up-to-date machinery. All are heat treated—some more intensively than others, because raw, inferior tobaccos require more inten-

sive treatment than choice, ripe tobaccos.

The real difference comes in the tobaccos that are used. The better the tobacco, the milder it is.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

That is why Camels are so mild. That is why Camels have given more pleasure to more people than any other cigarette ever made.

It's the secret of Camels' rich "bouquet"...their cool flavor...their non-irritating mildness.

Give your taste a chance to appreciate the greater pleasure and satisfaction of the more expensive tobaccos.
