SEAWELL TRACES CHANGE IN STATE

Changes in Legislation Since 1925 Outlined at North Carolina Club Meeting.

Dr. A. A. F. Seawell spoke last night before the North Carolina club on the changes in North Carolina in the last few years, especially since 1925.

"If we scrutinize the recent governmental legislation we will be amazed at the changes the legislatures have made since 1925," stated Dr. Seawell. Dr. Seawell first discussed the budget law, passed under Governor McClean, which provided for budget committee. All appropriations made by the legislature are only the proportionate and maximum amount of that appropriation and not the definite amount, the definite amount being determined by the committee.

Dr. Seawell discussed the local Government act which makes it necessary for all counties to have their budgets and bond issues approved by a special state commission. He then went on to tell how the state had taken over the highways.

He then discussed the school machinery law, telling how the schools have been cut in recent years. He also discussed the new taxes, stating that the legislature's abolishment of the land tax is unconstitutional. He said that the sales tax is unfair to the little man.

The next meeting of the North Carolina club will be two weeks from now, when Dr. Jackson of the department of Public Administration will speak.

Plans were made yesterday by the University Y. M. C. A. board of directors to lend the Blue Ridge association \$1,000 to prevent the Blue Ridge property from being sold at auction for non-payment of taxes, and this plan was turned over to the finance committee for ratification.

The local Y. M. C. A. will have the exclusive right to one of the Blue Ridge cottages for ten years if the loan is made to the association. The University unit also will have the right to select any one of the several cottages on the ridge.

If the Blue Ridge association does not receive money from some source, the lands will be sold at auction at the end of ten days.

Methods of raising the \$1,000 were left to be worked out by the local Y. M. C. A. finance committee, which will meet to discuss the plan. If the committee passes on the proposal, the plan will be submitted again to the board of directors before any action is taken.

Frank P. Graham Opposes Repeal

President Frank Porter Graham, when asked in Raleigh Sunday, to give his views on prohibition, stated that he was opposed to repeal of the 18th amendment because the liquor traffic is a menace to society.

While in Raleigh to hear the Hon. Clyde R. Hoey address a mass meeting of dries, Dr. Graham gave his views on prohibition as follows:

"We who still support prohibition are not unaware of prohibition's many failures and their sinister implications. We, too, believe that the truest prohibition is the self-control that comes from within the individual.

"But we also believe that freedom and self-control find their re-enforcement in the environment of the community and sanctions of society.

"I am opposed to traffic in liquor for the fundamental reason that I am for abolition of child labor, night work for women, the long work week, low wages, war, and many other forms of human exploitation that tear down and destroy the bodies and personalities of human beings."
