

WOOFTER TO TALK ON PROJECT WORK IN SIXTH LECTURE

Sociology Professor Will Discuss Tennessee Valley Project Tonight in NRA Series.

The sixth of a series of lectures on the NRA sponsored by three schools of the University will be delivered tonight at 8:00 o'clock in Bingham hall auditorium by Dr. T. J. Woofter of the sociology department.

Dr. Woofter will speak on "The Tennessee Valley Project." He has been a member of the staff working on the details of the plan which the Tennessee Valley Authority is to carry out.

The lecture tonight will last one hour and will be followed by a short discussion period. The public is invited to attend.

The talk was scheduled to have been given Thursday, but due to an automobile accident which delayed Dr. Woofter, it was postponed until tonight. The schedule for the rest of the lectures on the series has been moved up one week.

Proposed Changes In Curriculum Released

(Continued from first page)

- a. A broad understanding of the organization and functioning of modern society.
 - b. An introduction to the natural world and man's place in it.
 - c. An appreciation of man's cultural heritage.
 - d. A mastery of the techniques necessary to scholarly achievement in the work of the last two years.
6. That provision be made for various methods of testing the ability and performance of students with a view to classifying them for further study, having in mind the setting up of special programs for those who demonstrate that they are either not fitted for or are not interested in scholarly work.
 7. That in selecting the instructional staff emphasis shall be on interest in and enthusiasm for classroom instruction and manifest willingness to devote personal attention to individual student needs.
 8. That provision be made for frequent and frank critical group discussions of the teaching process and for definite utilization of successful and seasoned teaching experience as a means of guidance and suggestion.
- The Upper College**
It is recommended:
1. That the Upper College, comprising the junior and senior years, be divided into a number of faculties, such as language and literature, social sciences, natural sciences.
 2. That each faculty (or division) be set up as a separate unit for purposes of formulating and conducting programs of study within the division; that it be organized for administrative purposes with a chairman (or dean or director) and an administrative board.
 3. That each faculty formulate programs of study providing specialization in each of its several departments, allowing proper election in other divisions.
 4. That admission to the Upper College be determined by the satisfactory completion of all requirements of the Lower College, provided that the proper options in the first two years' program leading to the division of the student's choice shall have been exercised.
 5. That all matters pertaining to courses of study be determined by the division; but that matters of class attend-

EMORY WILL ADDRESS SIGMA GAMMA EPSILON

Professor S. T. Emory of the geology department will speak to the local chapter of Sigma Gamma Epsilon, national honorary geology fraternity, tonight at 7:30 o'clock in 406 New East. His subject will be "Old Geographies." The public is invited to hear his lecture.

This is Professor Emory's first year at the University. He came here from the University of Chicago, where he had a fellowship in geography.

BLOODHOUNDS PROVE HAMS AT U. OF MICH.

The famed bloodhounds of the Negro story "Uncle Tom's Cabin" recently made a howling success of this production at the University of Michigan in their own vociferous way, according to the Minnesota Daily.

When the hounds were supposed to recross the river over which Eliza had fled, they balked and attempts to drag them across failed. The stagehands desparately rang down the curtain for intermission amidst a confusion which almost broke up the show.

Teachers to Attend Language Conference

The University will be well represented when the South Atlantic language association meets December 1 and 2 at Duke University. Dr. G. R. Coffman, head of the English department here, will act as president of the association, while two other professors from this University, Dr. U. T. Holmes and Dr. A. P. Hudson, will head the romance languages and English sections, respectively.

This association is a regional division of the modern language association, which is the national organization. It is composed of people interested in teaching and research and every important college in the Carolinas, Georgia, Florida, Alabama and Tennessee will be represented. The meeting last year took place at Atlanta.

Accounts Due Wednesday

Campus organizations which wish to take advantage of the 20 per cent discount offered by the Publications Union board on Yackety Yack accounts must do so by Wednesday of next week.

IT TAKES HEALTHY NERVES TO BREAK RECORDS IN THE AIR!

HE FLEW AROUND THE WORLD ALONE! Wiley Post climbs out of the Winnie Mae at Floyd Bennett Field as the whole world applauds his skill and marvelous physical endurance. "Smoking Camels as I have for so long," says Post, "I never worry about healthy nerves."

FLYING EIGHT DAYS AND NIGHTS without a stop, Frances Marsalis and Louise Thaden set the world's endurance flight record for women. Miss Thaden says, "For some years I've smoked Camels. They taste better." Also a Camel fan, Miss Marsalis says, "I've never changed because I can't afford to take chances with my nerves."

RACING ACROSS AMERICA in 10 hours and 5½ minutes, Col. Roscoe Turner recently added a new West-East transcontinental speed record to the East-West record he won earlier this year. "Like most pilots I smoke a lot," says Col. Turner. "I smoke Camels for the sake of healthy nerves, and I enjoy them more."

IT IS MORE FUN TO KNOW
Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Steady Smokers turn to Camels

Men and women who are famous for their brilliant flying agree about smoking and healthy nerves. "I never worry about healthy nerves," they say, "because I smoke Camels."
They cannot afford to make a mistake in choosing their cigarette. They have to know. And

it is more fun to know, because of the greater smoking pleasure they find in Camels. Camels are milder... better in taste. They leave no "cigaretty" aftertaste.
* * *
Change to Camels... and see for yourself that they do not get on your nerves or tire your taste!

CAMEL'S COSTLIER TOBACCOS

NEVER GET ON YOUR NERVES... NEVER TIRE YOUR TASTE
