# IN LAST SESSION

Meeting Yesterday Afternoon at Duke After Full Morning Conclave Here.

Concluding the second day's sessions, the members of the North Carolina Press Institute heard yesterday speeches by J. E. Dowd, Richard Waldo, and Josephy T. Mackey, and held discussions led by Judson Ashby, publisher of the Mount Airy Times, and C. C. Council, publisher of the Durham Herald-Sun.

At 4:00 o'clock the group adjourned to go to Duke University, and will return here today for the concluding sessions.

### LECTURER GIVES

McCollester Reviews Sermon on Mount and Golden Rule in Conference Speech.

Lee S. McCollester continued his series of talks on liberal regives the philosophy of Jesus.

McCollester based most of his discussion on the Sermon on the Mount, elaborating in detail on the theories advanced to the people by Christ.

Concerning the Golden rule he stated, "Most people today agree that if the Golden rule were applied, this would be better world in which to live; but the trouble is that few are willing to apply it in business."

Pointing out the completeness of the sermon as a full philosophy of life, McCollester discussed the questions coming from the multitude which Christ

# TALK ON RUSSIA

Well-Known Traveler Interests Large Crowd with Entertaining Program.

Julien Bryan, noted traveler and student of Russian affairs, brought to a large audience in Memorial hall last night a vivid and apparently unbiased and accurate picture of Soviet Russia in its many phases and stages of development.

The lecture, sponsored by the Student Entertainment committee, was augmented by slides and motion pictures, most of which were taken by Bryan himself during his travels in Russia from 1930 to 1933.

Asks Right Attitude

The lecturer opened his program with a short plea for an unprejudiced attitude on the part of his audience. Paralleling the David Clark type of anti-Russian propaganda with the falsifications against Germany during the World War, he commented that with recognition of the Soviet the way to a truer and saner understanding of the great Communist state seemed in the offering.

Bryan conducted his program by giving a running commentary on the motion pictures and slides projected by a stereopticon. Running through the whole series was the definite purpose of showing the contrast between present-day conditions of the worker and the peasant and

those under the Tsarist regime. (Continued on page two)
