

## ALUMNUS SPEAKS BEFORE MEDICAL SOCIETY TONIGHT

Undergraduates Interested in Study of Medicine Invited To Hear Dr. Brenizer.

### MEETING CALLED FOR 7:30

The Whitehead Medical society, University student organization, has extended a special invitation to all those undergraduate students interested in the study of medicine to attend the talk by Dr. Addison Brenizer of Charlotte on "A Journey through the Gastro-Intestinal Canal with Camera and Tools" to be given tonight at 7:30 o'clock in the auditorium of Phillips hall.

Dr. Brenizer is an alumnus of the University, having received his A. B. degree here in 1903. He also took the first year of his medical training here. He received his M. D. degree at Johns Hopkins and did work abroad at the University of Heidelberg and the University of Vienna.

### Work During War

At the time of the war he organized a hospital unit and took it to France; he was chief of surgery at base hospital, No. 6 of the A. E. F., from 1917 to 1919.

Since the war Dr. Brenizer has practiced in Charlotte. He is a prominent member of various national, state, and local medical societies, and state chairman for the American society for the Control of Cancer.

An invitation is extended to all those in the student body who may be interested in tonight's lecture.

## CIVIL ENGINEERS TO MEET TONIGHT

C. C. Glover Will Give Illustrated Lecture on Large Bridge.

A regular meeting of the American Society of Civil Engineers will be conducted this evening at 7:30 o'clock in room 319 of Phillips hall.

The program for this occasion will consist of an illustrated lecture on "The Carquinez Strait Bridge," by C. C. Glover, student member of the A. S. C. E. This bridge, which is situated 25 miles north of San Francisco, is the second largest in the United States and fourth largest in the world. It was constructed of two large spans, each 1,100 feet in length, at a cost of \$8,000,000 dollars. The importance of this construction rests in the fact that it connects all traffic between San Francisco and northern California.

All civil engineering students are urged to attend this discussion.

### FROSH HANDBOOK STAFF

The staff which worked under Carl Thompson in putting out the Freshman Handbook will meet at 10:23 o'clock this morning in front of South building to have their picture taken for the Yackety Yack. These include Phil Hammer, Vermont C. Royster, Bill Anderson, and Charles Bond.

### CITY EDITORS TO MEET

City editors of the DAILY TAR HEEL will meet this afternoon at 4:00 o'clock in 205 Graham Memorial. Desk men will not be required to attend the meeting.

## LAW FRATERNITY MAKES BIDS TODAY

Phi Delta Phi to Select Men of Character and Scholarship.

High character and academically proficient law students will be mailed bids today from the Phi Delta Phi honorary law fraternity. The recipients and acceptors of these bids will be pledged later and initiated into the fraternity.

Henry Anderson is at present head of the Vance Inn of the fraternity which includes the following law students: William Anglin, Mayne Albright, Frank Clark, Peter Hairston, William Jarrel, Bill Markham, Alan Marshall, Frank Parker, Vass Shepherd, Louis Skinner, Herb Taylor, and Haywood Weeks.

### Faculty Members

Among the faculty members of this organization are Albert Coates, Frederick McCall, J. C. Radbourne, W. T. Jenkins, and A. C. McIntosh.

Last spring Judge John J. Parker was initiated into the fraternity and at present, Justice G. W. Connor of the North Carolina supreme court is an active member.

Phi Delta Phi is a honorary legal fraternity which selects each year about ten law students to become members. Requisites for membership are good character and high scholastic standing.

## BARR AND WHITE PRESENT PAPERS

Scientific Faculty Members Address Meeting of Elisha Mitchell Society.

Two papers were presented at the meeting of the Elisha Mitchell scientific society Tuesday night. E. S. Barr of the physics department spoke on "Infrared Study of some Inorganic Acids," and A. M. White of the department of chemical engineering addressed the group on "The Power Consumption of Agitators."

Barr told of experiments that he and Dr. E. K. Plyler have been conducting with regard to the light absorption of solutions of acids in water. In the carrying out of these experiments it was first necessary to obtain cells of the solution in a sufficiently thin layer to bring out the effects; these layers, however, must not be too thin. After much experimentation it was found that only layers varying in thickness from 0.1mm to 0.001mm could be used.

### Light Absorbed

The infrared rays of light which had been passed through a prism were then allowed to pass through the layers of the solution. By means of special instruments it was possible to determine the degree of light absorption. By means of the interpretation of this absorption which was located at two different frequencies of radiation which had not previously been discovered, the physicists have been able to throw considerable light on the subject of action of substances dissolved in water and on the combinations which are formed under those circumstances.

White spoke of experiments, various phases of which he and his associates have been interested in for the past four years. This series of experiments has

## MARCH JOURNAL OUT NEXT WEEK

Carl Thompson, Editor of Publication, Announces Contents Of Forthcoming Issue.

The March issue of the Student Journal, official publication of the North Carolina Federation of Students, will be off the press by the first of the week, it was learned yesterday from Carl Thompson, editor of the publication.

Thompson was chosen editor of the publication by the federation president last fall, but because of insufficient funds in the federation's treasury there has been no issue until now.

There will be two issues before the federation's congress in Greensboro this May and both of them will try to present certain problems which may be facing all the student bodies in North Carolina during this year.

### Educational Changes

The March issue will contain an article in discussion of the necessity for changes in the educational system in the state with a presentation of the proposed changes at Chapel Hill and a summary of similar plans in other schools. There will also be a discussion of the University club at Chapel Hill, which was discussed to some extent at the Congress here last spring, with its faults and its advantages presented.

An article explaining and presenting the plan offered by Assistant Secretary McCall at the National Congress during Christmas will also be contained in this issue. Besides these will be editorials and State College comment.

Thompson has not appointed a regular staff to work on the paper but has received requested and offered contributions from students here and at other colleges. The policy of the editor is to present student opinion on current problems so that there may be action taken upon them at the meetings.

## Math Faculty Hears Greenwood at Duke

The entire staff of the mathematics department and all graduate students attended the weekly seminar meeting at Duke University yesterday afternoon. The principal speaker for this occasion was J. A. Greenwood who spoke on "Associated Polynomials and Differential Systems."

There has been a wonderful spirit of cooperation between the seminars of the two Universities and at present they are trying to arrange monthly meetings of this kind, alternating the place of meeting.

## Geologists to Meet In New East Tonight

The local chapter of Sigma Gamma Epsilon, national honorary geological fraternity, will hold its regular weekly meeting tonight at 7:30 o'clock in 416 New East. The program at this meeting will be conducted by the active members of the group.

J. C. Dunlap will speak on "The Nature, Structure, and Phylogeny of the Giant Fossil Daemonhelix." Erik N. Kjellsvig will address the group on "Problems Presented by the Silurian Scorpion, Proscorpius Osborni." All those majoring in geology are invited to attend.

## HARMON SPEAKS TO LARGE GROUP

Obie Goes Radical and Suggests Few Improvements Which Would Benefit Campus.

With Gerrard hall jammed to the rafters with the largest sophomore assemblage of the year, J. Obie Harmon, manager of Swain hall, addressed the class on "Campus Hash."

Harmon offered three improvements on the regular assembly and suggested that it be abolished, or if that were not possible, to provide the audience with rotten eggs, or as another alternative to serve a late breakfast in chapel.

Harmon said that Ed Lanier, self-help secretary here is being far underpaid for the amount of work he does. He added that Lanier held the most important job on the campus next to President Graham's.

### Vote for Best Man

In regard to politics, Harmon told the sophomores to vote for the best man, and to disregard the politicians who were going about the campus saying, "Down with ring politics" because they are just going to try to build a ring of their own.

Continuing to mix his hash, Harmon added, "This honor business, keys and all that, is just a lot of bunk and hokey. Also, I wonder why it is that all the dogs assemble on the Carolina campus, and why somebody doesn't help some poor Playmakers out and buy them haircuts."

Harmon touched on the subject of sportsmanship and stated that the conduct of the Carolina crowd at the Davidson game was all but sportsmanlike.

Before Harmon spoke, Morty Ellisberg, class president, proposed James Craighill as student council representative until the next election. The class approved the appointment. Carl Dupree, elected councilman, had to leave school early this quarter.

## Class Dance Groups Will Meet Together

Simmons Patterson and Charles Woolen, Jr., chairman respectively of the junior and senior dance committees, announce an important joint meeting of these two groups tonight at 8:00 o'clock in 211 Graham Memorial.

The following members are requested to be present: Ken Young, Jack Pool, Tom Hawthorne, Mark Dunn, Harold Bennett, Tom Spencer, George Brandt, John Womble, and Bernard Solomon.

## Professors Visit Prominent Alumnus

Drs. Bullitt, MacNider, Manning and Mangum of the University medical school faculty were entertained at dinner last night at the home of Dr. Fred M. Haynes, who is an alumnus of the University, having been a member of the class of '03, and who is now professor of internal medicine in the Duke University school of medicine.

Dr. Haynes is outstanding in his field. He received an M. D. at Johns Hopkins and studied at European universities. He continued his study at Mayo's clinic in Rochester, Minnesota, and later began the practice of his profession in Winston-Salem.

## FROSH TO HEAR BAND TOMORROW

Allsbrook's Orchestra Will Play Selections in Assembly.

Bill Allsbrook and his orchestra will play at the freshman assembly tomorrow at 10:30 o'clock in Memorial hall, it was announced yesterday by John W. Kendrick, chairman of the class chapel committee.

This musical program, according to members of the assembly committee, has been chosen through the popular demand of the class.

"Soft, sweet music is the boys' specialty," states Allsbrook. The band leader is convinced that the public no longer craves hot jazz and has organized his musicians accordingly.

### Versatile Crowd

Allsbrook's orchestra, which was just organized this year, is composed of eight musicians who play over 20 instruments. The leader himself plays eight instruments, and there are four solo singers in the group.

Playing at Virginia Beach for the last two summers, Allsbrook has composed several numbers for his band. At the first of the year when the newly-formed group wanted a theme song, they composed a melody in about fifteen minutes.

Coach Wallace Wade, Duke's football mentor, will make a speech to the freshman class Monday.

## FEBRUARY ISSUE OF 'REVIEW' OUT

Alumni Publication Introduces New Football Coaches; Has Added Features.

Introducing the University's new football coaches, the February issue of the Alumni Review will be distributed this afternoon, it was announced yesterday from the alumni office.

A. G. Stoughton, editor of the Bucknell Alumni Monthly, writes the article on Coaches Snively and Reed. A summary of the records of the two men is also given.

Telling of Barclay's election to captain of the 1934 gridiron squad, a story points out the large number of men who have turned out for winter football practice.

### Sports Section

In the sports section of the Review is a picture of the basketball team, and a team's record compared with the other conference squads is given. Records of the other winter sports teams are also displayed.

"Heard and Seen around the Well," a regular column, reviews the work of the DAILY TAR HEEL and the editorial policy of its editor. This section also points out that the fall honor roll at the University has increased 15 per cent over the list at the same quarter last year.

### Faculty Men

Dr. John Coriden Lyons, Dr. Ernest Lloyd Mackie, and Dr. William Dougald MacMillan, III, are written up in a column, "Popular Teachers." Space is given over to Dr. Frank Porter Graham's report on consolidation to the trustees of the Greater University of North Carolina.

Sketches of the new alumni officers' lives and pictures are displayed.

The appointment of Benton

## UNIVERSITY CLUB TO PLAN TONIGHT FOR INDOOR MEET

Will Co-operate to Stage Southern Conference Competition Here March 10.

### FAVORS LITERARY AWARD

The chief topic for discussion at the University club meeting tonight at 7:00 o'clock in 214 Graham Memorial will center around plans to co-operate with the Athletic association in conducting the annual Southern conference indoor games here March 10.

The club has agreed to send out letters to all the principal high schools of the state inviting the student bodies to the meet and assuring them of a good time here. The letter will be drawn up tonight.

### Literary Award

Appointments will be made to assist the Carolina Magazine in a plan to award a literary trophy for the best story submitted by a North Carolina high school student.

During this week the club has been active in seeing that the members of the high school boxing and wrestling teams here were accommodated. Access to the Graham Memorial game room was secured for them through the courtesy of Mayne Albright, Union director, and those men who arrived here Tuesday night were admitted to the basketball game.

Club members went by Everett dormitory yesterday and saw to it that the visitors were comfortably situated.

Plans were made last week for special busses to be run for the Duke game tomorrow night, but cars for the trip could not be obtained.

## GLEE CLUB GETS NEW SONG SERIES

Grady Miller, Director, Urges Interested Ones to Join.

Grady Miller, director of the University Glee club, announced yesterday the arrival of an entirely new program of songs which will be used by the club on future concerts and trips.

Because of this new repertoire, all interested students will have an equal opportunity to try out for the club in that the songs will be new to every member. The glee club practices every Monday, Tuesday, and Thursday at 5:00 o'clock in Hill music hall.

Anyone who joins the club at this time will be eligible to make the trip with the club when it goes to Charleston, S. C., in the near future.

### P. U. BOARD TO MEET

The Publications Union board will meet this afternoon at 2:00 o'clock in 209 Graham Memorial. The presentation of a report on publications salaries and further deliberation on salary revision will be among important matters to come up at today's session.

### COUNTRY DANCERS MEET

The Carolina country dancers will meet tonight at 8:30 o'clock in room 123 Peabody. This meeting will also be open to all groups which have started, and to any others interested in becoming better acquainted with these English and American country dances.
