The fraternity average proved to be 2.95; the upper-classmen average, 3.02; and the freshman average, 3.35.

DI SENATE FAVORS FOOD-DRUG QUERY

New Plan of Debate Produces Keen Competition in Debate On Tugwell-Copeland Bill.

Debating for the first time under a new system of floor organization, the Di senate in session Tuesday night passed by a vote of 11-10 the bill: Resolved, that the Tugwell-Copeland food and drug bill should be made a law of the United States.

The plan of debate which was experimented on at the meeting is one in which a keen feeling of group competition showed itself to be felt. The senate demonstrated a spirit which was entirely lacking under the old system of expression of individual opinion with no group backing of a definite nature. The debate proceeded under the leadership of Ernest Hunt for the affirmative and Mason Gibbs for the negative.

Jamboree Days

The senate passed a motion by a unanimous vote that the group co-operate with the University club in carrying forward a student-faculty jamboree day on Wednesday, May 16. It was announced that William R. Eddleman had been appointed to serve the senate as representative on the debate council next year.

Announcements were also made concerning two proposed debates for the society. The query for the Bingham debate, annual contest between the Di and Phi each year during the commencement program, was reported to be; Resolved, that the North Carolina sales tax should be repealed. Tryouts for this debate will be held in the near future.

The second debate for which tentative plans were made known is a debate with one of the literary societies at the Woman's College in Greensboro. The senate passed a motion that this debate be held on Monday, May 14.

GRAHAM SPEAKS AT INAUGURATION OF ELECTED MEN

New Campus and Class Officers Take Up Duties at Inaugural Ceremony Yesterday.

BARNES MAKES ADDRESS

"As long as the student body recognizes intelligence as a factor to be considered in selecting campus officers, student government is safe," stated President Frank Porter Graham yesterday in freshman assembly after the formal induction of campus leaders for the coming year into office.

"Student activities should not supplant or supplement the classroom, but should reinforce it in the main purpose of college life," stated Dr. Graham.

Pointing out student leaders during the past years who were Phi Beta Kappa members and that the newly elected editors of two of the campus publications had made the second and third highest standing in scholarship in their class, President Graham spoke of the relation of good scholarship on leadership.

"University officials feel that student activities are vital, live, vivid with student personalities, and present great opportunity for development," said Graham, "but we feel that activities should not push the classroom aside."
