Each fraternity will have a special section set aside for the use of its undergraduates and visiting alumni.

Saturday is Deadline

In order that the Athletic association may know how many seats to reserve for each fraternity, each lodge is asked to obtain from the Athletic office today enough reservation cards for all its alumni.

These cards are then to be mailed out immediately so that they may be received by the Athletic association on or before this Saturday, thus giving sufficient time for the necessary preparations to be made.

Old Auntie Pope Keeps Alive Traditional Art of Soap-Making

Once Universal Custom of Manufacturing Soap in the Home Has Become Almost Extinct Because "Folks Is Got Too Proud These Days—They Gits Boughten Soap," Auntie Says.

Making soap by hand, the way our grandmothers had to do, is one of the regular chores of old Auntie Annie Pope, of the colored section of Chapel Hill. The process of making one's own soap is almost unknown today, but this old Mammy employs it every time her supply gives out. The soap is made from the accumulations of grease and fat that she saves from her cooking, combined with Red Devil Lye. She says that she likes to make it, but that "folks is got too proud these days to make soap—they has to go git boughten soap."

When she makes it she gets a large iron tub and builds a fire under it right out on the side-

walk. She stirs the tubful mixture with a stick as she boils it. After it boils, she allows it to cool and then cuts it up into cakes resembling Octagon soap.

Soap-making in private homes is an industry almost extinct. Very few people go to the trouble of making the soap they need—in fact, very few people know it can be done. The process is a most interesting one, and one that draws a large crowd to stand around and watch. Soap-making time used to be like hog-killing time, said Auntie Annie, as she stirred the golden-brown mixture. She was very proud of her ability to make soap, and claimed that she would match it against anybody's brand.

SPAIN MOBILIZES RAIL EMPLOYEES

Hard-pressed Spanish Government Musters All Available Forces to Break Strike.

Madrid, Oct. 9.—(UP)—The besieged Spanish government today ordered the mobilization of soliders of all railway employes between the ages of 20 and 38 in a bold attempt to break the backbone of the revolutionary strike which, it has been estimated, has killed 400 and wounded 1,500.

A Spanish legion from Morocco, 3,000 strong, is enroute to the mainland to join the continental forces.

Firing in Streets

Beginning at 5:00 o'clock this afternoon discontented masses of Madrid indulged in a wave of bitter attacks against authorities, pouring a murderous hail of bullets upon the streets from roof tops causing sudden disorder.

Apparently the disturbances were directed by master minds and guerrilla strategists among the rebels.

Meanwhile the government is gravely concerned over reports of disrupted communications from northern sections.

The general strike which is proclaimed as the forerunner of a socialist-communist revolution continued to spread, paralyzing industry at Seville, Granada and Coruna while trade in Madrid is at a standstill.
