STUDENT GROUPS TO URGE WORLD COURT ENTRANCE

Foreign Policy League, Di, Phi, and 200 Churchgoers to Wire U. S. Senators from N. C.

WILL APPROACH GRAHAM

By unanimous vote the Foreign Policy League last night moved to telegraph North Carolina Senator R. R. Reynolds to cast his vote in favor of American adherence to the World Court.

The move followed a discussion in the league on the World Court question. The group voted unanimously that the United States should join the international tribunal.

Invite Graham's Co-operation
The group also voted to invite President Frank Porter Graham to add his name to the wire.

Along with this action by the league were similar resolutions by the Di, Phi, and by 200 churchgoers in Chapel Hill. All of these organizations are writing North Carolina senators, asking them to vote in favor of the World Court, Agnew Bahnson said last night.

Discussion on the World Court question began with a presentation of the historical background by Don McKee. He was followed by Virgil Lee, speaking for the Di, and by Francis Fairley, speaking for the Phi. Phillips Russell, recently returned from Brussels, and John Schulz both spoke extemporaneously on the same topic.

Not a bit of opposition was voiced by the 25 or more interested persons who attended last night's meeting.

At the same meeting President Agnew Bahnson announced the receipt of a letter from Sen-

INDUSTRIAL SOUTH WILL SEE CHANGE, SAYS JOURNALIST

J. G. Stahlman Tells Press Institute of Industrial Revolution in South in Near Future.

W. D. NUGENT ALSO SPEAKS

An industrial revolution in the south in the near future which would be the result of "successful experiments in the manufacture of newsprint from southern slash pine," was predicted here last night by James G. Stahlman, publisher of the Nashville, Tenn., Banner, and a former president of the Southern Newspaper Publishers Association, in an address before the 11th annual sessions of the North Carolina Newspaper Institute.

Stahlman is a member of a committee from the Southern Newspaper Publishers Association, of which he was a former president, that is sponsoring the establishment of a mill in the south for the manufacture of newsprint.

He said capital for the venture is being raised rapidly and that operation of the mill will begin next January.

Project Profitable

This project, which is pretty sure to be successful, will eventually result in bringing to the south \$170,000,000 which now goes to Canada for newsprint made from spruce pine. Seventy per cent of all newsprint consumed in America is now produced in Canada, he said.

Stahlman told of the experiments in making newsprint from southern pine which Dr. Charles H. Herty, formerly head of the chemistry department at the

Russell Hopes to Establish Permanent Society Against War at University.

"The World Peace Conference was to me an inspiring and tremendously interesting experience," declared R. Phillips Russell after returning from the International Student Anti-war Conference which he attended in Brussels, Belgium.

"Of course, everyone will want to know what good will come of the conference," Russell went on to say. "The good effects, if they are to follow, will depend absolutely upon what the delegates do in carrying out the program which they adopted."

To Make Report Soon

Russell stated that an American committee had been formed for the prime aim of organizing students throughout the nation into local groups to fight war and fascism. The delegate will soon present a report on the conference to the University and will assist in laying the plans for a permanently active anti-war society on this campus. Such a society, Russell explained, would not only seek to insure peace, but would strive to discover the basic causes of war and fascism.

Russell explained that the underlying purpose of the world conference was to unite students of all political and religious creeds, students of all races and nationalities in a common program against war. The delegate said that though all agreed at the conference that war must be prevented, there was some difficulty in coming to a mutual agreement upon a large scale anti-war program.

The numerous committee meetings held for open discussions on specific problems of anti-war work did much to overcome this difficulty, Russell reported. These smaller forums

FORTY-ONE MAKE ALL A's

There were 67 in the commerce school compared with 66 in that school last year, 31 in the engineering school compared with 34 last year, 9 in the pharmacy school compared with 15 last year, and 14 special students.

Juniors Lead

In the class divisions, the juniors led by placing 95 students on the list against 98 last year. The seniors placed 77 against 82 last year, and the sophomores, 77 against 75. There was a net loss of six students on the honor list compared with the list last year among the upperclassmen.
