CHAPEL HILL, N. C., WEDNESDAY, FEBRUARY 20, 1935

NUMBER 110

PHI ELECTS NEW OFFICERS; SENATE AGAINST LYNCHING

Frank McGlenn, Harry McMullan, Wilborn Davis, Leighton Dudley Are New Officers.

ALBERT ELLIS IS SPEAKER

Seven new officers for the spring quarter were elected at last night's meeting of the Phi assembly. Albert Ellis was elected speaker three weeks ago.

Additional officers, who were elected last night, are: speaker pro tem, Frank McGlenn; sergeant-at-arms, Harry McMullan; reading clerk, Wilborn Davis; and assistant treasurer, Leighton Dudley.

Committee

In addition, James Van Hecke, Drew Martin, and Billy Seawell were elected members of the ways and means committee. Van Hecke was named chairman.

The assembly initiated four new members: John Bowles, C. S. Trexler, Jesse H. Ott, and C. S. Shoaf.

The bill, Resolved, that the school of engineering be moved to Raleigh was defeated by an overwhelming majority, after several representatives condemned such an action.

The bill providing that the Phi assembly support the Carolina Political Union was tabled until additional plans as to the organization and policies of the Union are further developed.

Di Senate

The Di Senate passed 15-6 the bill, Resolved, that the Di Senate go on record as favoring the Costigan-Wagner anti-lynching bill. Senator Yeatman introduced the bill, speaking in favor of the affirmative. Senators Weaver and Gibbes led the negative arguments.

Tom O'Brien was proposed and accepted as a new senator, and Stephen H. Mazur's application for reinstatement was approved.

Senator Kind reported that the freshman debate with the Phi assembly will take place March 1, with the subject being, Resolved, that divorce is a social asset. Tryouts for the debate will be held Tuesday night.

Chemistry Fraternity Will Furnish Guides For Venable Exhibits

Chemistry Building Tours Will Begin at Room 171.

Through the efforts of the local chapter of Alpha Chi Sigma, national honorary chemistry fraternity, Carolina students will be given special guides to carry them through Venable today from 11 a. m. to 1 p. m.

The exhibit tour will begin at room 171 in the chemistry building and several tours will be conducted during the open hours. Students will act as guides to the various exhibits.

As partial remuneration, the chemistry department will serve a special "chem" lemonade which they boast, "contains no food value, no vitamins, no lemons, no sugar, and no ade."

No Co-ed Tea

The regular weekly co-ed tea will not be held this afternoon since the co-eds will assist with the student-faculty reception at Graham Memorial. The teas will be continued next week.

President Approves Celebration

Expressing the hope that student-faculty day will become a permanent institution at Carolina, President Graham gave, in a statement to the DAILY TAR HEEL last night, his complete approval of the purpose and program of the day.

The statement reads:

"I hope and believe that student-faculty day is to be a happy occasion which will establish the day on the high plane of a customary University institution along with University Day and Commencement Day. We have registration day, football and athletic days, proms, Germans, fraternity initiations, Phi Beta Kappa night, 'tapping night,' campus-wide elections, the Dogwood festival, the dramatic festival, high school day, not to mention exams and whatnot in the colorful panorama of University life.

"Today we have the inauguration of a day around the two main constituents of our University life, the students and the faculty. They are what it is all about. In them the University, with all its traditions, associations, and opportunities, lives, moves, and has its being. In sharing more together, the students and the faculty make new traditions and open wider opportunities of rich experience in the good things of this place on this our first student-faculty day."

CONGRESS HEARS VET BONUS PLAN

Proposal Calls for Payment in Negotiable Coupon-Bonds.

Washington, Feb. 19.—(UP)—A bonus proposal that may eventually be the basis of a compromise between the militant war veterans and the administration's forces was introduced into Congress today.

The measure calls for payment, in bonds. It was submitted by Senator Millard Tydings (Rep., Maryland). The plan is to exchange the \$2,300,000,000 in adjusted service certificates for negotiable coupon-bonds, bearing three percent interest.

Veterans with \$1,000 adjusted service certificates are to be given the privilege of exchanging it for a bond with face value of \$775. They would receive at once, \$15.75 in cash and if they hold the bond until 1945 they receive \$209.25 in interest.

MILITARY PREPAREDNESS

Washington, Feb. 19.—(UP)—Warning that the United States favors adequate military preparedness was issued today when a \$378,699,488 army supply bill was introduced into the House of Representatives.

The bill provided for the purchase of 547 new airplanes; strengthening the national guard; and increasing the regular army. These provisions were entered under the direction of President Roosevelt.

MUSICIANS PLAN PROGRAM TODAY

Noon Organ Recital by Kennedy; Glee Club in Evening.

A short concert by the University Symphony Orchestra at the convocation in Memorial hall at 10 o'clock this morning will begin the varied program to be offered throughout the day by the University music department.

Professor Nelson Kennedy will be featured in a demonstration-recital on the organ in Hill music hall at 12 o'clock. This will be followed by a trip through the organ loft.

The Glee Club will perform during the evening program. The department has arranged an exhibition in Hill hall consisting of books, music, and instruments.

Special arrangements have been made for an exhibit of medieval music in connection with the general exhibit in medieval history.

The library of records, piano rolls, and other equipment of the department will be open for inspection throughout the day.

ENGINEERS' BALL

The engineers' ball will be given at the Carolina Inn, beginning at 9 o'clock Friday night instead of in Bynum gym as formerly stated.

Jack Wardlaw will play for the affair. Tickets are priced at \$1.50 and will be available to the public after tomorrow.

Political Union

No Discussion at Meeting to Be Held Next Week.

Indications point to a record forum in attendance at the first meeting of the Carolina Political Union which will be held some time next week.

A large number of students have announced their intentions of participating in the union discussions this spring. At the first meeting, no discussion will be held, but the organization will be completed and an outside speaker will give a political address.

Plans in the form of proposals have been drawn up by the temporary committee appointed by Phil Hammer, temporary chairman, and will be presented for the consideration of the group at this first session.

METHODISTS GIVE BROADCAST TODAY

Music Will Feature Fourth Regular Religious Workers Council Radio Program Today.

The regular Wednesday afternoon radio broadcast from station WDNC in Durham, sponsored by the Religious Workers Council, will be conducted today at 2 p. m. under the direction of the Methodist church.

The Methodist choir under the direction of Lee Sistare will sing several old hymns, a quartet from the choir will render a number especially arranged for the occasion, and Miss Isabelle Buckles will play a violin solo, for the half-hour program.

Scripture Reading

The Reverend W. S. Jenkins of the church will complete the program with a scripture reading and prayer.

Today's broadcast follows similar ones by the University Y. M. C. A., the Presbyterian and Baptist churches.

Local church and Y. M. C. A. leaders compose the Religious Workers Council which was recently organized here. Besides initiating this present series of radio broadcasts, the council recently brought the famous Chinese doctor, T. Z. Koo, to Carolina.

Physics Department Has Varied Exhibits

The physics department will feature displays of mechanical, optical, and electrical apparatus for student-faculty day. They are located in the basement and on the first floor of Phillips hall, and have been arranged under the direction of Dr. K. H. Fussler.

A ping pong ball suspended on an air jet, a loop-the-loop device, and a "whirlwind tube" with straboscopic effects are the important features of the mechanical display.

In room 154 optical effects including spectra of various elements and interference fringe will be shown. In this connection there will be a demonstration of spectrographs and other optical equipment.

Dr. Stuhlman will demonstrate X-ray apparatus, showing the human anatomy with the aid of fluorescent screens. He will display a group of X-ray photographic plates and models explaining crystal structures.

The department requests that those wishing to visit the exhibits apply at room 201 Phillips for permission.

Dr. F. P. Graham To Open Student-Faculty Festivities

Today's Program

10 a. m.—General convocation in Memorial hall.

1 p. m.—Students take faculty members to lunch.

2:30 p. m.—Football game in Kenan stadium.

5 p. m.—Open house at fraternities.

7:30 p. m.—Basketball game with South Carolina at Tin Can.

9 p. m.—Stunt program and jamboree in Memorial hall.

Exhibits of the various departments of the University will be on display all day in the following buildings on the campus: Graham Memorial, Davie hall, South building, Venable hall, Bingham hall, Phillips hall, the library, the infirmary, Hill Music hall, Howell (pharmacy) hall.

Playmakers theatre, Playmakers scene shop, Proff Koch's office (112 Murphey), New West, Alumni building, Y. M. C. A., Peabody hall, Bynum gym, Manning hall, and New East.

Engineering Labs To Be Open Today

As part of the student-faculty day program the engineering school will throw open to the public all its laboratories. As much of the equipment as it is feasible to put in operation will be demonstrated.

Perhaps the most unique will be a demonstration of the forces acting on a model of the Chrysler automobile as shown by the small wind tunnel. This will take place in the laboratory of the mechanical engineering department.

For all the radio-minded students of the campus it will be of interest to know that the radio room will be open and in operation.

The large 200,000-pound testing machine will be operated to demonstrate a test of a large steel beam, and in the electrical laboratory will be an electrical display of the 50,000-volt high tension circuit.

The demonstrations already mentioned are the more important ones that will take place in Phillips hall in the department laboratories of mechanical, electrical, civil and sanitation engineering.

LIBRARY EXHIBIT

Today the University's school of library science will have on display the work done in their cataloging, reference, and book selection classes.

In the study hall on the third floor of the library here are books arranged that might belong to any university "browsing" room. Also on display in the same room will be works of Hungarian art and literature lent to the University library by the Hungarian-American Society of New York.

Literature on library work and on the library school will be available to students who may be interested.

At the circulation desk, as a regular part of the library student-faculty day display, will be an exhibition of books written by members of the faculty in addition to work done by the various University departments.

KEMP D. BATTLE TO GIVE ADDRESS

Instructions for Entire Program Will Be Given at Convocation This Morning.

WEATHERS ALSO TO SPEAK

Speaking in Memorial hall at 10 o'clock this morning, President Frank Porter Graham will officially open the program of the first student-faculty day at the University of North Carolina.

Kemp D. Battle of Rocky Mount, speaking in behalf of the alumni, and Student Body President Virgil Weathers, speaking as the representative of the students, will be the other speakers at the general convocation, where instructions as to how the rest of the program will be carried out will also be given. Everyone connected with the University is expected to attend the convocation.

Welcome

President Graham's address will be one of welcome to students, faculty, alumni, and friends. Battle, former president of the North Carolina Bar Association, University trustee, and a grandson of Kemp Plummer Battle, president of the University from 1876 to 1891, will tell some of the achievements and traditions of the University. Weathers will give the welcome address of the student body to faculty, alumni, and guests.

Free time between the convocation and luncheon, as well as throughout the rest of the day, will be spent in visiting the numerous departmental exhibits in Graham Memorial, Davie hall, South building, Venable, Bingham, Phillips, the library, the infirmary, the music building, Howell, the Playmakers Theatre, the Playmakers scene shop, New West, Alumni and the "Y."

At luncheon every professor and instructor will be entertained by a student or group of students.

The feature of the afternoon program will be the football game in Kenan stadium between two teams picked from the winter gridders by Coach Carl

Alleged Mill-Bombers To Plead Own Defense At Mass Meeting Here

Burlington Prisoners Speak in Gerrard Hall Tomorrow.

Defendants in the Burlington dynamiting case will plead their own defense before a mass meeting of students and townspeople in Gerrard hall at 8 o'clock tomorrow night.

Several of the men accused of having bombed the E. M. Holt plaid mills during the textile strike last fall will tell their side of the story tomorrow. The group will be headed by Chief Defendant John Anderson.

Last Sunday a discussion on the same topic was led by the Rev. James Weaver of Burlington in the Methodist church here.

The latter part of the meeting tomorrow night will consist of open forum questions from the floor. The meeting is being conducted by the student committee for the defense of the Burlington prisoners.
