

## Washington Briefs

### Stock Trading Restrictions

Washington, April 16.—(UP)—The country's stock exchanges tonight received from the federal government 16 new rules designed to restrict excessive trading by brokers and to discourage manipulation of prices. The rules issued by the Securities Exchange Commission would prohibit excessive trading by members of the exchanges, firms and partners trading for their own account, and specialists.

The specialists are to restrict their own trading to the security in which they specialize. Members are forbidden to make purchases at successively higher prices or to sell at successively lower ones in order to create a misleading appearance of activity.

### Baning Bill

Washington, April 16.—(UP)—Roosevelt tonight struck to safeguard the section of the new Baning bill which creates a virtual central authority by increasing the broad powers of the Federal Reserve Board.

The administration informed Senator Carter Glass, Democrat from Virginia and one of the bill's most persistent critics, who will guide the bill through the Senate, that it wants the bill passed as a whole, not in two measures as Glass desires.

### Munitions Investigation

Washington, April 16.—(UP)—The Senate munitions committee, unheeding informal pro-

## DI, PHI WILL ACT JOINTLY ON BILLS

Daily Tar Heel Editorial Prompts Action; Senate Condemns 8 O'clock Classes.

The Di Senate started something new last night.

Acting on the suggestion of a DAILY TAR HEEL editorial that the Di and the Phi should act as a bi-cameral legislative body in the consideration of certain bills, the senators almost unanimously approved a motion that a committee be appointed to meet with a similar committee from the Phi to draw up plans for the passage or rejection of important bills in true American legislative fashion, by both bodies acting consecutively.

### Committees Appointed

A committee composed of Senators Blackwell, Eagles, Rawls, and Gibbs will study the proposed new plan jointly with a Phi committee of Representatives Daniels, Rabb, Peterson, and Parker. In addition to appointing the committee, the assembly also passed a resolution promising support for the plan.

Hot and often personal discussion preceded the passage by a close 8-6 vote of a bill condemning the student welfare board's plan providing for a class schedule beginning at 8 o'clock.

### Attendance Drive

In the other action of the night the Senate took steps to improve attendance of members, and voted down after hasty and superficial consideration a proposal for the substitution of a lethal gas chamber for the electric chair in the punishment of capital offenses.

## WARBASSE TALKS HERE TOMORROW

Sociologists to Address Seminars, Gerrard Audiences, Tomorrow and Friday.

Dr. J. B. Warbasse, New York surgeon turned sociologist, will continue the Human Relations Institute here tomorrow and Friday nights in addresses at 7:30 o'clock in Gerrard hall. The topics of his talks have not been announced.

Dr. Warbasse, who had to cancel an earlier engagement to speak on the Institute program, will also be present at a number of seminars, where he will lend the voice of authority in the two fields of surgery and sociology.

President of the Co-operative League of the United States of America, he is also a member of the consumers' board of NRA and of the International Co-operative Alliance, and has written books on medical sociology, co-operative democracy, and a number of other related subjects.

## U. N. C. DEBATERS CONTEST BATES

Appreciative Audience Hears University Team in Clash With Maine Deputation.

An appreciative audience in Gerrard hall last night witnessed a debate team in action representing Bates College, a school that takes its debating as seriously as most schools take football.

The interest of the entire student body of this Maine college is centered on their team which visited Chapel Hill last night.

The "Down Easters," Bond Perry and W. J. Norton, took the negative of the query, Resolved, that the several states should adopt legislation providing to the citizens at nominal costs general medical care and the services of hospitals and clinics. In supporting the negative of this question the Bates team took the side least preferred by Carolina.

### U. N. C. Team

Don Seawell and Norman Kellar upheld the affirmative of the query for Carolina.

Proof of the interest shown in debating at Bates is evidenced by the fact that teams from there have debated in England on three different trips, and made one round-the-world tour. On this, their first trip south of Washington, they have appeared at Rutgers, N. C. State, Wake Forest, Winthrop College, Rollins, Emory University, and the Universities of Florida, Miami, Tampa, Georgia, and South Carolina.

### A.B. Freshmen to Meet

Dean A. W. Hobbs of the college of liberal arts will be the only dean to meet his freshmen today. Hobbs will speak in Gerrard hall at 10:30 o'clock.

## Finjan Meeting

Editor-elect Nelson Lansdale has called a meeting of all those interested in working for the campus humor publication in the Finjan office in Graham Memorial at 9 o'clock tonight. All members of the staff of the present Finjan who expect to work under the new editor are also requested to be present.

## LIBRARIANS PLAN NEW CURRICULUM

Regular One-Year Course Offered in Summer Sessions.

Beginning in 1935 the school of library science of the University will offer its regular one-year curriculum in consecutive summers, making it possible to complete the work and secure the degree of Bachelor of Arts in Library Science in three summers, according to an announcement by Susan Grey Akers, acting director.

"The summer session courses are offered especially with a view to enabling school librarians and teacher-librarians to secure a full year's curriculum in library science. Special attention will be given to the application of these fundamental courses to school libraries," the announcement said.

"The first term there will be courses in the principles of book selection, book selection for high school libraries, and cataloging and classification. The second term these courses in principles of book selection and book selection for high school libraries will be continued and a course in reference and subject bibliography will be offered. Informal conferences with individuals or groups of students having similar problems will be scheduled both terms for the consideration of specific problems of the libraries in which the students work."

The courses will be open to students who are college graduates, can meet the entrance requirements of the school, and are candidates for the degree; and to mature students who wish to enter certain courses as special students.

## MONEY BILL FIRM BEFORE ASSAULTS

Senate Defeats New Legislation; House Approves Section.

Raleigh, April 16.—(UP)—The Senate in a committee of the whole today refused to reconsider its vote which replaced the exemptions of basic foodstuffs in the sales tax schedule of the revenue bill.

The effort of Senator Steele, Iredell county, to place a corporate excess tax on foreign corporations resulted in failure.

The amendment would have placed a tax of \$1.50 per thousand dollars on corporate excess figures at ten times net income.

The House passed the revenue machinery bill, adding livestock to \$300 personal property exemptions.

The House tabled a bill to transfer the duties of the commissioner of banks to the commissioner of public utilities, and voted down a bill directing the state treasurer to pay state employees portion of their salary which was withheld in 1933.

## VAN DEUSEN SUCCEEDS AS NEWMAN CLUB HEAD

At a meeting of the Newman Club last night Jean Van Deusen of Brooklyn, N. Y., took over the office of president left open by the resignation of Leo Manley. Leslie Lane was elected vice-president to take President Van Deusen's place.

Plans were made for a banquet to be held on May 23 to celebrate the silver jubilee of Father Morrissey. Father Morrissey discussed Holy Week and his course on ethics held Wednesdays in 101 Murphey hall.

## PHARMACY SCHOOL WILL HAVE DANCE

Freddy Johnson's Orchestra to Play for Annual Affair to Be Given Friday Night.

With Freddy Johnson and his orchestra furnishing the rhythm the annual pharmacy school dance will begin Friday night in Bynum gymnasium at 9 and close at 1 o'clock.

H. T. Murrell of Durham, president of the pharmacy school, will be the dance leader and will have as his guest Miss Virginia Wimbish of Martinsville, Va.

### Assistants

He will be assisted by Miss Mary Alice Bennett of Bryson City, senior class president of the school, who will have as her escort Hugh Davis of Winston-Salem; H. C. Reaves of Raeford, president of the school's junior class, with Miss Mary Monroe, also of Raeford; J. W. Watson of Selma, president of the pharmacy school sophomore class, with Miss Eloise Gibbs of Columbia.

The members of the dance committee are: H. T. Murrell, chairman, W. F. Matthews, F. A. Holt, J. D. Mitchell, H. O. Thompson, and Miss Maggie Moore.

## LEAGUE TO BEGIN NEW FORUM PLAN

Group to Inaugurate Des Moines Program; MacFarland to Lead Discussion.

The program committee of the Foreign Policy League met yesterday morning with Chairman Joe Barnett, drew up plans for future meetings, and passed on a new type of forum leadership known as the Des Moines plan.

The league will meet tomorrow evening to elect officers for the coming year. A speaker is also being secured to present the significance of the contemporary Stresa Conference, now being held in Europe.

Next week George MacFarland will lead the group and speak on "Can America Remain Neutral in Event of War." This is an attempt to follow up the problem presented by Dr. Polanyi in his recent visit to the campus.

### New Plan

At this meeting the Des Moines plan of forum leadership will be inaugurated.

The plan provides that the first ten minutes of the meeting be devoted to outlining the outstanding current events of the preceding two weeks. The principal speaker then delivers the topic of the evening, to be followed by questions directed at the speaker by a prepared panel of questioners.

"Because this plan is a new idea," stated Joe Barnett, "and because it is being tried by college organizations over the entire United States, members of the league would do well to give it a fair trial. Also, members of other campus groups might find it suitable for use in their forums."

### HAMMER CALLS MEETING

The following men are asked to meet with Phil Hammer this afternoon at 4 o'clock in the Grail room in Graham Memorial: Bill Davis, DuPont Snowden, Bob Page, Earl Wolslagel, Willis Harrison, and John Schulz.

## First Trans-Pacific Air Service Flight Begins

Alameda Airport, California, April 16.—(UP)—The Pan-American Clipper, America's bid for commercial air supremacy of the Pacific, roared from here today for Honolulu, 2,400 miles away.

The 19-ton ship is making the first of a series of flights intended to blaze the trail for a California to China airmail and passenger service.

The ship, carrying six men, made a perfect take-off. In command is Captain Edwin C. Musick.

## PROUTY SUPPORTS METEORIC THEORY

Geologists Survey Coastal Plain; Find New Evidence on Lake Basin Origins.

Evidence supporting the meteoric theory of lake basin origins in portions of the coastal plain areas of the Carolinas has been revealed by Dr. W. F. Prouty, head of the geology department of the University.

Dr. Prouty, with two other geologists from the University, Dr. G. R. MacCarthy and Dr. H. W. Straley, engaged in a field investigation of the elliptical depressions in the earth in the area surrounding Florence, S. C., and in the White Lake section of this state.

### Findings Published

A geological and geophysical reconnaissance of the lake basin portion of the coastal plain conducted by Dr. Prouty and others in 1933 resulted in much evidence to support the meteoric origin theory being produced. The findings of this expedition are published in the current issue of the "Journal of Geology." Additional data was secured in the more recent investigation.

Magnetometer investigations showed remarkably high magnetic areas in association with each of the elliptical depressions in the lake country of southeastern North Carolina. Magnetic areas in the Myrtle Beach area of South Carolina proved to be well defined though smaller, Dr. Prouty has disclosed.

Work done by the magnetometer seems to justify the conclusion that, in general, a magnetic high is found a short distance east of the southeast end of the elliptical bays and basins. This makes it reasonable, and probable, Dr. Prouty believes, that the basins were formed by the fall of a meteoric body, and that this meteorite is buried at a great depth or has been deflected out of its original course.

### New Office Hours

Official office hours for all administrative offices are 8:30 o'clock until 4:30 o'clock. This schedule will continue through the summer until September 15.

### Class in Ethics

The Reverend F. J. Morrisey will hold his regular weekly class in moral and social ethics in 101 Murphey at 12 o'clock today.

### Co-ed Election

Run-off elections for president and secretary of the woman's Athletic Association will be held today between the hours of 9 a. m. and 5 p. m. Candidates for president are Frances Caffey and Katherine Quigley; for secretary, Sally Page and Jean Van Deusen.

## NEW PHI SPEAKER MAKES PROPOSAL FOR ALTERATIONS

Says Time Has Come for Radical Change, Complete Reorganization, Reconditioning.

### TO HAVE SLOGAN CONTEST

A new era for the Phi assembly appeared in the offing last night as Speaker Albert Ellis prepared to sweep tradition aside in reorganizing and reconditioning the ancient organization.

"The time has come to make a radical change," Speaker Ellis stated in an interview immediately before the meeting in New East. Listed among the changes the new speaker proposes to make are the allowance of smoking in the assembly hall, encouragement of co-ed membership, and immediate provision for social functions.

### Co-ed Speaker—Once

"Five years ago," continued Speaker Ellis, "a co-ed was elected to the speakership of this assembly."

To further the work of reorganization and reconstruction, Ellis appointed a rehabilitation committee composed of Wiley Parker, chairman, Drew Martin, and Stuart Rabb. This committee will recommend further changes next week.

In addition, the assembly voted to have a contest to select a new Phi slogan. All students may participate except officers of the assembly, who will act as judges. The prize for the best slogan will be a number of passes to the Carolina theatre. Definite rules will be announced by the committee tomorrow.

The assembly voted unanimously to co-operate with the Di Senate in establishing a bi-cameral.

## LARGE AUDIENCE HEARS RUSSIANS

Gaily-Dressed Choir Wins Fine Reception in Presenting Brilliant Program.

An enthusiastically applauding audience in Memorial hall last night heard the Russian Symphonic Choir respond almost magically to the direction of Basil Kibalchich in rendering their native songs.

The choir was gaily attired, the men clad in red tunics trimmed with gold braid, and shod with boots, while the women wore sky blue bodices, red skirts and ticorras.

### Three-Fold Program

Numbers on the program were divided into three groups, religious, classic, and folk music. The last group received the most enthusiastic applause, especially the director's arrangement of the Czechoslovakian song, "A Lament," which Misses Helen and Effie Stetzenko rendered as a duet.

Vechislav Mamanoff's rendition of the Aria from the opera "Halka," brought the powerful tenor forward for two bows. The audience was also favorably impressed by the number "Bandoura" in which the choir imitated the primitive guitar-playing of the Russian peasants.

The last number on the program, "Back from a Spree," by Dargomijsky, led the audience to applaud for two encores. Director Kibalchich then retired from the stage with an expressive shrug of finality.
