Judge Continues Judgment on
Condition That Allgood and
Saunders Pay All Costs

J. A. JONES ACQUITTED

By DON BECKER

The Tar Heel Cafe case came to trial in Chapel Hill recorder's court yesterday morning. Judge L. J. Phipps continued judgment for 30 days on E. C. Allgood and S. W. Saunders, two of the proprietors, on condition that they make good bad checks and meal tickets and pay court costs. They were charged with passing bad checks and obtaining money under false pretense.

A third proprietor of the defunct eating establishment, young J. A. Jones, was acquitted of the charge of obtaining goods under false pretense. Judge Phipps said he could see no evidence of fraud in the testimony against Jones.

The Tar Heel Cafe had closed its doors last February 19, the proprietors leaving town. Following their apprehension, Saunders and Allgood were re-

Former Campus Politician Voices Endorsement Of Anti-War Strike

Taylor Bledsoe of the University's class of 1926, who is now an attorney in Asheville, voiced his hearty support of tomorrow morning's anti-war strike when he was on the campus Sunday.

Bledsoe recently had a series of articles in the Carolina Magazine on his political activities here when an undergraduate. He was president of S. P. E. fraternity and a member of the Debate Council.

Approves

"I thoroughly approve of the anti-war strike," he said Sun-

day, "which I understand will be held at the University on Wednesday. It is very clear that if war is to be stopped youth will have to do it. The old timers are ever ready to declare a war that youth must fight in. If the men of military age let it be known without equivocation that they will not fight on foreign soil it is my opinion that no political leader would be so silly as to take us into war.

"Owing to the peculiar geographical position of the United States it cannot and will not be

Students Will Gather Tomorrow For Anti-War Demonstration

New YWCA President
Holds First Meeting

Makes Plans for Representation
At Blue Ridge Conference

Plans for raising money to send representatives from here to the All-Southern Conference, meeting in Blue Ridge this summer, were discussed. This conference begins June 11 and lasts for 10 days, being a union meeting of the Y. M. C. A. and the Y. W. C. A.

A training conference, preparatory to the larger one this summer, is to be held next weekend, beginning Friday afternoon. This is a state conference and will be attended by the new officers all over the state. The new officers and other members of the local organization will be present at this meeting.

Plans were also made last night for a marshmallow roast next Monday evening.

PHILOSOPHER HITS TEACHING METHOD

Dr. Horace Williams, Oldest Fa-
culty Member, Holds Pessi-
mistic View on System

By ALLEN MERRILL

"I believe as thoroughly as possible that the educational system is failing," stated Dr. Horace Williams, retired head of the philosophy department and oldest member of the University faculty, to the freshman group in yesterday morning's assembly.

This failure may not be attributed to the students, according to Dr. Williams, but to the process itself. An "A" signifies in most courses the memorization of facts and accumulation of relatively unimportant data. "What are you going to do with it after you make it. I think a student ought to be too busy to make an 'A'. Let the details of a course go, don't memorize it, master it."

All students, says Dr. Williams, have either an arithmetical or algebraic attitude. One student with the arithmetical attitude contends that five and two are seven, attempting to contradict another who contends that four and three are positively seven. Obviously both are right, but they have based their conclusions on the dictation of custom and authority rather than their own intelligence. "There's not a man in this room who knows what a 'one' is except me. And there are two professors here." The two professors were Dean House and Dean Bradshaw.

The student with the algebraic attitude, continued Dr. Williams, looks into equations and sees their "why," not using the memory but intelligence. "I think no course in the curriculum should be offered unless it is to be presented algebraically."

There will be no parade tomorrow as formerly planned. There will be, however, numerous posters and some tableaux.

Niles W. Bond, president of the Foreign Policy League, issued the following statement on the strike:

"Like everybody, I am opposed to war and all of its ills, and I firmly believe that if any solution to this age-old question is to be forthcoming it must be from the rising generation. Naturally, therefore, I am in favor of any constructive movement

BEERS WILL TALK TONIGHT ON MINDS

Author of "The Mind That
Found Itself" to Speak in Hill
Hall at 8 Tonight

Clifford W. Beers, secretary of the National Association for Mental Hygiene, and nationally prominent agitator for reform in the treatment of the insane, will be sponsored in a talk tonight at 8 o'clock in Hill Music hall by the North Carolina Neuropsychiatric society, which is beginning a movement to organize a mental hygiene society in Durham and Orange counties.

Shortly after his graduation from Yale, Beers was afflicted with a minor mental disorder necessitating his spending some time in an asylum. He is the author of the well-known work "The Mind That Found Itself." He has been working for more than 30 years to educate both the public and the medical profession to a new attitude toward the insane.

The North Carolina Neuropsychiatric society is a subsidiary of the North Carolina Medical society and was formed about two years ago to assist in the movement for more humane and helpful treatment of the insane. The society has sponsored the formation of several mental hygiene societies throughout the state and is now planning to organize such a society for this and Durham counties.
