

UNIVERSITY GETS EQUIPMENT GIFT FROM NAVY BODY

"Unlimited Loan" By Naval Department Valued at Between \$35,000 and \$40,000

APPARATUS LEVEL RAISED

Largely through the efforts of Dr. W. D. Crockford and Dr. Edward Mack of the chemistry department, the University has received from the U. S. Naval Research Department a gift, or "unlimited loan," according to Dr. Crockford, of scientific equipment and machinery whose value is estimated to be between \$35,000 and \$40,000.

This "unlimited loan" came as a result of a re-tooling or re-equipment of the research laboratories in Washington, and has been distributed among the chemistry and physics department, the power plant, and the buildings department. One of the three carloads is also being shipped to State College.

Level Raised

"This gift of apparatus," stated Dr. A. E. Ruark, physics department head, "most of which is in excellent condition, brings both the chemistry and physics shops up to a level of equipment equal to that of the shops of the largest and best endowed technical institutions in this country. And this is being conservative."

"A great many of the pieces," he continued, "are large and expensive ones which could not be purchased on the ordinary budget."

Through the efforts of L. B. Rogerson and C. T. Woollen of the business department, the apparatus was delivered with a cost to the University of only \$500.

Apache Dance, Chapel Hill Billies, Mellow-Drama "Bunk" Provoke Much Laughter

Comedy ran riot Wednesday night as both amateur and subsidized entertainers of the senior class presented an hour and a half stunt night program in Memorial hall.

Despite a Student Council and legion of decency bar on Wally Dunham's fan and bubble dance, the packed hall was provoked into sufficient uproar over the substituted Apache dance, the Chapel Hill Billies, and the evening's mellow-drama, "Bunk."
