CO-OP ANNOUNCES PLAN TO BECOME BUSINESS TRUST

Weeks Says Members Will Be
Asked to Vote on Change
During Week

WILL GET LEGAL STATUS

Haywood Weeks, member of the board of directors of the Student Co-operative Association, announced yesterday that a plan of establishing the Co-op as a trust, with five trustees at its head would be submitted to the vote of the members some time during the coming week.

After consultation with various members of the law faculty, it was decided that the trust would be the best form of business organization, rather than a partnership or corporation.

Explanation

The principle of the move perhaps calls for some explanation. It means that the present self-appointed directors are entrusting the management to five new trustees that will be chosen by the vote of the members who now reside in Chapel Hill. This will establish the Co-op as a legal business, which status it lacks at present. It will exempt the members of the organization from personal liability for any losses that might be incurred.

The present business management will be retained.

The Student Co-operative Association was established three years ago by five students who became self-appointed trustees. No definite form of business status was decided upon. Students were permitted to join the association by paying a fee of \$1, which entitled them to purchase haberdashery or have tailoring work done at cost price. There was no profit taken from the business operations. Salaries were given to the business managers and salesmen, and anything in excess of this was put back in the business to enlarge the stock of merchandise or buy new machines for cleaning clothes.

New Coach

Raymond "Bear" Wolf, who will take over his duties as head football coach here Monday. Wolf comes to the University from Texas Christian.

The student enrollment will be under the same terms and conditions as for regular CCC enlistments, \$30 per month with food, sleeping quarters, and clothes, except that relief roll requirements are waived, no allotment of pay to dependents is required, and arrangements will be made to discharge students in time to re-enter college in the fall.

Crammerer says that students will be given the opportunity to

Chapel Hill Graduate Student
Got First Training Under
Mrs. Phoebe Barr

Fred Howard, of Chapel Hill, graduate student, will leave in a few days for Lee, Mass., where he will join Ted Shawn's professional concert dancing group for a summer's training.

Howard has danced with Phoebe Barr, taking the male lead in last week's recital. Fred follows the footsteps of Foster Fitzsimmons, who last year went with Shawn.

Fred stated yesterday "I feel mighty fortunate in being able to get a job, but I am more fortunate in being able to have had training under Phoebe. She was most inspiring to work with. I don't see how so much inspiration and critical and technical ability could get combined in one person."

Fred said that he had already sent his picture to Shawn along with a doctor's certificate stating that he was able to do hard physical labor. "You know," continued Fred, "at camp where we learn to dance and prepare the program for the winter tours, we boys have to dance six hours a day and work three or four more cutting timber, building houses and dams. We will eat four or five meals a day and sleep from sundown to sun-up."

"I guess that I will be able to stand it, for Phoebe brought the brass out in me. Working with Phoebe has given me a lot of self-confidence, self-discipline and self-control. I have been
