## Bullet Richochets After Missing Dog To Graze Hamilton

University Junior Miraculously Escapes .22 Bullet Intended For Canine Pet

Horace Hamilton, University junior, is beginning to believe that he is leading a dog's life after an almost miraculous escape from death Wednesday when a .22 caliber bullet intended for his canine pet "Captain" ripped through his shirt.

Hamilton was walking past the east side of the arboretum Wednesday when "Captain" growled and rushed into the bushes. Curious, Hamilton started to follow. There was the sharp crack of a low-caliber firearm and Hamilton felt the hot lead tear through his shirt, leaving a hole in his clothing just over his heart.

The unknown bushwacker fled and Hamilton was unable to trace him.

Hamilton, number three man on the crack University golf team, claims that the bullet was intended for his dog, missed the animal, and ricocheted from the ground before spoiling his shirt.

## "Lysistrata" Dance Of Passion Proves Too Much For Playwright

Federal Theater Worker Tells Of Experiences At Afternoon Rehearsal

"Yes, we are going to be in 'Lysistrata' lusting along with all the other males, but we are not allowed to take part in the passionate, abandoned bacchanale of the last act," Herb Meadow bemoaned along with one of the other Federal Theater Playwrights who are studying under Professor Koch.

"You see Proff told us that we could be Senators, you know, the kind that wear white sheets with silver trimmings. So we artfully hid our script under our arm, so that all could see and admire, and donning our best senatorial chest and swagger we started off to find the Forest Theater."

### Lost

But the two did not find the theater, and after crashing through woods for some time, with a New Yorker's dread of snakes and other provincial dangers uppermost in their minds, they finally made their way out to the paved road. But not to rest.

"Excited voices were hurtling from the woods on the other side. Young voices jeering at old ones; girls' voices, the strident tones of young men demanding . . . but that was too much! We hoisted our tongues back into place behind our teeth

## FAIRLEY PRAISES NEW SUB-COUNCIL HONOR TRIBUNALS

Ex-president of Student Body Hopes Students will Adopt Recommended Plan

### WOULD REMOVE POLITICS

"The sub-council structure as recommended to the student body by the Student Council should prove of inestimable values in making the honor system and student government more effective" is the opinion of Francis Fairley, ex-president of the student body.

"This plan would greatly increase the number of students given an opportunity to participate actively in administration of student government," Fairley continued.

### Faculty

"Faculty members will sit as advisers without a vote on the sub-councils and will be of great help to the councils and can report to the faculty the developments in student government. There will be one member to each council appointed by the administration on the recommendation of the Student Council. These faculty members will be of great service in advising and helping students who have been given some punishment less than suspension."

"The faculty executive committee will be asked to decide all cases involving internal evidence (copying of quizzes, etc.) and thus will have a very useful and important part in administration of the honor system, and the number of students actively participating will be increased. This in turn provides excellent training ground in student government."
