Our Leader

Graham Greatly Criticized For Stands In Past Months

University Head Has Always Insisted on Intellectual Freedom, Student Government

By BOB PERKINS

In the past nine months President Frank P. Graham, who emerged victorious at the trustees meeting last night, has been criticized for his stands on consolidation, athletics, and for his liberal views, both in the press, upon the campus, and amongst the alumni.

Dr. Graham has always been an advocator of issues that would aid the down-trodden and has stood for honesty and nobleness of purpose. He has insisted on intellectual freedom and student self-government.

Fifth Year

This is President Graham's fifth year as leader of the University. He received his A.B. at Carolina in 1909, became an associate professor here in 1921, a full professor in 1927, and was inaugurated as President on November 11, 1931. In 1932 he became president of the Greater University under the new consolidation plan.

When Graham was elected president the story is told that he could not be found at first. Finally the committee sent out to locate him, found Graham riding around in a ramshackly old Ford. Informed that he had just been elected president he said, "But you can't do that, I am for Mr. Connor."

SENIOR GIFT

As their senior gift, the class of 1936 will give to the University \$250 to be set up as the Class of 1936 Loan Fund, it was announced yesterday.

The class will also give \$50 to the Institute of Human Relations, 1937. The \$100 remaining in the class treasury will be left there for class reunions.

Art Students Show Work On Wednesday

Exhibition Will Be in Music Hall From 4 to 6 O'clock

Included in the work exhibited will be sketches and portraits in oil, and water colors, pastel and charcoal studies, plaster plaques, and coats of arms. Students and townspeople are cordially invited.

Attack

Accordingly, after a motion was carried admitting both the press and the general public, Mr. Hill rallied his forces and began the attack on consolidation. After a brief summary of the history of the plan, he introduced Judge R. A. Sykes, who had been appointed chairman of the alumni association committee on consolidation.

Judge Sykes told how his committee had proceeded with the sending of a questionnaire to all living alumni within the state and to all members of the alumni association outside North Carolina. He then presented committee-member L. T. Hartsell to give the results of the survey.

Survey

Hartsell informed the trustees that, of the 3,916 ballots sent out, 836 favored removal of the engineering school and 2,320 were against it. He pointed out that the original idea was more one of co-ordination rather than actual physical consolidation. He cited the 1933 resolution passed by the trustees to "observe the letter of the law" and preserve the physical integrity of each school.

Hartsell concluded with a condemnation of "you scratch my back and I'll scratch yours" tactics, declaring that he was not in favor of trading departments.
