Carolina Theater Box-Office Returns Show Predilection for Musical Comedies

By KITTY DE CARLO

University students are music-loving creatures, according to the statistics in the Carolina theater box-office accounts. Or perhaps they are merely fun-loving.

At any rate, musical comedies are the most popular type of picture shown at the local picture house. The biggest box-office hit of the fall quarter was "The Great Ziegfeld." The most popular musical ever shown at the theater was "42nd Street."

Gable, Crawford

The second most popular movie last quarter was "Love On the Run" with Clark Gable and Joan Crawford. Third place was won by "The Charge of the Light Brigade." A large audience attended both "Anthony Adverse" and "Winterset." Another outstanding success was "Theodora Goes Wild."

Students like "The March of Time" and practically all of the cartoons. They show no enthusiasm for Edgar Kennedy comedies. Only a few like "Travelogues."

"Y" Discusses Spanish War

Dr. von Beckerath Leads Analysis Of Crisis

At the Junior-Senior "Y" cabinet meeting last night, Dr. Herbert von Beckerath, visiting professor in the University economic department, discussed the current Spanish situation with members of the group.

"Spain," Dr. von Beckerath said, "has been torn between French and Roman influence. The present situation is much the same as it was in the sixteenth and seventeenth centuries, except the present plan is somewhat more Protestant."

Spanish Crisis

"The nationalities of Spain are mixed and such a condition can cause a number of disintegrating influences. The territory of Spain is directly between two other countries and is secluded from the sea by a number of high mountains. Countries in a position like this have a time finding their own way—they usually get in some one else's way," the professor added.

As another reason for the present Spanish crisis, Dr. von Beckerath spoke of the weak rural class. He said that in Spain there are millions of peasants and poor laborers in contrast with the number in other countries.
