## Housing Chief Issues Plans For Holidays

### Students Must Leave Pillows, Blankets For Visitors

Final instructions to students as to the correct procedure for leaving their rooms for the visiting members of the American Chemical society over spring holidays were issued yesterday by J. S. Bennett, in charge of housing the convention.

"Students are asked to put all their clothes that they do not take with them in one closet and their trunk and lock both," explained Mr. Bennett. They are requested to leave at least one drawer for the delegates' use but it is suggested that all drawers be emptied.

#### Rent

"The students are to leave one pillow for each bed and two blankets. These blankets will be cleaned by the University laundry following the students' return and at the students' request. One dollar will be paid each student for the use of his room and \$1.25 if he does not have his blanket laundered."

Bennett further explained that no student will be paid this amount whose room was not used during his absence. All students will take their room keys with them. Bennett assures students of the safety of any furniture, lamps, pictures or other furnishings that are left in the room.

### Last Meeting Adjourned Early To Allow Members To Attend Institute Program

For the second successive time the Di senate and Phi assembly will meet and discuss the proposals for a campus legislature tonight in New East at 7:15.

At the meeting last week in the Di hall, the proposals were explained to the societies by John Parker. Plenty of time is scheduled to be given over at this meeting for discussion. ## Campus Cabinet Feels Legislature Should Be Set Up

### Plans For Structure, Powers Of Campus Organization Presented To Leaders

The Campus cabinet, a group of 40 students appointed by President John Parker, stood unanimously in recognition of the needs for a student legislature at a meeting Sunday night.

The report of the committee appointed by Parker to draft the structure and powers of the body was considered by the cabinet. The body approved a motion that two committees be appointed from the cabinet to revise some parts of the proposals.

#### Consideration

Members felt that such a step deserved more consideration.

Parker announced that suggestions growing out of cabinet meetings and formal fraternity and dormitory discussion would be amalgamated into a final proposal which will meet with a vote of the campus soon after the holidays.

In answer to requests for specific examples of power that the legislature might have which the Student council cannot exert, Parker cited the issues of staff elections, 8 o'clock classes, peace strikes, and the budgets of campus organizations.

Controversial issues were bases for representation, methods for forcing a quorum, and the extent of the legislature's power over campus organizations independent of student fees.
