BOMBS FALL NEAR BRITISH DESTROYER IN SPAIN

London, Sept. 18.—Six heavy bombs fell close to the British destroyer Fearless today off Gijon, Spain according to a report to the London naval authorities.

Leading a belief in London that the plane might have been a Spanish government craft was the fact that after having completed the attack, the plane flew toward Gijon.

The Fearless carried the regular identification as a British warcraft. It has heavy anti-aircraft armament but it has not been disclosed whether it opened fire on its attacker.

The attack was another of the almost countless incidents that have occurred on the Bay of Biscay and the Mediterranean since the Spanish civil war broke out 14 months ago.

AMERICAN POSITIONS IMPERILED AS JAPS ADVANCE AGAIN

Shanghai, Sept. 18.—More perils were brought to the American-defended sector of Shanghai's war-shocked international settlement today when Japanese artillery unleashed a new bombardment of the Markham road section.

Japanese shells crashed into the area close by the patrol assigned United States marines as Japanese navy planes, taking advantage of clearing weather, resumed bombardment of Chinese positions on a wide front.

A Japanese army officer asserted that at almost the same time Japan's land forces had repulsed Chinese counterattacks on a 25 mile front extending from the north at Liuho to Shanghai's outskirts.

Madame Chiang, the American educated wife of the premier, made a dramatic anniversary visit to comfort Chinese troops enduring hardships on the Shanghai front because of a downpouring of rain. Mme. Chiang, a sensation among the soldiers who call her "our mother," thanked fliers and soldiers personally for their courage in resisting the Japanese advance.

MORE CRITICISM OF BLACK FROM PUBLIC FOES

Washington, Sept. 18.—A new wave of criticism and support of Justice Hugo L. Black, alleged to be a life member of the Ku Klux Klan, came today from a number of public figures.

Republican Chairman John Hamilton termed it inconceivable that President Roosevelt "would knowingly appoint a Klansman to the Supreme Court."

Other new critics of the new appointee included President J. P. J. Shouse of the American Liberty League, Senator Connally, of Texas, and Senator Glass, of Virginia. Senator Lee of Oklahoma termed the Klan charges "only a smoke screen" laid down by persons who disliked Black's championship of the utilities holding company bill and wage and hour legislation.

Only old members will be admitted at the convening tonight, though all students, particularly freshmen, who are interested in debating and public speaking are cordially invited to the regular meeting Tuesday evening at the same hour.

Star Concert To Be Heard In Fall Series

Gershwin, Beethoven Are On Program Tonight

Students who were not in school during the past summer session will have a chance to hear the open air concert, "Music Under the Stars," when it is resumed tonight at 8:30 in Kenan stadium.

The success of the program tonight depends entirely upon the attendance of the student body and townspeople, University Instructor Hal Gordon, who has charge of the recording concert, explained yesterday.

Each recording for tonight's concert has been carefully chosen by Gordon for campus appeal. The R. C. A. recordings of famous classics have included such popular artists as Lily Pons, Gladys Swarthout, Nelson Eddy, Grace Moore and Paul Whiteman.

Gershwin Recording
Included on the program tonight will be the Lawrence Tibbett number, "It Ain't Necessarily So," from Gershwin's folk opera, *Porgy and Bess*. The recording proved to be a favorite with the summer school audience, having been played at more than half the concerts during the second session.

Recently Hal Gordon received a communication from the director of the Philadelphia orchestra, Leopold Stokowski, in which he was complimented upon the presentation of this type of concert. "For a number of years," the veteran musician said, "I have tried to present just this type of program but failed. It is my belief that music is comprehended by the layman"

Martin Will Open Assembly Tuesday

Speaker To Plan Organization Of Forensic Fraternity

Phi Speaker Drew Martin hopes to start quite a few wheels turning when his gavel drops at the assembly meeting Tuesday night at 7:15 in New East.

To begin with Martin will deliver his inaugural address by which he hopes to end all future inaugural addresses "even to that of the President of the United States if necessary."

Furthermore, Drew will begin work on plans for the organization of a forensic fraternity which will stimulate interest in debating on the campus and place more emphasis on the Di-Phi debates.

Topics of general campus interest will replace the old form of discussion bills. Light bills which were introduced formerly will be eliminated as far as possible.

A special invitation is extended to freshmen and new students who are interested in public speaking.

Coed Invades Steele Dorm

Miss Annis Montgomery, junior coed from the state of Virginia, started to her first class on the University campus last Friday morning.

Her class was in Saunders hall, home of the decorous English department. She had been told that Saunders was the first building on the left as you enter the class room sector.

Now Saunders is the first building on the left—if you eliminate Steele. But Miss Montgomery didn't eliminate Steele, so in she walked.

"It didn't look much like a class room," she said. There were several residents of Steele dormitory standing around, looking like residents of Steele usually look.

Miss Montgomery left much quicker than she had entered.

The Carolina Political Union opened its year's activities yesterday in Graham Memorial when it was decided that four new applicants for membership will be taken in within three weeks.

Talent Hunt

All freshmen and sophomores who are interested in working on the news, editorial, or sports divisions of the DAILY TAR HEEL staff are asked to meet at 2:30 this afternoon in room 212 of Graham Memorial.

After accepting the union's invitation to speak here, Trotsky was barred from entering the country by Secretary of State Cordell Hull, who stated in a letter to Heard that the Russian communist, now living in exile in Mexico, was classed as an undesirable because of his "known beliefs, activities, and advocations."

In accepting the union's invitation, Trotsky declined to lecture on a political subject because he "observes most strictly the principle of non-intervention into American politics."

(It was because Trotsky advocated the Third Internationale which seeks to spread communism over the world that he broke with Russian Dictator Stalin and fled to Mexico as an exile. Stalin wishes to develop communism in Russia only.)

Trotsky also observed in his acceptance note that perhaps "American Stalinists, and especially the direct agents of the G. P. U. in the United States, would attempt to disrupt the audience,"

Comer Reports Town Just About Full

According to Harry F. Comer, YMCA secretary and head man in getting new and old students under a roof for the school year, the rooming situation is "resting very nicely."

Mr. Comer stated that most of the desirable rooms in town have been taken and that the town is just about full. However, he said that the new tripling process that is being used in some of the dormitories is relieving the strain of the room shortage.

"I don't see any reason for anyone having to go home because he can't get a room," said Mr. Comer.

T. H. Evans, University cashier, announced yesterday that only 15 or 18 rooms have been used in the tripling scheme. He declared that there might be some necessity for further tripling, but that he believed the
