### JAP OFFICIAL MAKES VERBAL DECLARATION

Shanghai, Oct. 8—Japanese commander-in-chief on the Shanghai front, General Iwane Matsui, last night made the first official announcement of the Japanese invasion of China.

According to Matsui, the Japanese army "is now prepared to use every means to subdue its opponents." The commander stated that the army was prepared to utilize additional equipment, but refused to say whether the attack would begin on Oct. 10, a Chinese holiday.

After questioning a spokesman for Matsui, it was learned that the General now considered himself qualified to carry out the mission entrusted to him by Emperor Hirohito of Japan.

Matsui's proclamation declared:

"Charged by his majesty the emperor with the task of heading the Shanghai expeditionary force, I have landed on Chinese soil south of the Yangtze river."

He declared that the Japanese invasion was not to protect Japanese interests or lives in the affected area.

"The mission of the Japanese army is to establish the foundations for a firm and lasting peace in East Asia."

The spokesman indicated that he was very confident that as soon as the Japanese completed their present military plans, with the cooperation of the naval forces, the condition between China and Japan will be cleared up.

### U. S. INVESTIGATES NINE POWER PARLEY

Washington, Oct. 8—Returning from his Western trip, President Roosevelt called a special meeting of the cabinet and diplomatic advisors to consider the position of the U. S. so far as international efforts to stop the Sino-Japanese war are concerned.

The United States has not yet received a formal invitation to participate in the conference but Secretary Hull indicated that she will cooperate with all peace-loving nations.

Following this decision was the state department's formal denunciation of Japan as a violator of the nine power pact which requires the signers to respect the territorial and administrative sovereignty of China. This action is very similar to that of the League of Nations.

It was suggested abroad that the United States act as host to the nine-power conference. However, there was no official discussion of this point.
