#### SPANISH GOVERNMENT ACCUSES IL DUCE

London, Oct. 9—The Spanish government today accused Italy of planning new drives to aid the Rebels, in Spain.

In a note from the Spanish government, it was claimed that the new Italian developments would include "gas attacks on Spanish cities" of strategic importance.

Also indicated by the note was the fact that Italian submarines would be disguised with Spanish flags "so their piratical acts may be imputed to the Spanish government fleet" and used in the attacks.

These statements of the Spanish government were termed by a spokesman for the Italian embassy as "an absurd, domastic statement."

During this time Italy's reply to the Anglo-French invitation to discuss the withdrawal of foreign volunteers from Spain was received by the French and British envoys in Rome. Great Britain, however, refused to disclose the contents of the message.

It was stated by officials of the British government that they would devote several days to careful study of the Italian reply. It was also indicated from reliable sources that the study would be followed by a cabinet review of the entire situation, next Wednesday.
