Some 22,-000 spectators are expected to witness the feature of Carolina's annual Homecoming Day.

Tulane has been installed as a slight favorite by national prognosticators of the gridiron sport, but opinion in the south seems to mark the contest as a toss-up. And rightfully so, for both have flashed exceptional flares of brilliancy and both have shown weaknesses that may be the turning tide in today's meeting.

in the fall of Gijon.

Three predictions of eventual harmony among the nine powers represented:

1. British Prime Minister Neville Chamberlain's virtual assurance that Britain was determined not to go to war.

2. Chamberlain's statement that he had received assurances that Italy had no territorial designs on Spain, including the Balearic islands in the western Mediterranean.

3. The fact that the Spanish insurgents - aided by Italian and German intervention-had captured Gijon, center of the Valencia republican governgovernment's last resistance in the Spanish northwest. The fall of Gijon will release thousands of insurgent troops for possibly a conclusive drive against the Valencia armies.

Some felt that it may be impossible to get Russia to grant belligerent rights to the warring forces in Spain before all foreigners are withdrawn. This proposal won Italy and Germany to support the plan.

#### SINO-JAPS AGAIN LOCKED IN CONFLICT

Shanghai, Oct. 22. - Along the 25 mile Shanghai front today the Chinese and Japanese troops were again locked in a heavy battle with both sides claiming gains.

Due to the confusion of attacks and counter-attacks it was almost impossible for foreign observers to determine the exact situation.

At midday it was announced by a Japanese spokesman that the Japanese had forced the Chinese back several hundred yards to occupy an important Chinese defense position,
