COOPERATION OF U. S. SOUGHT BY BRITAIN

London, Nov. 10—The closest cooperation of the United States since the World War was sought by the British government today as they advocated a "hand-in-hand" policy in the Far East and elsewhere in the various diplomatic affairs.

The movement was believed to have resulted as an outgrowth of President Roosevelt's Chicago address on October 5. This address encouraged Great Britain to believe the Washington government might relax its traditional policy of isolation.

In a speech at Birmingham October 8, Prime Minister Neville Chamberlain welcomed the Roosevelt plea for concerted action for peace. Last night he made another step in a speech at Guildhall in which he called for fuller British-American collaboration.

Chamberlain spoke of United States participation in the current far eastern peace conference at Brussels as a "first and most valuable step toward fulfillment of the desire expressed by President Roosevelt at Chicago for concerted effort by peace loving nations for sanctity of treaties and settlement of differences by peaceful means."

"We are convinced that closer understanding and more complete community of purpose between our two nations may do much to assist the cause for which the President has pleaded and which also is nearest to our hearts," Chamberlain explained.

CONFERENCE ADJOURNS TO AWAIT JAP REPLY

Brussels, Nov. 10—Following the announcement of Belgian Foreign Minister Paul Spaak that Japan's reply to their peace note was expected Saturday, the nine power conference adjourned until that time.

Spaak, serving as chairman of the conference, said the latest information from the Belgian ambassador in Tokyo, Baron De Bassompierre, was that the reply would be decided upon at a meeting of the Japanese cabinet Friday.

He also added that the text of the note would probably be sent to the various delegations Friday night.

Before adjourning, the conference paid impressive tribute to the memory of Ramsay MacDonald, former British prime minister, who died yesterday.

Buenos Aires, Nov. 10—The first new world attempt at a corporate system of government was put into effect in Brazil today with the disclosing of a new constitution.

By this measure President Getulio Vargas assumed powers unequalled in Latin America at the present time.

Because of the Brazilian censorship, it was not possible immediately to learn details of the new constitution but they were expected to be revealed in a broadcast by president Vargas

'Quarantine War In East' Aim Of Japan, According To Suma In Speech Here

CPU Speaker Contends Japanese Ends Are Peace, Order

Blames Chinese

"Our present program is a determined effort to 'quarantine' war in the east," asserted Yachihiro Suma, Counselor of the Japanese Embassy in Washington, in his speech last night before almost a thousand persons in Memorial hall.

Suma, a Carolina Political union speaker, in presenting the Japanese government's stand went on to say, "Our ends are peace and order, not territory or concessions."

Fundamentals

In opening his speech, Suma said that he was going to "look beneath the superficial and emotional and get down to fundamentals."

The speaker dealt at length with the cause of the current Sino-Japanese conflict. He explained that a group of Japanese soldiers, stationed in Peking, were conducting rifle practice, using blank cartridges, on the night of July 7. They were fired upon by Chinese soldiers, and battle was averted at that

Fully 1,500 students gathered in what was said to be one of the most enthusiastic pep rallies of the year.

And it was believed to have been caused by students of Duke university.

Purpose To Show Team They Have Campus Backing

Rally Tomorrow

The University club announces a mass meeting of the student body tonight at 7:30 in Memorial hall in preparation for the Duke game Saturday.

Jim Balding, president of the University club, and "Doc" Helms will cooperate as masters of ceremonies for the program, which they promise will not last over 15 minutes.

Team

Since the team is always out of Chapel Hill the night before a game, and as it is always too busy with playing the game when it is on the field, the team seldom hears the enthusiastic cheers of the fans. This meeting is to give the team a chance to hear the cheering, and to give an opportunity to the students to pledge their support to the team in person.

Balding and Helms will introduce the members of the team, who will speak briefly on the prospects for the game. Several

POP QUIZ

By Bob Perkins

During initiation last year two fraternity pledges were locked in a room and told they could not come out until they had divided eight gallons of water equally into containers.

The containers at their disposal were an eight gallon bucket filled with water, and two empty buckets which could hold three and five gallons respectively.

How could they divide the eight gallons so that they would have four in the eight gallon container and four in the five gallon container.

Answer to yesterday's quiz: At first reading the series of negatives in the news story make it difficult to understand, but the answer is that the School Board may now refuse to hire a teacher unless she agrees not to join the union. Accordingly it may discharge her for breach of agreement if she later joins the union.

It is the lack of a reversal of a dismissal of a restraint which leaves the School Board to act. It may therefore deny the teachers anything it chooses in connection with this problem.
