BRITAIN TO OVERHAUL HER ARMED FORCES

London, Dec. 6.—Placing younger men in control to keep pace with "modern developments of warfare," the British government began a complete overhauling of her army "from the top" today.

Three of the four members of the powerful army council resigned and two of them were replaced by juniors in a daring "coup" carried out by Britain's hard driving new war minister; the 43 year old Leslie Hore-Belisha.

The plan was approved by the cabinet last night after many hours of discussion in army and government circles. It was designed to accelerate reorganization and equipment of the army, which has lagged behind the navy and the royal air force in the large British rearmament campaign.

Major General Viscount Gort—"The Tiger"—was moved to the highest army position, chief of the imperial general staff, by Hore-Belisha. Belisha skipped more than 30 generals who outranked Gort, a 51 year old World war hero.

Gort succeeded Field Marshal Sir Cyril Deverell who resigned. The retiring chief of staff was 63 years old and was known as one of Britain's outstanding tacticians.

The cabinet passed its approval of Hore-Belisha's move, however, newspapers said he took his "political life in his hands" by advocating such a program. The press said there would be a strong wave of opposition from powerful social army circles, but popular approval from the ranks.

GROUP TO STUDY PLAN TO CUT INTEREST RATE

Washington, Dec. 6.—Chairman Wagner (D., N. Y.) said today the senate banking committee, holding hearings on President Roosevelt's housing proposals, would study a suggestion that the interest rate on homes costing \$6,000 or less be cut to 4 1/4 per cent.

The President urged a reduction to 5 1/2 per cent, 1 per cent less than the federal housing administration now offers on insurable loans.

With the view of cutting down the monthly payments on a small house, the committee also will consider making the life of mortgages 30 instead of 20 years, Wagner said.

Experts told the committee last week that this would bring new homes within reach of those who could pay from \$20 to \$30 a month.

PLAN SECOND ATTEMPT TO BRING UP PLANE

Manteo, N. C., Dec. 6.—A second attempt to lift a navy scouting plane containing the body of cadet J. J. Jones of Washington from the ocean was planned by coast guardsmen and crew of a navy mine sweeper today.

A diver from the mine sweeper Owl found Jones' body late yesterday in the cockpit of the plane and a short time after the body of Machinist Mate Troy W. Blanton had washed ashore near Little Island, 10 miles south of the submerged plane.

The plane crashed into the

BACKERS SECURE ONLY ONE-FOURTH OF SUBSCRIPTIONS

Chairman Thinks Drive Proved Worthwhile For Campus

Receiving only one-fourth of the desired student subscription, the co-operative cleaners plan fell through yesterday.

Lack of time to adequately and thoroughly solicit subscriptions and lack of force behind the soliciting were the causes attributed to the failure by the Student Advisory committee, backers of the plan.

Different Story

"The student body today is not familiar with the situation as it existed before the co-operative cleaners was set-up back in 1933," said Bob duFour, chairman. "Otherwise there might have been a different story."

However, duFour expressed the opinion that the move was worth while. "The cleaning establishments in Chapel Hill know that there is still a group wanting the co-operative cleaners, and it seems that they would think twice before making any drastic raise in prices in
