Planned for Winter
Quarter**

Chairman Randy Berg of the Student-Faculty day committee announced yesterday that the official date for the event has been set for Wednesday, April 6.

Originally planned for the winter quarter, the fete was postponed because of a crowded schedule, and the new date was set to avoid conflict with other activities.

Although chairmen of the special committee for arrangements of the function have not been announced, they will be notified over the weekend, and will hold their first meeting in Dean House's office next Tuesday afternoon to begin work on the completion of the plans.

Aim for Gym

Symphony To Present First Concert Of Season Tonight

**Albium Pikutis Will Be
Guest Conductor
Of Program**

Hill Hall At 8:30

The University Symphony orchestra conducted by Professor Benjamin Swalin, will give its first concert of the season in Hill Music hall tonight at 8:30. Albium Pikutis, an alumnus of the University who is instructor of instrumental music in the Durham schools, will be guest conductor.

The program will consist of a variety of musical selections. The opening number, "Symphony in F major," No. 8, by Beethoven is a reversion to certain classical traits. The second movement is very light and humorous, and the third sounds like a peasant Laendler. The concluding movement is a very fast piece with heavy accentuations.

"Turmusik"

"Turmusik," the second number, an early suite for brass instruments by a seventeenth century German composer, is made up of old classical dances that were in vogue during the early period of instrumental music.

Offers Of WDNC, WBIG Outlined By Hogan Last Night

**FACULTY MEETS
AGAIN TO FORM
ATHLETIC POLICY**

**Another Attempt Will
Be Made To Complete
Formulation**

Another attempt to complete the formation of a definite athletic policy for the University will be made this afternoon at a general faculty meeting in Bingham hall.

The majority of the last four meetings have been devoted to discussion, revision and the adoption of certain rules since the administration over a month ago indicated its intention to abide essentially by the Graham plan although the plan had been dropped from the Southern Conference regulations.

The first meeting was taken up with the presentation of a set of regulations drawn up by a faculty-committee on athletics. At a second meeting the faculty voted to accept the present Southern Conference rules as a minimum, and to consider the subsidization issue further.

The third meeting saw the rule concerning scholastic requirements for students participating in varsity sports adopted.

Last Friday the faculty-committee's proposed rule on subsidization was discarded as it became apparent that a definite decision could not be reached. However the faculty accepted a resolution which urged "alumni and friends to submit to responsible faculty committees for approval under their regular standards any assistance extended or proposed to be extended to athletes or prospective athletes."

**Stations Can Not Make
Written Contracts
With Studio**

Statements Given

With statements from the managers of stations WDNC and WBIG, Milton Hogan last night outlined the cooperation which those two stations were offering to the proposed student extension studio at the University.

Hogan said he recognized the fact that no definite statement of plans had been made public and that because of this many students have not had an opportunity to acquaint themselves fully with the project before forming an opinion.

Spelt's Questioning
"Mr. Spelt's questioning of the soundness of the project under such a condition is justified," he said.

In answer to Spelt's statement that there should be some written agreement with the stations as to what their cooperation would be, Hogan stated that as the plan had not been finally accepted it was impossible for any contract to be made.

Statement from WDNC
However, he presented the following statement from J. F. Jarman, manager of WDNC:

"We (WDNC) have taken up the matter of line cost with the telephone company and they have given us the figures we requested.

"Although the cost for a permanent line from Durham to Chapel Hill is quite expensive, we believe that it would be best to have such arrangements in order that we might pick up programs from the University studio at any time, day or night.

"We are willing to take care of this end of the agreement if you are still in a position to offer the construction of the

LOWER HOUSE PASSES CROP CONTROL BILL

Washington, Feb. 9.—At the end of four hours debating today, the house of representatives passed the revised crop control bill. The roll call vote was 263 to 135.

The program would continue the soil conservation act and set up machinery with which the department of agriculture could apply marketing regulations to wheat, corn, cotton, tobacco, and rice.

Despite Republican protests, the debate was limited to four hours and no member was allowed to change any section of the bill which a joint senate-house committee drafted from separate measures which the two houses passed at the end of last December's special session.

Senators continued their fight over the anti-lynching bill with administration leaders expressing their confidence in the bill's passage. Southern senators, continuing their filibuster, stated that they saw no point in calling for a vote on the measure, saying its defeat is certain.

PRESIDENT WILL SEEK HUGE RELIEF OUTLAY

Washington, Feb. 9.—President Roosevelt will ask congress within the next few days for between \$200,000,000 and \$300,000,000 for the next five months' federal relief.

The President will probably send a message to Speaker Bankhead of the house asking for more funds to take care of demands expected during February, March, and April.
