Pope Outlines Present World Set-Up In Peace Speech

SENATOR'S TALK IS CLIMAX FOR ANTI-WAR DRIVE

Speaker Considers America As 'Bright Light'

By ED RANKIN
 "We are back where we were before the War," stated Idaho's Senator James P. Pope last night when he climaxed the campus peace demonstration sponsored by the Venidas Group and the Carolina Political Union with his speech, "Watchman, What of the Night?"

Senator Pope upheld his gloomy viewpoint by sketching the post-war history of the world from the days of the Peace of Paris till now.

Versailles Treaty
 The Treaty of Versailles has only two constructive phases, he said, and they were disarmament and the concert of nations. The United States helped to kill the League of Nations idea when it refused to sign. Instead of disarming after the War, the Allies spent more money to enlarge their armies and navies, therefore rendering the disarmament clause impotent.

Four recent reasons why the League has no power, the Senator said, are: (1), the entering of Manchuria by Japan and their non-declaratory of war, (2), Italy's invasion of Ethiopia, (3), the resigning of the dictatorship-ruled countries from the League, and (4), the very recent Anglo-Italian treaty through which "Europe has gone back to the balance of power principle."

On Spain
 In reviewing present day conditions in the world, Senator Pope stated that he believed Spain was to soon become another Fascist country and that "dictatorship means imperialism and imperialism means war."

South America, said the Idaho senator, is the object of a high pressure propaganda campaign and Brazil is a good example of a dictatorship run riot.

Hits Munition Makers
 The munition makers were attacked and the blame for the failure of the disarmament conference after the war was laid at their door when Senator Pope said a number of the actual members of the conferences were in close connection with the munition magnates. Neville Chamberlain and other men of his rank had much stock in armament plants and therefore had no sympathy with the disarmament conferences.

The main threat that the Fascists have in this country is the use of propaganda, continued Pope, but as the "overwhelming sentiment in the United States is against the Fascists," America should be a strong hold against dictatorship.

"Bright Light"
 And it was thus that the senator saw a "bright light" in the world situation. America today is the strongest defender of democracy and "this continent is a great place for (Continued on page two)

STRIKE THREAT RUMORED AFTER DEMONSTRATION

Brother School Protests Faculty Dance Decision

By BOB PERKINS
 Following two weeks of chafing under a faculty ruling which banned their final dance, students of the Raleigh division of Dr. Graham's Greater University of North Carolina paraded from State college to the Capitol building Tuesday night and burned in effigy E. L. Cloyd, their dean of students.

Yesterday morning the State college campus was fairly quiet after the demonstration of the night before which was taken to be the culmination of the "present dictatorship of faculty control, under which the student government has merely been a figure-head."

Calm Before Storm
 However student leaders stated that yesterday morning may have been merely the calm before the real storm. While reports of a possible "strike" of the entire student body were circulating, student leaders said action was being held up until student sentiment could be checked more thoroughly.

Students expressed the opinion that everything possible had been done on the peaceful side in the past two weeks to kill the faculty ruling. Until Tuesday night there had been no open demonstrations against the ruling. The opinion was expressed that this was largely due to strict faculty control at State where "any open reaction against the administration is considered equivalent to a shipping offense."

BONNER WINS YMCA ELECTION

Sophomore Gets Vice-Presidency

John Bonner, sophomore, was elected vice-president of the YMCA yesterday by a 30-26 count over Charles Putzell in a run-off from recent campus elections.

The post was unfilled on ballots in the general election after DeWitt Barnett withdrew from a two-way race for presidency, with vice-presidency scheduled to go to the aspirant receiving the least number of votes.

Withdrawal
 His withdrawal automatically left Brooks Patten as president.

Bonner was president of the Freshman Friendship council, a member of the deputation team his freshman year, and served on the dormitory and fraternity relations committee in the Religion and Life conference.
