FOUR VIOLATORS SUSPENDED BY STUDENT COUNCIL

**Names Withheld;
 Two Other Minor
 Cases Pending**

Jim Joyner, president of the student body and head of the student council, revealed yesterday that four students have been suspended from school during the last week for violations of the honor system and the campus code. Names of the students will not be exposed, according to Joyner.

The council, which met in lengthy sessions Monday and Tuesday night, has yet two cases pending. These, however, are for minor offenses. Two persons have been placed on probation for a year for violation of the code, and another was reprimanded by the council for his attitude toward the honor system.

Of the four suspended, three were violators of the code. A single application for readmission has been received. Joyner stated that one boy dropped out of school during the investigation and will not be able to come back until certain matters are cleared up for the council.

Another session of the council is to be held Tuesday at which minor offenses will be taken up.

FOREST COMEDY TO BE CONCLUDED TOMORROW NIGHT

**Last Show Will

 Drama Department**

The last performance of "The Merry Wives of Windsor," annual Playmaker outdoor production, will begin tomorrow night at 8:30 in the Forest Theater to climax the year's work for the department of drama.

Recently played on Broadway, this Shakespearean comedy, a favorite of Queen Elizabeth 300 years ago, has gained much recognition. Every attempt has been to produce this with all the skill and color that it was written. In cooperation with the departments of art and music, scenery and music have been provided.

Students Urged To Send In Self-Help Applications Soon

**600 Prospective Applicants
 Apply For Scholarships;
 700 Want Jobs**

"All students now holding self-help jobs or scholarships, or both, or those who expect to hold jobs next year, must send in applications to the self-help committee by the end of the present term," self-help Secretary Edwin S. Lanier announced yesterday.

"Already, scholarship applications from prospective students have reached the 600 mark," he continued, "while 700 have requested self-help jobs."

In the past year, the University has received \$29,485 from the NYA, representing help for 225 students or eight per cent of the student body less than 25 years old. Whether or not any funds will be received from this source for 1938-39 depends on the result of President Roosevelt's \$75,000,000 student-help bill, now before Congress.

"All applications for University paid self-help jobs are considered applications for NYA help as well," Lanier finished, "and the basis of award for both scholarships and jobs are need and scholastic excellence." 13

Resolution Is Introduced At Faculty Meeting

"I think that there are enough distractions on the campus already," Dr. V. A. Hoyle of the Math department stated yesterday when questioned concerning the resolution he introduced before a late faculty meeting to abolish the recently celebrated Student-Faculty day.

Dr. Hoyle does not believe that there is any special need for a Student-Faculty day for there should be good relations between the two factions year round and not with all the attention on one day.

"There is no spontaneity to the day," he said. "Approximately 900 students and faculty out of 3500 attended the coronation. Most students take it only as a holiday to leave town."

Holidays

In defending his viewpoint, Dr. Hoyle remarked that "no business man could run his business" with the number of holidays that are given the student body at Carolina.

"I don't think that eggs thrown at students who have their heads through a hole in a sheet of canvas, and roped off street dances" uphold the dignity of the University," Professor

The University conferred an honorary LL.D. upon him in 1927.
